MANY ARE DEAD

The Total Number of Victims of Ford's Theater Disaster Now Amounts to Twenty-Three.

A Full List of Those Who Were Killed, With Sketches of Their Personal History.

Heartrending Stories of Suffering and Distress Growing Out of This Calamity are Being Told.

The Coroner Will Begin an Inquiry on Monday, and the War Department Will Investigate.

WASHINGTON, June 10.—Until late last night workmen had been employed in moving the tons of loose bricks and broken timbers from Ford's theater building, and this morning the old hulk looked less hideous than when the scores of dead and broken bodies were yesterday being carried from it. A hundred or more broken desks and tables were piled in the rear on each floor, and the litter of papers and books had been gathered up and such as were of any value taken to a place of safe keeping.

Broken and twisted gas pipes protruded from every part of the wrecked section of this building. By 8 o'clock, an hour earlier than usual, the old clerks began to arrive at the building and every new-comer was greeted with effusive welcome by his comrades. And then they told tales of marvelous escapes, and each was again and again questioned as to where he was at the awful moment. Tears filled many eyes, as each told of his experiences and how he had seen one whom they all knew and loved dashed down to death.

Many of the clerks, with a view to not losing any time, knocked on the door of the annex building adjoining the main theater, and the officials within reported for duty. But no suitable building has yet been secured, and it will probably be some days before the force is again put to work.

The coroner's jury will commence Monday. The jury impaneled this morning consists of practical business men of high character. Investigation by the war department will also be had, stories of suffering and distress growing out of this calamity are heart-rending.

Though there are persons known to have been in the building still unaccounted for this morning, the reported death list has not increased beyond the number given last night, namely, twenty-two. They are recapitulated with details as follows: Allen, George O., of Pennsylvania, aged 52, unmarried. Mr. Allen had been in the department since 1865. He was a veteran of the late war and served with gallantry. He was a native of Philadelphia, where a mother and two brothers survive him. His remains will be sent there for burial. He was a member of Garfield post G. A. R. and his comrades have taken charge of him.

Arnold, George M., of Virginia, aged 35, leaves a widow. For some time he had been in a mad leap from a rear window of the old theater to the cobble-paved alley below, was one of the best known and popular colored men in the city. He served during the war as steward of the Fourth United States colored troop and after the war was connected with the Freedmen's bureau in North Carolina, where he was once a justice of the peace. He was appointed by President Hayes to the position he held at the time of his death. He was married for the second time six months ago.

Banes, Samuel P., of Pennsylvania, aged 55, leaves a widow and grown family. He served during the war in Company I, Third Pennsylvania reserves, and then settled down at Bristol, where he married. He was a member of H. Clay Post No. 1, G. A. R. of Bristol, Pa., where his body will be taken for burial.

Bondy, L. W., of New York. No details have yet been obtained as to Mr. Bondy.

Busius, John, of District of Columbia, aged 54, leaves widow and family. He was born in Germany and served in the Fourth Michigan infantry. His daughter was married only last Wednesday and now lies at her home prostrated with grief. He leaves a widow, his second wife, and two young children in absolute want. What made the shock all the more severe to his widow was the manner in which the news reached her. An excited woman called her out of the house and told her that the building had fallen and her husband killed.

Chapin, J. E., of South Carolina, age unknown. He leaves a widow and three young children.

Daley, Jeremiah, of Pennsylvania. He had been employed in the office for about three years, but his home was in Howard, Center county, Pa. Mr. Daley's father, who is in the city, took charge of the remains. Mr. Daley was a bright young gentleman, about 24 years of age and of excellent personal traits. He will be taken to Howard for interment.

Fagan, Joseph R., of Kansas, aged 37, leaves a widow and two little girls in straitened circumstances. He was a member of a friendly society, which will take charge of his interment.

Gage, J. B., of Michigan, age unknown, leaves a widow and child. He was a Grand Army man and had been a resident of Washington for three years and with his wife and one child boarded at 2519 Pennsylvania avenue. The body was badly bruised and had already been made at the time of Mr. Gage's death for his wife to return for a visit among her old friends in Michigan. The visit was postponed only last week and she was to have gone in a few days.

Jarvis, J. M., of Michigan, no details.

Jones, J. Boyd, of Wisconsin, no details.

Jordan, David, of Missouri, aged 39. He leaves a widow and little child in rather straitened circumstances. He was 30 years old and had been married twice before. He went from his native state, Indiana, to Putnam county, Missouri, where he published a newspaper at one time and also held the position of county treasurer. He was a man of rather quiet habits.

Loftus, Frederic B., of New Jersey, was in his 57th year and had spent over thirty years in government service in the office in which he died. He was born in Ireland and coming to this country when a young man lived for a time in New Jersey, from which state he was accredited. He leaves a widow and six children. One of his daughters is the wife of a Baltimore clergyman.

McFall, J. H., of Wisconsin, aged 35, leaves a widow and child. He came to Washington from Wisconsin about eleven years ago and had served continuously in the war department, where he was well liked by his superiors and his associates. Mr. McFall married a few years ago. With their little daughter, Mrs. McFall was absent on a short visit to her father at Lynchburg, Va., where the terrible news of her husband's death reached her last night. She is expected home today.

Maeder, Otto F. W., of New York, aged 38. He was a native of Germany, but came to Washington from Buffalo, N. Y. He had been in the capital nearly a year and was a faithful, efficient clerk. His widow, an honest faced little woman, told between sobs the story of their struggles. They had bought a house in Buffalo upon the installment plan and were laboring together, economizing in every possible way to pay the debt. Every cent that could be spared from his earnings went into this house. It is still far from clear and Mrs. Maeder is left with this burden upon her and no means of lightening it. "The poor fellow," she sobbed, "had only such money as was in his pockets." They have no children. Maeder's body is still at the undertaker's. He will be buried here. He was 38 years old.

Miller, Benjamin F., of New York, aged 51, unmarried. Probably no man in the fatal office was better known than Capt. Miller, his honorable war record and fraternal ties in several organizations as well as his genial personality, serving to make him most popular. He was born in Utica, N. Y., and with several brothers resided in that city.

Miller, Benjamin F., of New York, aged 51, unmarried. Probably no man in the fatal office was better known than Capt. Miller, his honorable war record and fraternal ties in several organizations as well as his genial personality, serving to make him most popular. He was born in Utica, N. Y., and with several brothers resided in that city.

Mullady, Michael T., Louisiana, no details.

Nelson, Burrows, of West Virginia, age unknown, resided 823 New Jersey avenue, leaves widow and family. He was a devoted and practiced his profession in the odd hours left him from his desk duties. His family was large and he found double work necessary to make both ends meet. A widow and five little children survive him. His widow is upon the eve of her sixth maternity. He leaves nothing, his profession and his position being all that he had. His was the last body recovered. It was taken from the ruins at 4:30 p. m., so covered with dust and soiled that it was unrecognizable. His family were anxiously inquiring for him all of the day, but were under the impression that he had taken a day off and for some time. For so long a reason he had vacated his desk and gone to the lower floor just before the crash came. Had he remained seated the probabilities are that he would have been injured as the desk was located in a part of the building not affected by the cave in. Dr. Nelson has been in Washington for twelve years. He was one of the original faculty of the Columbia dental college and was for a long time employed in the office of the surgeon-general. His father was a grandson of one of the secretaries of the treasury.

Miller, Howard S., of Ohio, 117 Thirtieth street, N. Y. No details.

Scriber, William, of Maryland, lived at College station. His remains were taken home to Maryland yesterday.

Schur, Emanuel, of Kansas, aged 38, leaves a widow and child. He was born near Galisburg, Pa., but came here from Topeka, Kas., in October, 1892. His body will be taken to Galisburg for interment. His brave little widow shows great fortitude in her sad bereavement. She has a little daughter, 13 months old to support.

Williams, Frank M., of Wisconsin, aged 28, unmarried. He has parents living in Middleton, Wis. He came to Washington in 1889. He has four brothers and two sisters living at home and elsewhere.

The death roll received another accession this morning when A. M. Gernault, a clerk from New Jersey, gave up the struggle which he had maintained against awful odds for nearly twenty-four hours. He went down in the midst of the wreck and sustained injuries from which he never rallied. One arm was broken, his head was cut and the shock produced concussion of the brain. He was taken to Mertz's drug store, the temporary resting place yesterday of many of the injured, but his injuries were of such a serious nature that he could not be moved and he died this morning, making the twenty-third name on the list. Mr. Gernault leaves a widow and a married daughter. The former was at his side throughout the night and was with him when he died. The body will be taken to his old home in New Jersey for burial.

A report gained circulation that Albert G. Yount, of Pennsylvania, chief of a division in Ford's theater, died from his injuries last night. The report is incorrect. Mr. Yount is still alive but in a very critical condition.

Later, Lewis W. Bondy, of New York, reported in the list of dead, escaped uninjured. This reduces the total number to twenty-two. There is still some doubt about the death of M. A. Jarvis, of Michigan.

The report made by the superintendent. (Continued on page six.)

QUIET AFTER BATTLE MANY ARE DEAD

Sobs and Groans of Sorrowing Women and Suffering Men Succeed the Bloodshed at Lemont.

Three Men Positively Known to Be Dead and Probably Several Bodies in the Canal.

The Second Regiment Now on the Ground and No Trouble Has Occurred Since Yesterday.

CHICAGO, June 10.—Following the turmoil and bloodshed of yesterday quiet has fallen on the town of Lemont and sobs and groans of sorrowing women and suffering men replace the sounds of yesterday's strife. This morning added another to the list of dead. George Kiska, who was shot through the right lung, expired at 6 o'clock. On the ground beneath a huge oak tree at section 10, covered by a gray woolen blanket lies the body of another victim of yesterday's trouble. His name is not known. He was probably a Pole and it is supposed he came from Rome, or Joliet. His body still lies almost where he fell when shot, waiting for friends to claim it.

These two are the only ones positively known to be dead, though it is generally believed that from three to five bodies are in the canal. This morning a large number of men are dragging the canal for the bodies of those supposed to be drowned in it. The body of another victim of yesterday's fight was found this morning near the county line fairly riddled with bullets. He had run or walked nearly half a mile from the scene of the trouble before succumbing to his wounds. A search of the remains showed nothing which would indicate his identity. Thirty-five special deputy sheriffs left for Lemont at 8:35 o'clock this morning. The Second regiment with Company C of the Third regiment, all under the command of Col. Louis S. Judd, left for Lemont at noon today to assist in preserving the peace at Lemont. Up to this hour there has been no further trouble at Lemont today.

ONE KILLED AND MANY HURT. Strikers Attack Drainage Contractors Who Return the Fire.

CHICAGO, June 10.—An encounter occurred between the strikers and drainage contractors at Rome, Illinois, about 1 o'clock yesterday afternoon and an unknown man was killed and among the wounded are: Thomas Merika, shot in the breast and will probably die; Antonio West, also shot in the breast and fatally injured; Frank Blodgett, struck in the head and badly wounded; Sam Keschusch, struck in the head, Edmund Schodsch, struck on the head with a musket. There were also twenty or twenty-five others badly injured. Thirty-two strikers were arrested and locked up. The strikers came down from Lemont and began firing on the contractors and their men. The latter returned the fire with deadly effect. All the victims were members of the attacking party. The fight was of short duration, but it was bloody and bitter while it lasted. After being repulsed, the strikers withdrew to Lemont for reinforcements and another visit from them is expected.

When the party from Lemont approached the camp from the South an hour later the lookouts gave notice to the negroes who were placed by the men in charge at various points of vantage on the summits of the huge piles of rock which surround the camp. The strikers approached unconscious of the reception in store for them. When about 500 feet from the camp a whistle was sounded. This was a signal for the negroes to fire and instantly 100 rifles belched forth their death dealing missiles into the ranks of the strikers. Many fell at the first fire, while those uninjured started to flee. They were almost surrounded, however, and as the firing continued they became thoroughly bewildered. At last an avenue of escape was discovered and then began the mad race for life. The negroes gave pursuit firing as they ran, bringing down a hapless striker every few rods.

For a mile and a half the chase was kept up, and marking the road for this distance with a trail of blood. Two of the wounded strikers were seen to fall into the canal. The others who were killed outright died where they fell into the roadway. While the battle was in progress Ludwig Kruger, a section man employed on the Santa Fe road, was mistaken for a striker and shot through the abdomen. He will probably die. At 11:15 p. m. in reply to repeated requests of Sheriff Gilbert, Governor Altgeld ordered the Second regiment to proceed to the scene of the trouble.

Closed Its Doors. MISSOULA, Mont., June 10.—C. P. Higgins' Western bank, a private concern, closed its doors yesterday, displaying a formal notice of suspension. Stringency of the money market and threatened litigation precipitated the collapse.

Treasury Appointments. WASHINGTON, June 10.—Official changes were made in treasury department today as follows: Appointments—F. H. Helmer, disbursing agent public building, Jackson, Mich.; Edward W. Young, assistant keeper of Conception light station, California.

Many Buildings Burned. PORTLAND, Ore., June 10.—Oakland, Douglas county, a town of about 800 inhabitants, was visited by fire at 1 o'clock this morning and eight business houses and two saloons destroyed.

A Life Sentence. MEMPHIS, Tenn., June 10.—Butch Bradley, the notorious burglar and crook, was sentenced this morning to a life term in the penitentiary for the murder of John Rogers, alias Kelly.

Gas Plant Burned. MCKEESPORT, Pa., June 10.—At 2:30 this afternoon the city gas plant was destroyed by fire. It was caused by the explosion of some oil in an adjoining building. Loss about \$70,000.

CHRISTIAN ENDEAVOR.

(Continued from page one.)

ent of the Emergency hospital this morning concerning the injured men is encouraging. Some of the patients show improvement. The condition of the injured is as follows: A. L. Ames, Iowa, skull fractured, leg broken and internal injuries, condition unchanged, but there are hopes of recovery. Robert Smith, of Connecticut, compound fracture of skull. P. K. Pennington, of Alabama, fractured skull; removed to residence; slight better.

This morning Col. Ainsworth asked for a court of inquiry to determine the cause of the calamity and if possible fix the responsibility where it properly belongs. The request for a court of inquiry to determine his connection with the responsibility of the war department for the Ford theater catastrophe was laid before Gen. Lewis Grant, the acting secretary of war, this morning.

A STAY WAS GRANTED. The World's Fair Will Be Open to the People Tomorrow.

CHICAGO, June 10.—Chief Justice Fuller today entered a suspension of the temporary injunction which had been granted by the United States circuit court to restrain the World's Columbian exposition from opening the grounds and buildings on Sunday. He set the hearing of the case in the United States circuit court of appeals for Thursday morning next at 10 o'clock and ordered that notice be given to Judge Bunn, of Madison, and Judge Allen, of Springfield, to be in attendance at the sitting. The fair will be open tomorrow.

Received Recognition. Joshua B. Culver, post, No. 128, has received recognition by the department, G. A. R., by the following appointments: George N. La Vaque, junior vice-department commander; Rev. H. G. Bilbie, department chaplain; N. A. Gearhart, member of soldiers' home committee; James A. Grey, aide-de-camp on staff of department commander; and R. W. Mars, national aide to the Naval Veteran association of the United States, with rank of lieutenant commander.

"A Lively Movement in Stocks."

True to Her Word. "When I gave you \$10 to go shopping with this morning, Lucinda," said Mr. Bushquill sourly, "you said you would furnish me a suggestion for a sarcastic epithet."

"Here it is, Henry," replied the editor's wife sweetly, submitting for his inspection several yards of material; she had purchased for the sleeves of her new dress. —Chicago Tribune.

A Boycott. Lady of the House—Little boy, I want you to do an errand for me. Go over to Mr. Margerine's across the way, and tell him to send me four pounds of sugar, two pounds of butter and a yeast cake. Little Boy—Can't do it, ma'am. Boy—Shoeblack, I am, and our society has voted to boycott Margerine 'cause he wears russet shoes. —Boston Transcript.

Reporters. "I can't take this job," said the editor. "It's been done, and we never do anything in this office that has been done before."

"Then you've got to take it," said Wadg. "If you resign, it will be doing what has been done before." —Frith.

TOPIC FOR THE WEEK BEGINNING JUNE 21.

Comment by Rev. S. H. Doyle, Editor of the Christian Endeavor, June 21, 11 A.M., 11:15, 1 P.M., 1:15, 2:15.

No better introduction to our topic could possibly be made than the quotation of the reference Book, 2d, 1, "Remember now thy Creator in the days of thy youth, while the evil days come not, nor the years draw nigh when thou shalt say, I have no pleasure in them." These are very familiar Scriptural words and are often repeated to the young and form an appropriate introduction to the topic, "Our young lives for Christ."

1. The young should be instructed in Christian truth. (1 Tim. iii, 10). In fitting Timothy to contend in the things which he had learned and been assured of—namely, Christian teachings—Paul reminds him that he had from a child known the Holy Scriptures. This was true, for in his childhood he had been the grandson of Timothy, and his mother, Eunice, had both been Christians before him. It was natural, therefore, that Timothy should know the Scriptures. It was also well for him to hold to it. It had been his mother's treasure. It was her legacy to him. There was reason indeed that he should prize it highly and not neglect it. It was also able to make him wise unto salvation because it was his own word. This was a still greater reason why he should prize it and continue in it. All young people should know God's word. Parents should instruct their children in it. But if ours be not, we should seek this knowledge for ourselves for two reasons: 1. Youth is the time to learn it. It is easier then to do so. It is easier to retain it. 2. It is God's word and can save, and the young as well as the old need salvation.

2. The young should practice Christian truths (1 Tim. iv, 12). Paul exhorts Timothy not to let any man be ashamed of his youth, but to be an example in word, citizenship, love, spirit, faith and purity. Timothy also, a young man to be in the ministry, yet this need not hinder him in his labors unless he conducts himself foolishly and vainly. Because we are young is no reason why we should not profess and serve Christ. The world respects youthful Christians perhaps even more than older ones if the profession is consistently carried out. Our young lives should indeed be given to Christ. It is the best time to serve Christ. He wants us to serve him then. We can do more for him then than at any other time. Let us therefore come to Christ's word and see what He would have us do, and then let us do it. Knowing is not enough; we must act upon our knowledge. If you are a young Christian, prove by your actions that you are a sincere Christian, and no one will think less of you because of your youth—only more.

Bible References—Ex. x, 1-5; Prov. iii, 1-4; 1 Sam. ii, 24; Lam. iii, 27; Math. 13-15; Luke x, 41-42; Mark x, 13-16; 1 Cor. x, 13; Phil. i, 27; 1 Pet. 3, 5; Heb. x, 23; Rev. xv, 16. Christian Endeavorers in India. The town is Madanapalle, in the Madras presidency. The white lunatics are lured to the missionary wagon, into which we clamber for a ride of a mile or so from the mission bungalow to the center of the town. Beside the carriage on each side marches a row of Endeavorers, Ephraim and Isiah, Isaac and Gabriel and Jacob and many other Scripture worthies, forming such an escort of Old Testament characters as we never expected to enjoy. For awhile they march along in silence, but as we near the center of population our Endeavorers clang their cymbals and strike up a gospel song in Telugu. As they come to the more thickly populated streets, the singing becomes more vigorous, and before they get to the place of meeting they divide into three or four bands and march through the leading streets of Madanapalle singing at the top of their lungs the gospel invitation. Slowly from street and alley and courtyard the crowd begins to gather, attracted by the singing, and all converge to a central spot under a spreading banyan tree. A white-curtained wall on one side of the street serves as a white-curtain for the magic lantern pictures, and in front of this the expectant people gather. Now the preliminary services are over, and pictures from the life of Joseph are shown upon the screen, while one of the missionaries explains, apparently greatly to the edification of the interested throng, the thrilling scenes in the life of Egypt's premier. Then a native pastor takes up the story and sends home the lesson. Another hymn is sung, and another worker, this time one of the Christian Endeavorers, who is also a catechist, explains and expounds the life of Christ as the scenes are thrown upon the wall. And so on for more than an hour the gospel is proclaimed to eye and ear. Scarcely any one leaves the circle of listeners. No one yawns, no one seems weary, but in stillness and reverence this audience of 500 heathen listen to the word of life. Who can tell what good seeds are there implanted, which may bring forth fruit, some a hundredfold? —Rev. Francis E. Clark in Golden Rule.

They Will Come. They will come—the milk white daisies. And green leaves for the trees. We shall see the steady roses. And feel the soft June breeze. The rivers again will mirror The willows nodding near. And the birds will fill the echoes With anthems to the year.

We have seen the skies low dreary, And earth laid in heralded— Did not the autumn come again? And pay us for the cloud? We had faith the fruit was sleeping In nature's secret fold. Did the summer gates not open And show us green and gold?

O ye hearts bowed down in sorrow, This lesson is for you: 'Tis the love word of the Master To send you summer too. Only trust Him as you trusted That winter would depart: 'Tis as surely His purpose As a June time for the heart. —Presbyterian Banner.

SAVED.

All day long the refrigerator man had talked refrigerators. One woman, after another had stopped, peered, questioned and passed on with the remark that she'd see about it. Not a sale had been made. His heart ached, and his voice had almost left him. In his heart he was hoping that not another woman would pass that way before closing time, when one suddenly turned the corner and came to a halt. He noticed a gleam of despair and stepped forward. There were 14 refrigerators standing under the awning before her eyes, but of course her first query would be if he had any refrigerators for sale. He was preparing to answer in the affirmative when she observed:

"You sell refrigerators. These are my refrigerators. The prices are \$8, \$10 and \$12. You guaranteed that butter won't taste of onions if placed side by side. Hard wood, zinc lined and packed with charcoal. No machinery to get out of order—mounted on casters—takes 10 per cent less ice than any other refrigerator. Send me up this \$10 box!"

She handed him her address and a \$10 bill, and a passing car and avenue hurriedly moved on. It had stopped, and the salesman stood staring after her for a full minute before he could realize the situation. Then he dashed a tear from his eye and whispered:

"Heaven bless that woman! She has probably saved me from a suicide's grave!"—Detroit Free Press.

ONE PRICE AND THAT RIGHT

American Store.

Gladstone Said:

In a debate, "that his adversary's harangue was as transparently false as the shopman's yarns, continually claiming to sell his wares at cost and less." It does not render the \$1 article less cheap to say it is worth two. Neither does it render the less false his claim who would vice for-virtue pose. The naked truth is in this event entirely buried beneath a mountain of prevarications, etc.

Do you believe anybody starts in on the 1st of January and for three hundred and sixty-five days in the year, each succeeding one of which he claims to sell goods for less than the day before, and at the starting claimed to sell them less than cost. Do you believe such stuff? Is it not upon the face of it ludicrous?

And you'll notice they are all the same. Merely "a nightmare," an "advertiser's spasm," constantly placed in printer's ink, to catch as the circus bill. This congregation of people in the Millinery and Cloak Departments, are not there in response to fairy stories, but attracted by the goods themselves. It would not make those beautiful trimmed Leghorns any prettier that are selling so speedily, at \$2.50 were we to say they were worth \$8. It would not make those waists any the less desirable we are selling at 45c to say they are worth double. It would not make the Cloaks, the Gloves,

the Linens, the Veilings, the Silks, the Dress Goods or the Beautiful Gingham and Wash Goods; we say it would not make them less cheap or less desirable were we to say they were worth double what we were selling them for. We positively know more about the Dry Goods business than any concern in this locality. We buy stylish things. We know where they are produced and what it costs to produce them. IN HONOR OF A STATE

Ohioans in Duluth Banquet at the Spalding and Land Their Home State and Its Men.

Ohio Has Many Good Things, But the Menu Proved That Minnesota Has a Few Also.

Eloquent Tributes to Ohio's Commerce, Soldiers, Statesmen and Citizens by Post Prandial Orators.

Ohioans in Duluth put aside the cares of life last evening and joined in a banquet at the Spalding, the first of the Ohio society of Duluth. This organization was given existence only about three weeks ago and largely through the efforts of S. L. Fraser and Thomas S. Wood. It has resulted in bringing together a large number of people and establishing between them ties of friendship the existence of which they were heretofore unaware of. It was a fine gathering that was seen at this banquet and a body of citizens which they might feel proud at having sent forth.

About seventy-five people entered the dining room at 8 o'clock after a short reception in the hotel parlors. A delicious dinner was set forth by Col. Emerson and the guests fully appreciated its excellence.

C. A. Long was toastmaster and spoke briefly of the grand old state in opening the oratorical menu. He remarked that while this was an Ohio banquet, the people would not forget that they are Minnesotans, but would remember rather that because they have been Ohioans they will be better Minnesotans when they leave the state. He then spoke of the fact that he had lived in Minnesota so long that he had grown to think, act and talk only as a Minnesotan. He recalled the days of 1855 when he came here and all of the Ohioans would not number over five or six. He expressed his gratification at the results of the organization of the society and felt that it will grow.

Mayor of Autremont was introduced as the man who could tell how Ohio people conduct themselves as Duluth citizens, he being at the head of the police. He made a very bright speech, complimenting the Ohioans as citizens and said they owed it to the stock from which they came. The first Ohio citizens were good people and have given their stamp to the whole people of the state. To the mothers and wives of Ohio he declared that the state owes its true greatness. They have made the men who are some of the best in the world. He then spoke of the "Ordinance of 1787." In opening, he quoted Chauncey Depew's remark that "some men were born in Ohio and some were born in Ohio." The people of Ohio, he declared, are the peers of any one on earth and attributed their greatness to the advantages of education and the institutions under which they live. He spoke generally of the great ordinance and the influence it wielded in the formation of other constitutions.

Maj. Sears responded to "Ohio in the Army," and in his remarks declared that "after dinner speaking is a fine art neglected in the curriculum of West Point." The subject assigned to him he felt to be too large for one man. Ohio's men were found on every battlefield, always faithful. When the call for troops came more men were offered than were wanted, and over 60 per cent of her military population marched to the defense of the country. Many names of prominent soldiers were mentioned by Maj. Sears, and finally the three greatest, Grant, Sherman and Sheridan. Rounds of applause greeted the mention of each name.

A. L. Thurman made one of the brightest speeches of the evening in response to the toast, "Ohio's Bench and Bar." Many of the early careers of the lawyers, he said, and they studied the organic law of her constitution and laid the foundations for one of the greatest bodies in this great country. The constitution of 1802, though formed in a few days by lawyers, was never revised for fifty years. The legislators then passed but few laws, and these were honest ones. Lawyers were the servants of the people for the attainment of justice, and the great influence of these early lawyers has permeated the bar to today. "Ask me for an honest and a courteous bar," said Mr. Thurman, "and I will refer you to Ohio." He mentioned a number of names prominent in the bar of Ohio and in closing spoke feelingly and with pardonable pride of his grandfather "the old Roman" whom he felt was entitled by uprightness, honesty and ability to rank with any of them.

F. M. Gutrie spoke of the great enterprise of Ohioans in commercial lines and of the great railroads built by them. He mentioned a number of great railroad men whom he has raised.

Judge McGinley gave some of the reasons why Ohio men are great in peace and every line they undertake. M. A. Hays spoke of "Ohio's Statesmen" and made some witty remarks regarding the Ohio man's penchant for office. To give a history of the achievements of Ohio statesmen, he said, would be to read the history of the country for the past fifty years. Ohio is a state of politicians and statesmen are graduated politicians. A great deal has been said about Ohio men holding office. Now it is not because they want to hold office but because they feel that they can take care of the office better than anybody else. The Ohio man is always ready to sacrifice himself on the altar of public duty. [Laughter.] Mr. Hays referred to the large number of Ohio men who have been prominent in the nation's affairs and said that none of Minnesota's officers are Ohioans. This is not as it should be. [Laughter.]

Prof. Rudolph gave a humorous impersonation of a building orator making his first speech and caused much merriment and applause.

James E. York spoke of "Ohio's Industrial Career" and remarked that her con-

nection relatively with Minnesota is interesting, for she receives three-fourths of the ore sent from the Lake Superior mines. He referred to the great diversity of Ohio's industries and said that this will always give Ohio supremacy as a manufacturing state. He remarked humorously also that as Ohioans teach people how to make money they teach them also how to save it—saves, cash registers and the like being manufactured there.

The speeches were interspersed with selections by the popular Duluth Glee club, consisting of P. Doran, Frank Burke, Jr., George West, George Sherwood and H. L. Moody and brought great applause.

Those present at the banquet were: Messrs. and Madames W. A. Smith, J. P. Brown, E. Benjamin, A. McQuinn, F. M. Gutrie, G. E. Welles, C. A. Long, J. P. Proyer, W. Montague, C. A. Stewart, W. H. Welles, C. E. Lovett, M. W. Thayer, Miss Brown, Mrs. Crowe, Miss Brown, Judge J. D. Ensign, Mayor of Autremont, May, C. B. Sears, C. Marshall, A. F. Rudolph, P. Patterson, L. C. Brown, H. W. Harris, V. Smith, S. S. Bradley, R. H. Harris, V. Smith, S. S. Bradley, R. H. Harris, V. Smith, Wm. M. Bolles, A. J. Trimble, S. L. Fraser, A. L. Thurman, L. E. Johnson, Wm. Kaiser, S. F. Brewster, James E. York, S. L. Jackson, P. C. Schmidt, E. H. Ketchum, H. N. Wing, L. A. Barber, H. R. Armstrong.

SOME SPORTING MATTERS.

Prospects Bright For the July Meeting at the Duluth Driving Park.

The time is drawing near for the July meeting of the Duluth Driving Park association and every day brings new and flattering indications that its success will be unparalleled in the racing history of the head of the lakes. Secretary Jones was up this week from Minneapolis and says that he can promise the attendance of as fine a string of horses as ever came to the Northwest. Horsemen are deluging him with inquiries and entries are coming in at a gratifying rate. There are now quartered here some twenty trotters and pacers, old and young; and others visit the track daily.

The Duluth track will be the fastest half mile ring in the Northwest this year. It has been recollected and the road bed settled most thoroughly during the winter, leaving the course smooth, solid and level. The management is now thinking of increasing the stable room, for with the horses now here and the outlook for a big entry in the coming meeting, there will be no room to spare. The fifty box stalls now on the grounds are not outclassed anywhere for convenience, cleanliness or comfort. They are sixteen feet deep, twelve feet wide, with high well ventilated gravel roofs that are perfectly dry; the floors are well planked and the cross bar in front of the horses leaves some six feet open for the trainers' traps, feed and furniture. The big windmill, which is close to the stables, provides running water for the stock and is a valuable assistance in keeping the course in order. The big six-inch tire springing cart keeps the dust down and softens up the course in fine shape, while the Griffin track machine has put every semblance of a "wave" out of sight. All in all no track in the country provides the horseman with better accommodations no does any association make greater effort for their convenience.

The meeting runs for four days, July 11, 12, 13 and 14. The mere appearance of Billy Maber at the Gem theatre, Superior, this evening will be an event in sporting circles, whatever may be the outcome of the "go" between him and George Curtis. According to the agreement Maber must best Curtis within the ten rounds to make even his expenses out of the match. It is not likely that a man of "Shadow" Maber's reputation will throw a match, and Curtis' well known reputation for sureness points to a fair decision around. The police of Superior won't stop a contest on slight provocation, which is another drawing crowd.

Billy Hawkins announces that his proposed twenty-round go with Charley Johnson, the St. Paul welterweight, is off as the latter will not come down to the 140 pounds allowed by Billy. Hawkins was looking forward to a scrap with the St. Paul boy with eagerness and is disappointed that the affair is off. He made many concessions, but could not consent to fight a man ten pounds superior in weight.

Peter Schumacher, the wrestler, left early this week for Spokane, where he will give exhibitions during the summer at the Lunkherian garden. He expects to return to the head of the lake in the fall and meet any and all comers. Schumacher does not feel that he lost his mixed match with Curtis quite on the square and would like to try the superior boy for big money strictly under the rules with a well-informed referee.

The Central Gun club of Duluth is making preparations for its first annual tournament to be held in Duluth on the Fourth of July. A number of prizes will be offered and all clubs in this section of the Northwest will be asked to participate. A committee on arrangements was appointed at the regular business meeting Thursday night.

The Duluth Drug Company.

The Bulletin of Pharmacy published at Detroit has the following to say of the Duluth Drug company which recently commenced business here:

"Duluth Drug company" is the name chosen by the new stock company formed recently with the old reliable Fourth street drug firm, Hugo & Le Richeux, at its head. The location for the new store will be on Superior street, opposite the Merchants hotel, one of the best retail corners in the city. The treasurer and manager of the new firm will be A. C. Richeux, who enlarged and advanced the business of the firm's Fourth street store, and will no doubt place the new pharmacy upon as profitable a footing, proportionately, as the old. Neither money nor pains will be spared to make the new pharmacy equal if not superior to any in the state. Its principal aim will be as a prescription store in every sense of the word. We wish the Duluth Drug company success."

Duluth Business University Will Give a Special Four Weeks Term Beginning Monday, June 19.

A special four weeks term beginning Monday, June 19, has been arranged to accommodate teachers or students who may desire to spend part of their vacation in studying or reviewing any of the following branches: Bookkeeping, penmanship, arithmetic, spelling, commercial law, stenography, typewriting, telegraphy and business correspondence. As each teacher is a specialist in the branches he teaches, students will be afforded the best possible opportunities in pursuing any of the above branches. Call at the college office and arrange to enter. Location 105 and 107 West Superior street.

The last excursion to Two Harbors on the Ostrage occurs tomorrow afternoon, leaving Fifth avenue dock at 2 o'clock. Round trip, 50 cents.

Edith washing neatly and reasonably done at 113 Sixth avenue west.

Capt. Hibbing wires from the range that buildings are already going up in the new town of Hibbing, and that the saw mill started today. The buildings now going up are being entered by people who lured in lumber to the amount of over a hundred thousand feet on the snow in anticipation of the plating of the town. The mill now running will turn out 14,000 to 15,000 of lumber per day and it necessarily can largely increase this output by running night and day. The sale of lots continues lively both at the Lake Superior Iron company's offices in the Livestock building and also up on the range.

Take in the 50-cent Two Harbors excursion on the Ostrage tomorrow afternoon at 2 o'clock.

The Morris illusions at 19 West Superior street are attracting a great deal of attention. The statue turning to life, the mermaid illusion and Psycho the autographed woman make exhibition of unusual excellence. The popular admission to cents is charged. Many of our best people, both ladies and gentlemen visit the quiet, orderly entertainment and are pleased and mystified.

The friends of Mrs. Matie Boyen are getting up a concert to be given for the lady's benefit before she starts to Europe to complete her studies for the operatic stage.

C. T. Rohlf reports over 15,000 visitors at the Bethel during the month of May, of whom nearly 6000 were in the reading room.

The Bethel floral service in observance of children's day will take place tomorrow evening at 7:45 o'clock. A plant will be given each child of the Sunday school and music and recitations will harmonize with the occasion.

Deaths as follows were reported to the board of health this morning: Jean Michel Boget, 1707 Third street west, aged 42 years; Mollie Stabler, 217 West Superior street, aged 1 year and 2 months. The reporter in neither case contained the cause of death.

V. D. Cliff, treasurer of the Northwestern Life Insurance company of this city, has unrolled the marital department of J. J. & R. A. Costello, and informed a reporter today that he had secured the services of Mr. A. G. Strong, late manager of French & Russell Furniture Co., to take charge of the business. The many friends and acquaintances of Mr. Strong will be surprised to learn of the change, and Mr. Cliff is to be congratulated on securing such an able and efficient manager. The business will be conducted at the old stand, 22 East Superior street.

The following took out first citizenship papers in Clerk Sinclair's office today: Sciorini Gion, Italy; John Palmquist, Sweden; Dominick N. Hannas, Austria; Gualto Saarini, Italy.

The papers in the cases of Leslie A. Belding vs. John A. Willard et al and L. S. Sullivan et al vs. Lake Superior Elevator company were sent to Judge Nelson today by Capt. Pressnell, deputy clerk of the United States court.

The jobbers' union at its meeting Thursday was of the opinion that the various city organizations should bear the expense incurred in getting up Duluth's exhibit at the Hill celebration. As it is now a few men have paid the expense.

Sixteen of Ringling Bros. advertising agents are plastering Duluth with bills today.

The funeral of Johan C. Palmer will take place tomorrow at 2:30 o'clock from the residence, 119 East First street. The body will be taken to Detroit.

THE COURT FILINGS.

Notice of Settlement of John Jenswold's Case Against West Duluth Filed.

A notice of settlement was filed in Clerk Sinclair's office of the case of John Jenswold, Jr., against David M. DeVore and the Village of West Duluth. Jenswold was retained to prosecute the suit of a man who claimed damages against West Duluth for injuries received. Jenswold's fee was contingent. The village settled with the claimant out of court and the lawyer sued to recover his fees.

Other papers filed were: Report of grand jury that the county jail is in excellent condition and the officers thereof competent and faithful.

Depositions of Dr. Thomas Foster (a resident of Duluth in 1877) and wife in Lewis Henry Hugh Clifford against Nellie McAdams and William F. Marvin and another case wherein Marvin is plaintiff and Clarence H. Foster et al, defendants.

Order in Horace Williston against T. P. Matthews, denying motion to transfer case back to Lake county where it was removed to St. Louis county on change of venue.

COMPLETELY EXONERATED.
Dr. Sweeney, of the Fish Hatchery, Relieved of Charges Against Him.

Dr. R. O. Sweeney, superintendent of the Lester Park fish hatchery, has been completely exonerated. Yesterday he received a letter from United States Fish Commissioner McDonald of Washington, stating that a careful consideration of the evidence taken by Herbert A. Gill, who was here by the department, showed Dr. Sweeney's innocence. The Dr. was charged by Charles F. Hopkins, W. D. Tomlin and others with catching fish during the spawning season, stripping them and selling them to the market. It was alleged that several tons of walleyed pike were caught from the St. Louis hatchery and taken to Lake and treated and sold in this way. The result of the investigation is very gratifying to Dr. Sweeney.

Sinking Test Pits.
It looks as if Superintendent Craig is trying to get even with the council and board of public works with his spades. A gang of workmen, directly in front of the city hall, has the sidewalk all torn up and a big hole in the pavement in the street. As last as big stout men can dig deep pits are being sunk, presumably in search of some favorite water main that has remained buried too long. A drunken prospector, who was brought along there by the police, said: "Hello! shone one (hic) has been sinking a test pit here."

The Weather.
Duluth, June 10, 1893.
The following variations in temperature were recorded at Pioneer Fuel Company's office, 220 Superior street, today and corresponding date last year:

A Few Plain Drinks.
In police court this morning a few unadorned drunks were all that claimed Judge Powell's attention. He disposed of them with his accustomed ease and quiet manner and the wheels of the justice mill then stopped until Monday morning, when such grists as are present will be ground out with as much neatness and dispatch as possible.

Has Been Wiped Out.
The case of diphtheria in the family of V. W. Hartman on Duluth Heights has been entirely cured and the house fumigated because of the inferior sanitary conditions in that part of the city a good many of the residents feared a spread of the disease, and the successful disposal of this case will be gratifying news.

Monroe Nichols' Opinion.
Register Nichols, of the United States land office, has asked this morning what he thought of Maj. Baldwin's interviews published in the different papers of the city, said: "The major talks too much. That's all I have to say."

Strawberry ice cream flip and the "fruit glaces" are the leaders at our fountain. We make a specialty of our soda water and use only the best materials. That is what draws the crowds to our fountain. Duluth Drug company, 201 West Superior street.

FOUND HIS OVERCOAT

A Mackintosh Found in a Rowboat on the Lake Identified as A. Bailey's.

The Tug A. C. Adams Picked it Up on Thursday and Brought it in Yesterday Evening.

His Friends Scoff at the Idea of Suicide and Say He Will Turn Up All Right.

A. Bailey is still missing and rumors of every description are afloat but are not confirmed. One sensational incident has been developed, however, and leads to the theory of drowning. On Thursday morning, the tug A. C. Adams of the South-See company, picked up a row boat about ten miles out of Duluth on the lake. The cars were gone and in the boat was a blue mackintosh coat, with a pair of gloves in the pocket. The tug came in yesterday evening and reported the find.

It was immediately surmised that it might afford some clue to Mr. Bailey's disappearance and a member of the family was sent for. The coat was identified as Mr. Bailey's and exactly matches a cape which is at his home. His gloves, however, could not be identified. The ownership of the boat cannot be proven either, or had not been up to 3 o'clock this afternoon. It is an ordinary pleasure boat, painted green, with natural wood trimmings.

In spite of the fact of the finding of the coat Mr. Bailey's friends scoff at the idea of suicide and claim that he will turn up all right. There is some doubt as to whether the coat is really his. It was purchased at the Great Eastern clothing house and M. S. Burrows says he has sold twenty or thirty exactly like it in every way. Mr. Bailey is said to have been seen in Old Superior on Wednesday evening about 7:30 o'clock, but he was positively seen here at 6:30 and this is open to doubt.

Mr. Nichols, of Barnes & Nichols, arrived from Minneapolis today and an examination of Mr. Bailey's books is being made. As to his financial condition but little reliable information can be obtained. He was short on some what contracts and was closed out but on some others had balances coming. As to his accounts with the Minneapolis firm nothing definite can be learned.

HIS MIND DISEASED.
A Poor Cripple Who Is in an Unsound Mental Condition.

The police picked up a crazy man last night and this morning he was taken before Judge Ayer in the probate court. He said he came from St. Stephen, lower Canada and gave his name as John Dube. He can not read or write—can not even spell his own name, he says. On

THE WORLD OF LABOR

Sketch of Emil Applegahn, Who Is Called the Father of Organized Labor in Duluth.

Annual Meeting of the Minnesota Branch of the American Federation to Be Held Tomorrow.

The Profit-Sharing System and Its Great Benefits to the Workmen and Employers.

Among the most enthusiastic champions of organized labor in Duluth is Emil Applegahn. He was born in Erie, Pa., in 1856. When 2 years of age Emil's father moved to Hamilton, Ohio, and took him along. When 5 years of age, about the time the war broke out, the father of the future champion of organized labor, because of ill health, moved back to Erie, where he died a year later, leaving a widow and four children. Although of tender years, young Emil commenced life's struggle and did all he could towards the support of his mother and later on went into business for himself. He attended the public schools all that was possible and after he went to his trade, finished his education in the night schools of Erie.

The fatherless boy's first work was in a mill and tub factory, where he remained until he was master of the trade. At the age of 14 he took up cigar making, finished the trade and has followed it for twenty years, with the exception of two or three years when engaged in other matters. Leaving Erie in 1874, some time was spent in traveling through the country. He worked at his trade in many of the large cities and finally landed in Milwaukee in 1884. The year 1885 saw him in Duluth where he has since held a continuous residence.

Mr. Applegahn's first experience with organized labor was at Elyria, Ohio, where he joined the Cigarmakers' union. After that his travels through the country enabled him to see and appreciate the advantages of organized labor. His first real personal work was done in Milwaukee. He had been president of the Cigarmakers' union at Elyria, Pa., in 1883, which was his first office in any labor organization. At Milwaukee there were 600 cigarmakers and only forty members in the union. With his customary enthusiasm, Mr. Applegahn went to work and in June, 1886, he had the satisfaction of seeing a union membership of 600. Along with that increase he had a reduction from ten to eight hours per day and an increase ranging from \$1 to \$2 per 1000 for cigarmaking.

The trades assembly in Milwaukee, when the subject of this sketch went there, was lame and weak. He took hold and did all he could to better matters. The assembly was disbanded. Then shortly after, under a charter of the American Federation of Labor, the Federated Trades council was organized and Mr. Applegahn chosen president, which position he held until he left the city. During his residence there, he also for two years was financial secretary of the Cigarmakers' union. In 1887, he represented the Milwaukee council in the national convention of the American Federation of Labor at Baltimore and in 1888 at St. Louis. He also represented his union at the national convention of the Cigarmakers at Cincinnati in 1885 and at Birmingham, N. Y., in 1887. In Duluth, Mr. Applegahn's connection with organized labor is well known to all. He has always aimed to put his shoulder to the wheel whenever possible and in the most effective manner dictated by his judgment. He has been state organizer for the American Federation of Labor and the past winter received a renewal of that commission from President Samuel Gompers. A year ago last May Mr. Applegahn was appointed fire warden for the city of Duluth, which position he still holds.

IN LABOR CIRCLES.

State Convention of the Minnesota Branch of the Federation.

Thomas A. Clark, one of the most active and best known workers of organized labor in Minneapolis, was in Duluth on business this week, and Thursday evening attended the open meeting of the Central Trades and Labor assembly.

The state convention of the American Federation of Labor in Minnesota, will be held in St. Paul tomorrow. Emil Applegahn will represent the Trades and Labor Assembly.

While organized labor at the Duluth Dry Goods house is not a featured institution, has made a move in the right direction. From now until August 1 business in that busy wholesale house will close each Saturday afternoon at 1 o'clock, giving the clerks and employees a weekly half holiday.

A circular letter, signed by Samuel Gompers, president of the American Federation of Labor, has been received in Duluth, announcing that the long difference between organized labor and the Liggett & Myers Tobacco company of St. Louis has been satisfactorily adjusted. An agreement has been signed by proper representatives on both sides and the boycott on the products of that company declared off.

Circulars are being sent out to labor organizations and other directions by the White Cross and W. C. T. U., warning young women in regard to attending the World's fair without proper protection of relatives or friends. The circulars state that agents for houses of ill fame are waiting for young girls who are strangers and ignorant of the city. Working girls are specially warned about taking situations without careful investigation.

There are 7000 carpenters in Chicago out of work, it is claimed, and more are being thrown out daily.

The annual convention of the Railway Yardmasters of the United States will be

held in Duluth June 14, 15, 16, Wednesday, Thursday and Friday of next week. An incident strike among the longshoremen at West Superior was ended by the employers quickly acceding to the demands of the strikers.

The Herald has just received the Eight-Hour Herald, an exchange which will always be welcome to it. It is issued semi-monthly, at the rate of \$1 per year. Typographically it is everything that could be desired, and is an excellent medium for dissemination of information with regard to organized labor. No better recommendation for its support could be made than that its proprietors are the pioneers of the eight hour movement in Chicago, a matter which is receiving considerable attention in the Northwest. The Herald is pleased to learn that it is receiving deserved recognition at the hands of all classes of people in Chicago.

The colored men of Savannah, Ga., organized a luthers union among the men of that trade. A few days ago they adopted a rule that \$1.50 should constitute the minimum day's wages. Also that any member caught taking a job for less than \$1.50 should be expelled. Two members broke the rule and a committee from the union took turns in administering the prescribed punishment. Instead of a whip they used two lathes nailed together. There have been no violations of the rule since.

With an amicable and just amalgamation of the Central Trades and Labor assembly and the Builders' Trades assembly which, from present indications, is bound to be consummated, organized labor in Duluth will be in a position to be pushed to a notch as high or higher than in any city in the United States.

PROFIT SHARING.

The President of the Nelson Manufacturing Company Still Very Enthusiastic.

Readers of the Herald have kept a close watch upon industrial matters during the past few years know something about the Nelson Manufacturing company of St. Louis and Edwardsville, Ill. Newspaper writers have fallen into the error of speaking of the plan adopted by the Nelson as co-operation. It is not co-operation in the sense that the term is used by economists, for the workers do not stand upon an equality in the direction of affairs, and the capital employed is not owned jointly by all the workers. The Nelson Manufacturing company is the property of a few stockholders, and the laborers are simply employees working for stipulated wages.

However, from all reports the company is exceedingly fair in the treatment of employees, and the profit sharing system under which it operates is of great benefit to the workmen as well as to the stockholders. In a recent interview N. O. Nelson, who is president of the company, said that during a visit to England, about seven years ago he became imbued with the idea that the settlement of the differences between employer and employee lay in the direction of profit sharing. On his return to St. Louis he arranged to have his theories carried into practice.

"At our works near Edwardsville, Ill.," he said, "there are about 450 men employed, and at the end of every quarter each one of them, from the manager down to the smallest apprentice, gets his share of the profits. This averages 8 per cent on the wages per annum ever since we put the system into force."

"Lithium is in every respect a model village. We bought 125 acres of land and erected substantial buildings for our factories and laid off the town, not with square blocks, but on the park idea, with winding roads and grassy lawns. In our village we have a co-operative store where the men and their families trade. They pay the current retail price for everything purchased, but at the end of every three months the books are balanced, and the profits thus shown are divided among the purchasers in proportion to the amounts they have paid in. These dividends amount to from 12 to 15 per cent a year and are so many dollars saved to the men who work. Besides this we have a hall where school and church are held and a free kindergarten is maintained during several months of the year. We have free baths, electric lights, modern waterworks and a circulating library. During the winter there is a course of lectures delivered for the men, and some of the best lectures of the country are given. Last winter we had Edward Everett Hale and men of his class."

"To employees who desire homes we sell them one-third of an acre of ground at \$4 a front foot and erect cottages for them at cost. This is all paid for in installments, the sum not amounting to more each month than the rent of a cottage in a city."

"Ours is essentially a corporation colony and the only one of its kind on the east side of the Atlantic. It makes, I think, a superior class of workmen, and that it encourages men to apply themselves was shown when we reduced the working hours from 10 to 9 hours without a reduction of wages and without any decrease in the amount of material turned out."

Weekly Payments in New York.

A New York daily paper's Albany correspondent says in a recent communication that the state officials are "very much interested just now in the welfare of the workman." The state officials, especially Factory Inspector James Connolly, have stepped in to righteously enforce the weekly payment law. The officials will make strenuous efforts to aid the condition of the great working masses in the metropolis, and the deputy inspectors in New York will in a few days receive instructions to make a prompt and thorough investigation.

They will be instructed to visit the large factories, stores, offices and corporation buildings and make a searching investigation. Whatever companies are found evading the weekly payment law will be notified that they must comply with its requirements. If they still continue to disobey the law, prompt measures will be taken by the state to bring them to terms. The attorney general has promised his assistance in enforcing the legal letter of the law.

This weekly payment law went into effect in this state on July 1, 1890, and its requirements are that every corporation

shall pay weekly each employee engaged in its business, and the penalty for every violation thereof is a fine of not less than \$10 nor more than \$50. The factory inspector of this state is charged with the enforcement of this law and is authorized to bring actions in the name of the people against any corporation neglecting to comply with the law.

The Arena Clubs.

Hamilton Garland, the well known social reformer and writer upon economic topics, is very enthusiastic over the organization of educational societies known as Arena clubs. He is one of the principal advocates of the idea and devotes considerable time to the formation of the clubs. In a recent interview reported by Mrs. Eva McDonald Valoh, labor editor of the Minneapolis Tribune, Mr. Garland said:

"The really progressive man or woman in any one line of work is always interested in other lines and inclined to help liberally along all of them. Of course the complexity of modern society makes it impossible for any one man to do everything they can accomplish anything definite. But the specialist is apt to become narrow unless he occasionally joins hands with other reformers. Our Arena clubs will organize the reform forces instead of leaving them to their efforts by individual and spasmodic action. We will have an educational organization reaching from one boundary of the country to the other as elastic and liberal as the most enthusiastic single desire."

The Immigration Law which went into effect on May 8 imposes no new restrictions on immigration, but makes two important changes for the better in present regulations. The first is that steamship companies shall be required to prepare on the other side of the ocean complete descriptive lists of all emigrants for delivery to the United States inspectors on this side upon the arrival of the vessel. At present such lists are made out by the inspectors after the arrival of the immigrants. The steamship companies can make out the required lists easier than the inspectors, who will be materially aided in their inspection thereby, while the inquiries instituted by the steamship companies into the character of intending emigrants will tend to prevent the embarkation of the prohibited classes. In addition it is required that the captain and surgeon of the steamship shall make out and forward to the inspectors on board a list of all passengers on board calculated from admission into the United States and that the facts stated in the list of immigrants are true and correct. The second change in present regulations is that the inspectors shall be empowered to make a preliminary to a further and more comprehensive piece of legislation, designed to completely shut out undesirable immigration. Its provision for an inspection and certification of each one of them, from the manager down to the smallest apprentice, gets his share of the profits. This averages 8 per cent on the wages per annum ever since we put the system into force."

The law was framed by the senate committee on immigration, of which Senator Chandler was chairman, and was intended to be preliminary to a further and more comprehensive piece of legislation, designed to completely shut out undesirable immigration. Its provision for an inspection and certification of each one of them, from the manager down to the smallest apprentice, gets his share of the profits. This averages 8 per cent on the wages per annum ever since we put the system into force."

LABOR COLONIES.

A committee of leading Englishmen have recently been making investigations in connection to the colonies in England and on the continent of Europe, the result of their researches being the conclusion that the continental method of carrying on these philanthropic works is one which is not likely to have general application. It is believed that the law will prevent the departure of immigrants not entitled to come in. This is a desirable result, and it is to be hoped the law will attain it fully.—Detroit Tribune.

The clothes he has on when entering are taken from him and he is given fresh clothes on loan, the inspector destroying the clothes of the applicant if he thinks them valueless, although these are the only ones in which the inmate can clothe himself if he wishes to leave. During the first fortnight he receives food and shelter only. For the following four weeks, if he is thought to deserve it, he is given a voluntary allowance of 5 cents per working day, this to be increased to 8 cents per day, provided his work proves satisfactory. This, however, applies to the period from May 1 to Sept. 1. But such allowances are entirely voluntary and may be withdrawn at any time.

The service in which the labor of the inmates is turned is largely that of reclaiming land, which seems to be a duty that can best be undertaken by colonies of this character when it is thought undesirable to enter into competition with ordinary labor. But the conditions under which service is carried on are so strict that it is looked upon as a doubtful whether the system can be satisfactorily adopted in England.—Boston Herald.

One million and a half men work in the coal mines of the world. Of these England has 538,000; United States, 300,000; Germany, 233,000; Belgium, 100,000; Russia, 44,000. The world's miners of metals number 4,000,000.

OUTRAGEOUS AND DAMNABLE.

Such Immigrant Inspector Conkling Denies the Padrone System to Be.

Immigrant Inspector Conkling, in an official report made to the treasury department as to the violation of the alien contract labor law, among other strong statements says:

"The padrone system is the most damnable, outrageous and injurious to American workmen of any system that was ever practiced in the United States, and there is no denying the fact that it exists in almost every city of this country where there is an Italian colony." The report details how Italian laborers are brought into this country, coached and instructed on the journey over so that when they arrive by false swearing they evade the inspectors.

"They have no conscientious scruples about perjury and will swear to anything necessary to accomplish their purpose." Mr. Conkling says that the railroad contractor need not be closely watched in future regard to the violation of the alien contract labor law as the Italian blunder and padrone. The former, in partnership with the latter, furnishes the money, and newly arrived Italians are supplied in hundreds to work on American railroads to the exclusion of American workmen. The padrone usually makes a contract with the railroad contractor to feed the hands. A daily cost him \$100 or so, and he clears his original investment from the first month's receipts, the balance for many months being nearly all profit. The bankers get the money he had advanced to the padrone.

"These aliens," Inspector Conkling says, "are of the very worst element—violent and hard to control, dangerous to the community in which they reside—and are contributory in their manners and habits." They work for small wages, live in a manner that American laborers regard as barbarous, and as a consequence Mr. Conkling finds they are driving out laborers of other nationalities in railroad building. The report was called forth by instructions issued by Assistant Secretary Shandling last March to look into the illegal landing of 10 Italian laborers at Ellis island. As a result of two months' investigation, Inspector Conkling has arrested Phillip Catone, a padrone, on whose perjured affidavit 10 Italians were landed. The case is an important one and will be tried in the New York state courts.

The Law Not Enforced.

Last February the council, influenced by complaints which had been made of the insanitary condition of most of the little workshops in this city where ready made clothing is manufactured, passed an ordinance for the licensing of all houses or rooms in which wearing apparel is manufactured, altered or repaired. No person can run such a workshop unless he takes out May 1 of each year a license costing him \$1. When an application is made, it is to be handed over to the commissioner of health to see that the premises are in sanitary condition. It is made his duty also to close any workshop "which is not kept in a clean and sanitary manner, or in which any matter of an infectious or contagious nature." The violation of any of the provisions of the ordinance is punishable by a fine of from \$10 to \$100 dollars for each offense.

Thus far only one person out of the 500 who are affected by the ordinance has taken out a license. It is not likely that many others will do so unless they are driven to it. The license fee is nominal, and no one can say that it is a hindrance to the industry. The object is to have the whereabouts of all these places known, so that the health department can keep a close watch on them, and so that by the threat of the revocation of a license and the consequent stoppage of business the commissioner can force the proprietor of a shop to keep his premises in decent condition.

It is for the city authorities to decide whether the ordinance shall be enforced or allowed to go by the board. There is no longer any stir made about creators and their shops. It is their duty to notify the proprietors of these workshops, through the police, to appear and be licensed. If they fail to obey at once, then the law department should begin suits against them.

There is no doubt that many of the places where ready made clothing is manufactured are in a bad sanitary condition, that clothing is handled so that it is not likely to have general application. It is believed that the law will prevent the departure of immigrants not entitled to come in. This is a desirable result, and it is to be hoped the law will attain it fully.—Detroit Tribune.

Compulsory Arbitration.

The objects to compulsory arbitration have sometimes said that it would result in slavery for the workman. The advocates make light of this, but really and seriously it is not slavery when a man who wants \$9 per day for his labor can be compelled at the point of the bayonet to work for \$1.50 per day. There would be no fear, it seems to me, of capital going out of the state or out of the country under the regime of compulsory arbitration in industrial affairs, for it would gladly settle upon the results of such a regime to compel a rise in prices to secure a combination which in the past insisted upon.—Carroll D. Wright in Forum.

Helping the Unemployed.

The Salvation Army, through its San Francisco agency, known as the "Lifeboat," has obtained employment during the past four months for between 300 and 600 men who were unable to secure any kind of work in the city. These men were sent out of the city to work on ranches and farms. In every case the army provided the means to pay railroad fares and other necessary expenses, and in no case was a fee to be deducted from subsequent earnings. Say what you will about the peculiar methods employed by the Army in propagating its religious views, it is undoubtedly a friend of the poor.

TESTED BY MANY PEOPLE

And the Public Judgment in a Universal Endorsement.

Skill and Honesty Could Bring no Other Result.

Among the numerous residents of West Duluth who have received beneficial treatment at the Copeland Medical Institute is Mr. John Gettings, who is employed in the car shops of the West Duluth Manufacturing Co. He suffered for many years with an aggravated catarrh of the head and stomach, which questioned his case head: "Yes, I had taken a great deal of medicine, for the last two years my stomach has been a veritable drug shop, but nothing I took seemed to give me more than temporary relief. My stomach was in a very bad condition indeed, it was so sore and tender that it would hardly retain any food at all. I was often compelled to throw

Mr. John Gettings.

up what little food I had eaten. After a meal my stomach would bloat up and there was a continual belching of gas and sour matter. I had no desire for food at all and would have to force myself to eat because I knew that food was necessary in order to keep body and soul together. I was consequently nervous, weak and easily fatigued, and would be more tired at the end of two hours than I am now after a full day's labor. Upon arising in the morning I was just as tired as I had been the night before, it didn't seem as though I had been to bed at all. My stomach trouble was aggravated by terrible distress in the head. Upon taking the least cold my nose would stop up, causing pain over the eyes and across the bridge of the nose; noises were incessant in my ears. I had to hawk and spit continually to clear my throat of mucus. There was a bad taste in my mouth in the morning, and my throat was dry and parched. After a course of treatment at the Copeland Medical Institute, which, in all chronic cases is given in a thorough, energetic and systematic manner, I feel a deep debt of gratitude for the relief that has been afforded. I can now accomplish with ease, work that before seemed awfully burdensome. I have no more headaches or noises in my ears, my nose is clear, affording free passage to the air. My stomach is relieved of those distressing symptoms I had for so many years, and is now able to retain and digest food, giving me strength and vigor. I arise in the morning refreshed and fully able to go about the duties of the day. My experience with the Copeland physicians has been perfectly satisfactory in every respect, and would advise those who suffer as I did to seek their advice before saying their case is incurable."

It is for the city authorities to decide whether the ordinance shall be enforced or allowed to go by the board. There is no longer any stir made about creators and their shops. It is their duty to notify the proprietors of these workshops, through the police, to appear and be licensed. If they fail to obey at once, then the law department should begin suits against them.

CATARRH OF THE NOSE AND THROAT.

The case related below shows how an aggravated case of catarrh of the nose and throat has yielded to treatment in two short months. The reason for it lies in the fact that the patient followed the directions given, which, with systematic treatment and careful attention on the part of the physician success was assured. Mr. Ulysses Kriz is a member of the plumbing firm of A. J. Harker & Co., 427 East

Mr. Ulysses Kriz.

Fourth street. Before he began treatment he suffered with all the symptoms of a catarrh of the head. In conversation with the writer a short time since Mr. Kriz said: "I have suffered a great deal with my head, the cause of which was an inflammation of the membrane lining the air passages of the head. I was subject to dizzy headaches, especially when I would stoop over. There was pain above my eyes and across the bridge of my nose; my throat would get so sore at times that I could hardly swallow. My nose was always stopped up so that I could not breathe through it. I was compelled to hawk and spit a great deal, especially after breakfast, to clear my throat of a miserable mucus that would collect there. I had a bad taste in my mouth in the morning, although I slept well enough I would arise more tired than when I went to bed. The resident physician at the Copeland Medical Institute has been treating me for the last two months and to say that I am grateful for having been relieved of a long-standing trouble would be putting it mildly, indeed. My nose is now free, so I can breathe through it. I have no more dizzy headaches or pain across the bridge of my nose. There is no more of that incessant hawking and spitting to clear my throat. I arise in the morning refreshed and full of vigor. My experience with the physicians of the Copeland Institute has been such that I can recommend them to any who may need their services."

WEST END WILL LEAD

Great Future Before Duluth in the Manufacture of All Classes of Goods and Wares.

In This Great Growth the West End Will Always be in the Front Rank.

Its Particularly Advantageous Location and Other Features Give Ample Assurance That This Will Be.

Duluth is rapidly passing out of its swaddling clothes, and enjoying well-developed growth. The superiority of this location for the manufacture of high grades of wooden, iron, millwork and other goods is fast being appreciated, and this city's manufacturing interests in these lines will soon be only secondary to the immense milling business. The timber growing on the lines of railroads centering here, presents an output of nearly 100,000,000 feet per annum, and the hardwoods are particularly noticeable. These are oak, maple, elm, butternut, elm, basswood, birch, cedar and poplar, and with the unexcelled shipping facilities of Duluth, together with cheap power, and the immense demand of the Northwest, there is no reason why extensive furniture factories, large wagon works, carriage shops, car shops, box factories, builders' supply yards, etc., should not be brought to a high state of perfection here, and develop an immense business. These lines are already represented in a large extent, but there is abundant room for more. But Duluth is destined to be a great manufacturing center in iron wares of all kinds. This city will shortly be able to manufacture and sell in competition with Chicago in this important line. Coal and coke can be laid down here at less cost than at Chicago, while the superior ores of the Mesaba range and the "mix" that can be readily made, gives a grade of iron ore of the highest quality. The city has now extensive iron works, boiler shops, car shops, lumber factories, sash, door and blind factories, machine shops, cigar factories, broom factories, etc. The day is at hand when extensive rolling mills will be put in operation, using the ores of this region and turning out rails, steel plate, iron bar, drill steel, etc. This will be supplemented to the building of great steamships and vessels for the great lake traffic, all of which, combined, will make this an influential manufacturing center.

In this great growth of the manufacturing industries now here and the new ones to come, the West End, by reason of its particularly advantageous location and the abundant opportunity to obtain sites, is bound to lead all other sections of the city. This is already plainly apparent. The Mesaba ore docks are already located there, several big sawmills are figuring on sites and elevators as well, and other manufacturing enterprises are being contemplated. Altogether there is no section of the city which gives such promise of great things as the West End.

Secretary Herbert Contents If We Would Maintain Peace We Must Be Prepared for War.

Discriminating Article Telling the Merits and Striking Features of the World's Fair Art Exhibit.

A Reproduction of a Cast of Juno of Argos Given in the June Century.

In the van of the strong and attractive table of contents of the June number of the North American Review is an able and timely article entitled "The Lesson of the Naval Review," by the Hon. Hilary A. Herbert, secretary of the navy, whose position gives him the right to speak authoritatively. He contends that if the United States would keep her own peace with all nations and maintain her place in the vanguard of civilization, she must at all times be prepared for war.

The question "How Are the Greatest Wealth-Producers?" is answered by W. H. Mallock, the well-known author of "Is Life Worth Living," and other works.

"How to Check Testimony Litigation" is an important topic, which is dealt with in an interesting and instructive manner by the attorney of New York county, Hon. Rastus S. Ransom, who of all men is naturally most competent to write on the subject. Under the caption of "Disappearing Dickensland" Charles Dickens, the son of the great novelist, contributes a paper which possesses a unique value. "A Look Ahead" is the title of an important article by Andrew Carnegie, which is certain to attract considerable attention both at home and abroad, by reason of the subject of which it treats—the possible reunion of the United States and Great Britain.

Two articles on the subject of "Police Protection at the World's Fair" are furnished by the general superintendent of the Chicago police and by the chief of the secret service World's Columbian exposition, and form a valuable addition to the series of papers on the fair which have appeared in the Review.

The possibility of increased speed in transatlantic steamships is discussed by Professor Hiles, of Glasgow university, who designed the Paris and the New York, under the title of "Thirty Knots an Hour to Europe." This article will be read with special interest at the present time in view of the recent record-breaking trip of the Campania. The Rev. Dr. Rainford answers inquiries and claims regarding his plan for dealing with the saloon question, which he explained in his article on "Possible Reformation of the Drink Traffic." Congressman Bourke Cockran furnishes a trenchant and vigorous article entitled "The Financial Outlook." The notes and

comments include four very readable papers: "Christ as an Orator," by T. Alexander Hyde; "A Farmer's View of Free Coinage," by Newton D. Lunn; "The Art of Living Two Hundred Years," by William Kinneer, and "Inebriety from a Medical Standpoint," by Dr. E. F. Arnold.

The midsummer number of "Tales from Town Topics" has just swept over the land with a cool breeziness that is very grateful to a warm and languorous public. It is a remarkably fine assortment of short stories, sketches, poems and witticisms culled from the New York society journals, and contains in addition to this olla podrida of republished material, a complete and original novel, entitled "Six Months in Hades," by Clive Irone Clingham.

The story took the price of fiction in a contest instituted by the publishers of Town Topics, and is a remarkably ingenious and well-constructed tale. For a summer book with which to while away a lazy afternoon, "Tales from Town Topics" is peculiarly attractive.—Town Topics, 21 West Twenty-third street, New York.

The Herald would call the reader's attention to the Illustrated American for May 27. It follows the spirit of the times in taking special pains with everything relating to the Columbian exposition. The subject is attractively treated by Mr. Byron F. Stephenson, and is illustrated by a unique group of drawings by Messrs. Varian and Hencke, who represent the interests of this department at Chicago. Capt. Martin P. Hayes, an authority on the subject, contributes an article on "Yachting," handsomely illustrated by pictures of some of the crack yachts of the day. Mr. Arthur F. Bowler writes about horse racing, and is quite at home on the turf. The third "Tale of a Cooper" is as interesting as its predecessors, and the remainder of the number is full of good things, both as to matter and illustration. It is a rare treat to find so much to interest the mind and delight the eye.

The Review of Reviews for the month of June is a number which nobody who intends to go to the World's fair at any time can well afford to be without. However attractive the other departments may be, it will be true of this World's fair, as it was of the Centennial in 1876, that the great majority of the visitors will derive more pleasure from the pictures in the art department than from anything else. The Review of Reviews sent as its special representative to Chicago, in May, Mr. Earnest Knauft, a well-known art teacher of New York, who is also a writer upon art subjects and who is known throughout the country as the very successful and sympathetic director of the art studies at Chautauque, has prepared for the Review of Reviews an extended and discriminating article telling in a straightforward way what are the merits and striking features of each portion of the art exhibit, and the article is illustrated with the outline pen sketches intended as memoranda of the principal pictures. The article serves as an excellent general guide to the art department and as an auxiliary to the more formal catalogue which gives the names and numbers of the pictures. The leading article in this number of

the Review has a wide range of interest, and the editorial department, the progress of the world, will attract attention from its lucid discussion of the business and monetary situation in the United States and other countries. This number of the review is illustrated with pictures, has even more pictures than usual, the number exceeding one hundred. The Review of Reviews succeeds each month in securing the verdict of "indispensable" from a great number of its exchanges and from thousands of its readers, and this June number, so entertaining on one hand and so full of contentment reference compilation on the other, certainly merits that verdict of "indispensable" as well as any of its predecessors.

The June issue of Belford's Monthly is entitled to more than a passing comment, for both in its artistic and literary make-up it is of the best. We notice such progress in this truly Western magazine, since it has thrown off its political aspirations, that we predict for it, in the near future, a place second to none in American periodical literature.

The month's Belford contains the first chapter of Mrs. Lindon W. Bates' humorous story of the Pacific coast, entitled "A Frontier Fiction."

The coming intercollegiate base ball tournament offers President Rogers of Northwestern and Francis W. Coler an occasion for a splendid, fully illustrated article on college athletics in this country and Europe. Hubert H. Bancroft's unique library of "Americana," one of the great treasures of San Francisco, is here described by pen and picture. Humor and sentiment mingle in three very readable sketches entitled respectively "Rachel and Elias," "An Idle Dream," and "The Honorable Frederick." Finally the defense of spiritism, with phantom pictures interspersed, is graphically undertaken by M. M. Dawson. Altogether a great number.

The June Arena is a mammoth number. It is probably the largest magazine ever published as a monthly issue of a review, containing 164 pages, of which 144 are the body of the magazine and twenty pages of carefully written book reviews by such well-known critics as Rev. W. H. Thomas, D. D., of Chicago, Helen Campbell, Hattie C. Flower, Helen Garland, and the editor of the Arena, Marion D. Shutter, D. D., "Arsenic versus Chlorine," by R. B. Leach, M. D., is interesting and timely; "Women Wage-earners in the West," by Helen Campbell, "Does the Country Demand the Free Coinage of Silver," by A. C. Fisk; "Save the American Home," a striking economic paper, by E. E. Denn; "Islam, Past and Present," by Prof. F. W. Sanders, one of the most scholarly religious essays of recent times, and should be read by all interested in obtaining correct ideas of what Mohammedanism is; "Union for Practical Progress," by the Editor, a strong plea for the union of progressive and reformative impulses for educational and practical work. Mr. Flower also contributes a striking paper, entitled "Parisian Fashionable Folly versus American Common Sense," which deals with the dress reform movement now being so vigorously pushed by the

National Council of Women of America. This paper is handsomely illustrated, containing twelve fourteen large photographs of Boston ladies in the new reform costumes. Mrs. Frances E. Russell, chairman of the dress committee of the national council, also contributes a paper on "Freedom in Dress." One of the most striking features of this issue is a symposium advocating the charms of the mair as the national flower. To this symposium a number of eminent writers contribute, and the charms of "Indian corn are set forth in such a way as to appeal to the reason and sentiment of all readers. Altogether this is a most notable issue of this great progressive review, and no readers of magazines should pass it by.

The Century for June opens with a reproduction of a cast of the Juno of Argos, discovered in 1892 by the American school of Athens, and here printed for the first time. This is to accompany an account of the finding of the statue, by Dr. Waldstein, director of the American school, who, according to recent advice, has since made important discoveries in the neighborhood of Argos. Profile views of the statue are also shown in the article. The number contains two seasonal articles relating to sports, the first by Lieutenant William Henn, the well-known naval officer and yachtsman, who, in 1885, sailed the Galena against the Mayflower for the America's cup.

An important paper of general interest is the record by Jonas Stading, a Swede, of his experience "With Tolstoy in the Russian Family," in which the reader obtains a graphic idea of the condition of the Russian peasantry, of the difficulties with which Tolstoy had to deal, and of other phases of Russian life now of special interest to Americans. The article is accompanied by drawings by Kenyon Cox, after photographs made by Mr. Stading, including one of Tolstoy receiving appeals from the peasants.

Two biographical articles, written from personal knowledge, are "An Hour with Robert Franz," the song writer, lately deceased, by Henry T. Finck, musical critic of "The New York Evening Post," and "The Death of the Prince Imperial," by Archibald Forbes, in which that accomplished journalist gives new materials relating to this event. Mr. Forbes' article is written from knowledge obtained at the time upon the scene of the prince's death in Zululand, June, 1879. Edmund Gosse contributes a critical article in the Notable Women series, on "Christina Rossetti," introduced by a discussion of the reasons why women have never taken a prominent position in the history of poetry. The article is accompanied by a portrait by Dante G. Rossetti, made in 1866.

In the editorial department is an article commending the project of a national board of health, and giving suggestions regarding it; a discussion of the question "Has Gold Appreciated in Value?" and a second article on "The Disappearance of the Apprentice System," which presents a striking, not to say surprising, state of affairs among the labor unions. Among the poets of the number are Grace Dennie Littlefield, Ellen Burrows, Florence Earle Coates, Laura E. Richards, Harrison S. Morris, Margaret Vandegrift, Maurice Thompson, and Jennie E. T. Dowd.

Worthington's Illustrated Magazine for June, opens with a very interesting paper, entitled, "Rural Notes on Hawaiian Life," by C. T. Rodgers, M. L., a prominent physician now and for many years a resident of Honolulu. Dr. Rodgers is an able and interesting writer, a close student of human nature, and personally familiar with every phase of life in the Hawaiian Islands, which are so great commercial and political importance, and are now attracting the attention of the whole civilized world. We of the United States have an uncommon interest in them at the present time. The natural advantages of Hawaii; the physical and mental characteristics of its native people, their homes, mode of dress and manner of living; the motley foreign population of Honolulu, its streets and markets, are all portrayed in vivid and graphic style, by one whose profession and keen habits of observation during many years residence in Honolulu make him thoroughly familiar with his subject. The illustrations are especially noticeable. We have never seen the "Sunny Islands" more fully and beautifully illustrated. The engravings are from special photographs and are very artistically reproduced. They add greatly to the interest and enjoyment of the article.

NOTABLE ENGAGEMENT

The Charming Actress, Marie Wainwright, to appear at the Lyceum in Four Performances.

"Rob Roy," the Famous Scotch Play, to be Presented at the Lyceum Next Week.

Interest Being Taken in the Approaching Date for the Appearance of Ringling Bros. Circus.

The engagement of Marie Wainwright, the charming actress and beautiful woman, at the Lyceum theater for Monday, Tuesday and Wednesday of the coming week promises a rare dramatic treat, as she will present a variety of unusual evening and excellence. On Monday evening the gorgeous spectacular production of "Twelfth Night" which made such a deep impression when given here nearly three years ago will be presented. It will again be presented with all that wealth of scenery, furniture, costumes and accessories, which stamps it as one of the most lavish and artistic spectacles ever seen. Tuesday night will be devoted to that most witty and amusing of comedies, "The School for Scandal," with Miss Wainwright as Lady Teazle and Barton Hill as Sir Peter. It is not rarely there is an opportunity to see this great comedy nowadays, as it needs a longer cast and a more generous outlay for scenery and costumes than is usually at the command of a traveling manager. A minute of novel and striking character will be danced at the end of the first act. At the matinee on Wednesday Miss Wainwright will be seen in her exquisitely dainty and poetic impersonation of Rosalind in "As You Like It." This is always a favorite with the audience, and she will give special delight in the archness and humor with which Rosalind veils her tender love.

The final performance on Wednesday night will be "The Social Swain," a comedy-drama of life in New York city at the present day. It deals with the attempt of a young married couple, born and reared in refined and aristocratic circles, to attain eminence as leaders in the world of finance and fashion. The perils and dangers that await both husband and wife lead to a remarkably absorbing situation. This piece was first produced at the beginning of this season at McVicker's theater, Chicago, where it made an enormous success, and which has been repeated in nearly all the large cities. It gives an opportunity of seeing Miss Wainwright in a modern part, which will be a decided novelty. Her dressing and that of the other ladies will reflect the latest Parisian fashions.

Miss Wainwright has always been noted for the excellence of her company, which this year includes such well-known players as Barton Hill, William Ingersoll, Nat Hartwig, Percy Brooks, E. T. Backus, Edward Elmer, Wallace Bruce, Cecil Magnus, Alfred Burnham, Kate Blanche, Lillian Thurgate, Dorothy Thornton and Eleanor Carey.

GREAT SCOTCH PLAY.
"Rob Roy" to be Presented at the Lyceum in the Near Future.

A grand spectacular production of "Rob Roy" the great Scotch play will be given on Friday and Saturday evenings, June 16 and 17, at the Lyceum. The production is arranged and will be given under the direction and supervision of the principal members of the Royal Dramatic company of Glasgow, Scotland, consisting of Lillian Ellwood, Rose Darrle, Charles Westall Phillips, W. O. Montgomery, Scott Macdonald, Francis Wilson and Andrew Mackay. In the cast will be a large number of young people of Duluth, who have appeared here before and acquired themselves with credit.

The production is to be given under the auspices of Clan Stewart and the following committee in charge: George Dinwiddie, A. S. Wilson, Alex. MacRae, John Wilson, John Christie, Charles McCall, Simon Clark, James Dingwall, Dr. A. E. Walker, James D. McChie, John Mackenzie, Rodrick MacKenzie and Alex. Fraser.

The Chicago Spectatorium May Yet Be Completed.

Steele Mackay states that in spite of the financial troubles of the Spectatorium, the enterprise has by no means been abandoned, the hope being that this company, like many other large companies involving large interests, may be so managed by a receiver as to eventually secure the opening of the Spectatorium, placing the enterprise in a position to ultimately earn sufficient money to pay all debts. He says:

"Although these delays are disastrous in their consequences, to admit concerned, I desire, if you will permit me the space, to take this occasion to declare that no just man, thoroughly cognizant of all the facts, would feel justified in censuring anyone for the present situation. The preliminary delays and increased expense occasioned by the attention to shorter distances in 1891, and to his surprise finished second in the half mile amateur championship race. Early in 1892 he ran against H. A. Heath for the mile challenge cup and won in 4 minutes 32.25 seconds. A short time later he defeated Laytons, the Cambridge sprinter, in the very fast time of 4 minutes 27.4 seconds. On May 7 he broke the 5-mile record made by L. E. Myers by three-fifths of a second, covering the distance in 3 minutes 12.35 seconds. This was getting near the world's record of 3 minutes 7 seconds made by W. Richards of Manchester 27 years ago. He closed the season by winning the English mile championship in 4 minutes 13.3 seconds, the world's record is 4:12.5, held by W. G. George and the half mile championship. Wade is 37 years of age. He has not yet hit his form and has been twice beaten this season.

Trocadero—the great music hall enterprise conducted in Chicago by Dr. F. Ziegfeld and associate capitalists—is the engagement of one of the most talented of American vocal comedians to Europe, Miss Ellen Stewart, who came direct from a brilliant season with the Carl Rosa Opera company, of London, to fulfill a World's fair date at the Trocadero, following which she returns to the same organization for next winter.

Miss Stewart is a native of Cleveland, Ohio, who for the past five years has sung in oratorio, concert and opera in Europe and has built for herself a reputation quite out of the ordinary in the musical field. On last Monday evening she appeared at the Trocadero and captivated music lovers at once. She demonstrated her entire worthiness of the many glowing tributes paid her by the critical faculty abroad and took rank as a singer of rare talent and great personal magnetism. Her voice is a soprano of dramatic quality and her selections displayed her powers to the utmost.

The quartet of great features which made the Trocadero famous in the first month of its career develop new charms constantly. There is earnest talk of including the management to permit the Russian troupe to appear in the World's exposition musical program in the Russian division, many of those who have heard the charming folk songs and witnessed their quaint national dances declaring that they belong to the great World's fair itself.

The marvelous Von Bulow band has won a popular victory over the best bands engaged by the World's fair and is a drawing card of great value, while the Vonos Miska Hungarians, one of the entrancing, the lovers of impassioned music. The fourth feature of the original quartet is Cyrene, the eccentric dancer from the Albanians, London, whose engagement at the Trocadero is near its close and whose vogue is immense with the public. Other novelties embracing the light in the archness and humor with which Rosalind veils her tender love.

LETTERS TO BILL NYE

He Reviews the Manuscript of Several Correspondents Who Have Sent Them for His Criticism.

The Man Who Wants Some Pointers on a Comic Oration Gets All He Requires.

An Essay on Books and on Different Kinds of Books—Poetry By an Unknown.

(Copyright, 1893, by Edgar W. Nye.)
Recently I have received a number of communications, both prose and poetry, all asking me my opinion of the work. I select a few of the most pronounced. Some of them I have changed a little to make the lines run more smoothly, just as great editors every little while add sentences of their own to my work, thus giving currency to ideas that otherwise would be killed by the printer.

I had sent me at one time a large, beautiful book called "The Guilty Crime" and written by a young girl. It was not a lull book, though it went into the social problem a little deeper than I had, being a busy man anyway, with no time to be morbid, but my son for three years at table read books which will not with not elevate a child if read at table in proper spirit. Even lull books may do this.

GREAT SCOTCH PLAY.
"Rob Roy" to be Presented at the Lyceum in the Near Future.

A grand spectacular production of "Rob Roy" the great Scotch play will be given on Friday and Saturday evenings, June 16 and 17, at the Lyceum. The production is arranged and will be given under the direction and supervision of the principal members of the Royal Dramatic company of Glasgow, Scotland, consisting of Lillian Ellwood, Rose Darrle, Charles Westall Phillips, W. O. Montgomery, Scott Macdonald, Francis Wilson and Andrew Mackay. In the cast will be a large number of young people of Duluth, who have appeared here before and acquired themselves with credit.

The production is to be given under the auspices of Clan Stewart and the following committee in charge: George Dinwiddie, A. S. Wilson, Alex. MacRae, John Wilson, John Christie, Charles McCall, Simon Clark, James Dingwall, Dr. A. E. Walker, James D. McChie, John Mackenzie, Rodrick MacKenzie and Alex. Fraser.

NOT BEING ABANDONED.
The Chicago Spectatorium May Yet Be Completed.

Steele Mackay states that in spite of the financial troubles of the Spectatorium, the enterprise has by no means been abandoned, the hope being that this company, like many other large companies involving large interests, may be so managed by a receiver as to eventually secure the opening of the Spectatorium, placing the enterprise in a position to ultimately earn sufficient money to pay all debts. He says:

"Although these delays are disastrous in their consequences, to admit concerned, I desire, if you will permit me the space, to take this occasion to declare that no just man, thoroughly cognizant of all the facts, would feel justified in censuring anyone for the present situation. The preliminary delays and increased expense occasioned by the attention to shorter distances in 1891, and to his surprise finished second in the half mile amateur championship race. Early in 1892 he ran against H. A. Heath for the mile challenge cup and won in 4 minutes 32.25 seconds. A short time later he defeated Laytons, the Cambridge sprinter, in the very fast time of 4 minutes 27.4 seconds. On May 7 he broke the 5-mile record made by L. E. Myers by three-fifths of a second, covering the distance in 3 minutes 12.35 seconds. This was getting near the world's record of 3 minutes 7 seconds made by W. Richards of Manchester 27 years ago. He closed the season by winning the English mile championship in 4 minutes 13.3 seconds, the world's record is 4:12.5, held by W. G. George and the half mile championship. Wade is 37 years of age. He has not yet hit his form and has been twice beaten this season.

trocaro—the great music hall enterprise conducted in Chicago by Dr. F. Ziegfeld and associate capitalists—is the engagement of one of the most talented of American vocal comedians to Europe, Miss Ellen Stewart, who came direct from a brilliant season with the Carl Rosa Opera company, of London, to fulfill a World's fair date at the Trocadero, following which she returns to the same organization for next winter.

Miss Stewart is a native of Cleveland, Ohio, who for the past five years has sung in oratorio, concert and opera in Europe and has built for herself a reputation quite out of the ordinary in the musical field. On last Monday evening she appeared at the Trocadero and captivated music lovers at once. She demonstrated her entire worthiness of the many glowing tributes paid her by the critical faculty abroad and took rank as a singer of rare talent and great personal magnetism. Her voice is a soprano of dramatic quality and her selections displayed her powers to the utmost.

The quartet of great features which made the Trocadero famous in the first month of its career develop new charms constantly. There is earnest talk of including the management to permit the Russian troupe to appear in the World's exposition musical program in the Russian division, many of those who have heard the charming folk songs and witnessed their quaint national dances declaring that they belong to the great World's fair itself.

The marvelous Von Bulow band has won a popular victory over the best bands engaged by the World's fair and is a drawing card of great value, while the Vonos Miska Hungarians, one of the entrancing, the lovers of impassioned music. The fourth feature of the original quartet is Cyrene, the eccentric dancer from the Albanians, London, whose engagement at the Trocadero is near its close and whose vogue is immense with the public. Other novelties embracing the light in the archness and humor with which Rosalind veils her tender love.

The final performance on Wednesday night will be "The Social Swain," a comedy-drama of life in New York city at the present day. It deals with the attempt of a young married couple, born and reared in refined and aristocratic circles, to attain eminence as leaders in the world of finance and fashion. The perils and dangers that await both husband and wife lead to a remarkably absorbing situation. This piece was first produced at the beginning of this season at McVicker's theater, Chicago, where it made an enormous success, and which has been repeated in nearly all the large cities. It gives an opportunity of seeing Miss Wainwright in a modern part, which will be a decided novelty. Her dressing and that of the other ladies will reflect the latest Parisian fashions.

Miss Wainwright has always been noted for the excellence of her company, which this year includes such well-known players as Barton Hill, William Ingersoll, Nat Hartwig, Percy Brooks, E. T. Backus, Edward Elmer, Wallace Bruce, Cecil Magnus, Alfred Burnham, Kate Blanche, Lillian Thurgate, Dorothy Thornton and Eleanor Carey.

TROUBLE-FEARED

Nicaraguans Excited Over the Landing of Marines and Sailors From the American Warship Atlanta.

All Classes Are Fearful That the United States is Taking Possession of the Country.

The American Officials Say They Merely Landed the Forces to Protect the Canal Property.

This is Regarded as a Subterfuge and Serious Trouble May Arise at Santa Fe.

NEW YORK, June 12.—A special to the World from Managua, Nicaragua, says: The landing of marines and sailors from the American warship Atlanta, who established a camp near the village of Santa Fe, close to the canal, has caused the greatest excitement, even exceeding that which prevailed during the late revolution or upon the overthrow of Sacaia. The agitation has extended to all classes, who fear that the United States is taking possession of the country, and the passive attitude of the government is severely commented upon, even called treacherous.

The explanation of the American officials that they merely landed the forces in order to protect the canal property and works is considered a subterfuge, because such war-like preparations as the landing of troops without warning, placing artillery and Hotchkiss guns in position, preparing the place to withstand a siege, bringing to shore a large quantity of supply and camp equipment, seems to indicate a long stay.

Crowds from this city went to Santa Fe to see "Los Americanos" as the invaders are called, and it is feared that unless some precautions are taken or a satisfactory explanation is given serious trouble may arise.

A large deputation of citizens has been chosen to demand an explanation from the government. It was rumored that Gen. Montiel went to Santa Fe to demand an explanation from the American officers there, but this is not generally credited as it is known that the American minister was closeted with the cabinet from 11 o'clock yesterday until nearly 1 o'clock in the afternoon. The United States minister has gone to Santa Fe.

Difficulties Are Ended.
NEW YORK, June 12.—A special to the World from Managua says: Gen. Montiel, a member of the provisional government, said yesterday: "I consider that all the difficulties are at an end. There is not the slightest danger of a fresh outbreak from any source. The rights of Americans in the Nicaraguan canal will be respected and if necessary a new concession will be granted, but on the basis of the old one. It will be unnecessary to consult the government of Costa Rica on that point as everything concerning Costa Rica's rights has been settled by treaties."

THE NYACK IS SAFE.

She Had Taken Refuge in Erie Harbor During the Gale.

CLEVELAND, O., June 12.—The steamer Nyack from Buffalo, reported lost, arrived this morning. She took refuge in Erie harbor during the gale.

The Nyack is owned by Capt. Parsons, who commands her. He purchased the steamer from the Union line for \$40,000 and repaired and refitted her in first class style. She is running excursions from Buffalo to Chicago during the World's fair and is now making the first excursion trip.

A WIFE MURDERER'S DEATH.

John L. Osmond Electrocutated at Sing Sing Today.

SING SING, N. Y., June 12.—John L. Osmond, who was electrocuted at 11:40 this morning was convicted of the murder of his wife, Mary, and his cousin, John C. Burchall. He and his wife lived in Burchall's apartments in New York city. He became jealous of his cousin and after repeated quarrels left the house and Mrs. Osmond began proceedings for a divorce. He went to the flat Oct. 3, 1891, and killed the woman and Burchall.

Osmond was in one of the death cells in Sing Sing prison on the night of the court to the fact that Osmond had had an opportunity to make his escape with Pallister and Roehl, but had declined to take advantage of it. The judge said, however, that the only thing he could do was to impose the sentence of death.

India's Silver System.

LONDON, June 12.—Among the recommendations contained in the report of the commission appointed to consider the causes of and remedies for the derangement of the silver money system of India is one advising the stoppage of the coining in India of silver for private account. Lord Herschell, present lord high chancellor, was at the head of the commission.

Trolley Cars Collided.

NEW YORK, June 12.—A special to the Sun from Chester, Pa., says: Two trolley cars on the Media-Chester electric railroad collided at a speed of fifteen miles per hour near Waterville last night, and fifteen persons were seriously hurt. The momentum of the cars was such that, when they crashed together, the passengers were thrown into heaps.

WANTED TO HANG HIM.

Exciting Scene at the Ford's Theater Inquest This Afternoon.

WASHINGTON, June 12.—At the afternoon session of the inquest a well-dressed man walked forward and in a voice trembling with passion, shaking his fist in Col. Ainsworth's face, shouted: "You murdered my brother and you won't sit there intimidating these witnesses."

The man was Charles Banes, whose brother was a victim of the disaster. After the uproar thus occasioned had quieted, Mr. Davis, representing Col. Ainsworth, started up to speak when a dozen excited department clerks rose to their feet and shouted for him to sit down. The lieutenant of police present endeavored to quiet the outbreak, but his voice was as ineffectual as it would have been in a cyclone.

The excitement intensified. Nearly every clerk present who was employed in the old theater building was on his feet shouting. At first they only called "Sit down!" but finally some frenzied individual cried "Hang him! hang him!" Men were springing forward by this time and spectators sought cover.

It looked as if harm would come to Col. Ainsworth, for some clerks were shaking their fists over his head and others were pushing forward as if they wished to tear him in pieces. Mr. Warner, one of the jurors, finally managed to quiet the mob and the deputy coroner adjourned the inquest.

A CONDUCTOR ARRESTED.

Charged With Swindling the Chicago Great Western Road.

CHICAGO, June 12.—For some time past the Chicago Great Western officials have been quietly investigating reports about certain conductors carrying passengers from St. Paul to Chicago on their line for certain compensation and making no return to the company for it.

This terminated today in the swearing out of a warrant for the arrest of Frank Mortimer, a conductor running between Dubouque and Minneapolis, and an order to dismiss certain other conductors. It is stated that the officials have other information which they do not wish to divulge at the present time.

SHOOTING IN A CHURCH.

Bold Attempt of a Boston Man to Murder His Wife.

BOSTON, June 12.—William E. Mitchell made a sensational attempt last night to kill his wife. Mrs. Mitchell was attending a children's concert in Broadway Methodist Episcopal church in South Boston, when her husband came to the door and called for her.

When the couple met in the vestibule, Mitchell fired a revolver at the terrified woman, but his aim was so unsteady by his excitement that only one bullet struck her and that in the wrist. Mitchell was arrested. Great excitement was caused in the crowded church by the shooting.

LIZZIE BORDEN'S TRIAL.

Important Decision by the Court in the Defendant's Favor.

NEW BEDFORD, Mass., June 12.—The court today decided to exclude the testimony which Lizzie Borden gave at the inquest. This is a victory for the defense, and it is now unlikely that Miss Borden will be put on the stand.

New Postmasters.

WASHINGTON, June 12.—The president has appointed postmasters as follows: John M. Davis, at Clarksville, Ark.; James M. Cremin, at Marysville, Cal.; Edward J. Stearns, at Durango, Col.; Marcus M. Shores, at Grand Junction, Col.; James M. Davis, at Cordale, Ga.; Charles E. Norris, at Hailey, Idaho; Willis B. Grimes, at Baton Rouge, Ill.; Samuel F. Tufts, at Centralia, Ill.; Isaac Fielding, at Champaign, Ill.; James S. Wilson, at Mount Carmel, Ill.; John W. Bester, at Rockford, Ill.; Joseph T. Dilley, at Mitchell, Ind.; Louis Sarbach, at Holton, Kas.; George Van Cleave, at Phillipsburg, Kas.; Jacob D. Allen, at Butler, Mo.; S. W. Hunt, at Tipton, Mo.; John N. Harder, at Castle, Mont.; F. W. Buckren, at Kalispel, Mont.; George C. Carter, at Hill City, S. D.

Shriners at Cincinnati.

CINCINNATI, June 12.—For three days this week Cincinnati will entertain members of the Order of the Mystic Shrine. The gathering is known as the imperial council of North America of the ancient Arabic order and it is estimated that 5000 "nobles," coming from all parts of the Union, will take part in the festivities. A large number of Shriners arrived Sunday and this morning.

A Poll of Congress.

NEW YORK, June 12.—In reply to a telegram sent to members of both houses of congress by the Times as to their attitude in regard to the Sherman law 22 have been heard from—48 senators and 100 representatives. Of this number 83 are in favor of the repeal, 25 are against the repeal and 8 are still undecided.

Returning to Work.

CHICAGO, June 12.—Sheriff Gilbert received information from Lemont this morning that the drainage canal contractors have resumed work today with about one-third their usual force of men. The leaders among the strikers, however, still refuse to return to work.

Two Plums Awarded.

WASHINGTON, June 12.—The president has made the following appointments: James E. North, of Nebraska, to be collector of internal revenue for the district of Nebraska; Harry Alvan Hall, of Pennsylvania, to be attorney of the United States for the western district of Pennsylvania.

Found in the Creek.

NEW YORK, June 12.—A special to the Herald from Trenton, N. J., says: The bodies of John A. Lynch, 7 years old, and William Durkin, 5, were found in Crosswick's creek near Bordentown Sunday by men who had been searching for them since Friday morning.

The Viking Ship.

BOSTON, June 12.—The Viking ship bound from Christiania, Norway, for Chicago, was spoken at 6 o'clock last evening off Nanset.

A Call Has Been Issued for a Meeting to Arrange a Fourth of July Celebration.

First of the Sunday Afternoon Band Concerts Given on Bay View Heights Yesterday Afternoon.

Pavilion to be Built at Once—Sale of the Village Chemical Engine Being Negotiated.

Preparations are being made to celebrate the Fourth of July in an appropriate manner in West Duluth and the following call has been issued: "In order to prepare for the proper observance of the coming Fourth of July, we issue this call for a meeting of the citizens of West Duluth at Hoyt's hall on Monday evening, June 12, at 7:30 p. m. Let everybody attend." Signed by G. J. Mallory, A. C. Osborn, E. D. Home, Kastner & Neumann, O. L. Oland, J. W. Crooks, J. W. Phillips, Kirkwood & Thorpe, J. A. Sutton, J. C. Fossett, J. A. Gray, A. Dunaway and others.

FIRST BAND CONCERT.

Large Crowd on Bay View Heights Yesterday Afternoon.

The first of the series of band concerts took place on Bay View Heights yesterday afternoon, according to program, and was attended with gratifying success. About 600 people, many of them from Duluth, enjoyed a trip to this beautiful resort and spent the afternoon walking about, listening to the music and viewing the natural and artificial beauties of Indian Park. The land company will at once proceed to the erection of a pavilion and other improvements. Professor McNie is organizing an orchestra which will furnish music for dancing parties and otherwise supplement the band in a musical direction.

Negotiations are Pending. Chief Ryan, of the department, went to New Duluth today to confer with the authorities in regard to the purchase of the chemical engine by that village. If an agreement can be reached in regard to the price to be paid for the engine, the West Duluth council will be asked to confirm the sale and at the same time negotiate for the purchase of a new one suitable to the needs of the department.

West Duluth Briefs. The schooner S. L. Watson left the Saginaw lumber company's dock on Saturday with 1,500,000 feet of lumber consigned to Toledo. The schooners Edward Kelly and Antelope left the Mitchell & McClure dock on the same date with 1,500,000 feet of lumber for Passaic, N. J.

The interior of Coulthurst's hall, on Central avenue near the city hall, is being fitted up for the use of the Masonic lodges of West Duluth.

Company H. leaves this evening to go into camp at the state camping ground for ten days.

E. O. Ballard and Ed Elston have formed a co-partnership for commission and feed business.

The 7-year old daughter of James Brotherton, living on First avenue east, died yesterday of scarlet fever. The remains were taken this afternoon to Cleveport for burial.

The congregational church has been carpeted and its interior appearance much improved.

E. J. Luther and wife returned today from Grand Rapids.

A fine lecture, the first of a series of the kind, will be delivered by C. J. Buell, of Minneapolis who is widely known as a speaker and writer on economic questions on the 21st of June at the prohibition tent on Fourth street north.

Mr. and Mrs. B. C. Dent left last night on the Ossifrage for Chicago.

Born—To Mr. W. G. Billings and wife of Oneta, a son, and to Mr. and Mrs. Hugh Monroe, First avenue west, a girl.

Miss Allen has returned from a week's visit to the World's fair and resumed her position with the Great Western company.

WHEAT WENT DOWNWARD.

The Market Opened Steady But Weakened in the Afternoon.

The wheat market opened here this morning steady and unchanged for cash and September and a decline of 1/4c from Saturday's close for July. The early market ruled fairly active and firm, July advanced 1/4c to 1/2c, with good trading, while September eased off 1/4c to 1/2c. There was a demand for cash wheat, but it was not strong, and the market ruled active and firm, with a firm undercurrent. After the opening prices, the market was weak, and the closing prices were as follows: No. 1 hard wheat, 67 1/2c; No. 2 hard wheat, 67 1/4c; No. 1 northern, 68 1/2c; No. 2 northern, 68 1/4c; No. 1 soft, 67 1/2c; THE DISTRICT COURT.

The Iron Range Land Case Still Drags Wearily Along.

The regular June term of the district court was resumed this morning. Before Judge Ensign the case of the Duluth & Iron Range Railway company against Edward Lynch et al, appeal of James Sheridan et al, is still on trial.

It is not probable that the end will be reached before Wednesday or Thursday. James Sheridan was on the stand again this morning for a couple of hours.

Before Judge Lewis, in the case of Grace E. Pattison et al against Phillipina Piete et al, a jury was waived. Chapin & Wells Hardware company against Duluth Lumber Oil company continued. The trial of Euclid C. Lafalce against John Degrass, which was begun Saturday, was resumed.

Keter Carlo was brought into court this morning and pleaded not guilty to the charge of carnally knowing a female child under the age of 16 years.

C. M. Parkhurst, attorney for young Harvey Berger, against whom two indictments were found, gave notice that he would demur to the indictments. County Attorney Teas could not participate in the argument today and the hearing was set for 2:30 tomorrow afternoon.

Martin Svava pleaded not guilty to assault in the second degree. James Harrington, larceny in the second degree, withdrew his plea of not guilty and entered a plea of guilty.

Some People Who Would Like to be Superintendent of the Fish Hatchery.

There is one government position at Duluth which will be filled very shortly and several Duluth gentlemen are extremely anxious to be allowed to discharge its duties. This is the position of superintendent of the fish hatchery at Lester Park formerly held by Dr. Sweeney. He was exonerated of all charges preferred against him, but at the same time was requested to hand in his resignation. It is believed that he will be transferred to some other place.

The applicant for the position who is believed to have the inside track as far as political influence is concerned is Henry Truelsen, president of the board of public works. His application has been filed and is said to have received the approval of Congressman Baldwin.

W. D. Tomlin, state boiler inspector, and one of the men who preferred the change against Dr. Sweeney, is also after the job. Other aspirants are E. Faulkner and President McDowell, of the Trades and Labor assembly. The latter was circulating a petition about six weeks ago. It is among the possibilities that Mr. Wires, who is temporarily in charge, may be appointed to the vacancy.

This office, however, comes under the civil service rules and this may affect the chances of some of the applicants, as political influence will not count for so much.

AFTER BIG MONEY.

D. M. Sabin and J. C. O'Gorman Sued in St. Louis County.

The complaint was filed this morning in a suit of J. J. Brown against D. M. Sabin and Joseph C. O'Gorman. It is set forth that plaintiff secured judgment against Senator Sabin in Washington county for \$27,576.68, part of which was satisfied, leaving a balance still due of \$38,690.13; that there remains no property, real or personal, in Washington county subject to execution. It is further alleged that the sheriff of St. Louis county has returned an execution unsatisfied stating that he can find no property within this county belonging to Sabin. Plaintiff desires several tracts of land recorded as belonging to J. C. O'Gorman and alleges that the same was transferred by Sabin without consideration, and to avoid the payment of his debts. The plaintiff prays that the deed to O'Gorman may be declared invalid and of no effect.

In Jacob R. Myers against the Duluth Transfer railroad company, the mandate of the supreme court affirming the judgment of the lower court was filed in clerk Sinclair's office today. There was also filed a stipulation between F. F. Davis and Attorney General Childs, agreeing that the matter of the Minnesota Canal company to acquire for its uses and purposes certain lands, be heard June 17.

At the adjourned annual meeting of the Cincinnati Iron company on Saturday afternoon a request for a reduction of royalty amounting to 10 cents was presented by the Standard Ore company. It was referred to a committee of the directors and three stockholders. It is believed that a reduction of 7½ cents may be recommended.

The following officers were elected: Directors—A. E. Humphreys, G. W. Beck, F. G. Chapman, J. D. Howard, A. H. Davis, C. E. Dickerman and H. W. Coffin. Officers—President, A. E. Humphreys; vice president, G. W. Beck; treasurer, J. D. Howard; secretary, Frank Cox.

The Chamber Meeting.

The chamber of commerce meets tomorrow morning and President Baldwin will again be in the chair for many months. The acceptance of the profits map is to come up. A number of other important matters will be considered, some of them in executive session.

MANY PROMINENT MEN

Gov. Flower, George M. Pullman, Marshall Field and Other Distinguished Men in Duluth Today.

Annual Meeting and Election of Officers of the Minnesota Iron Company This Morning.

Party Took a Boat Ride on the Bay This Afternoon, President Merritt Accompanying Them.

Duluth is entertaining today a very distinguished party—men who stand at the top in the financial, political and social world. They are gathered here to attend the annual meeting of the Minnesota Iron company, which began in the offices of the Iron Range Railroad company at 11 o'clock this morning.

The special train of six cars bearing the party arrived here Friday morning, and proceeded to the range, where the property of the company was inspected.

Yesterday Charles McKnight, Tower, Jr., and others who felt a keen interest in Duluth, were brought down from the range by special train, and this morning the balance of the party arrived.

The full roster of the party is as follows: Governor Roswell P. Flower, Col. "Tim" Williams, Albany, N. Y.; Hon. R. Bishop, Benjamin Brewster, James Belden, Dr. Ralph Isham, Dr. Bacon, Dr. Johnson, E. J. Mayer, Henry Seibert, W. C. Gates, New York; Charles McKnight, A. Tower, Jr., B. T. Benson, Franklin McVeagh, Philadelphia; Senator Donald McNaughton, Rochester; Marshall Field, George M. Pullman, J. H. Chandler, H. C. Durand, A. A. Sprague, H. H. Porter, C. P. Coffin, Andrew Crawford, Chicago; ex-Senator Philieus Sawyer, Oshkosh; I. H. Wing, Bayfield.

Mr. Tower formerly was executive head of the Iron Range road and lived at Duluth. This is his first visit to the Zenith City in more than five years and he finds much to surprise and please him in the wonderful growth and progress apparent on every side.

"Nobody could ever even imagine the true growth and development of Duluth," he said, "unless I myself be had been here at the early days, and gone away again. There is nothing like it—nothing to approach it in the world, and all the former predictions of Duluth's greatness as they were, are now well within sight."

"I came down from the range yesterday," continued Mr. Tower, "because I feel a keen interest in Duluth and wanted to look the city over. Besides, I have many friends here whom it gives me great pleasure to see." And all the while Mr. Tower talked he was greeting friends right and left with a hearty hand-shake, a smile and pleasant word. There were few in the lobby of the Spalding whom Mr. Tower did not know and remember well.

Returning again to the subject of Duluth, he said: "The thoroughness, foresight and good judgment with which everything has been done here is remarkable. In some older cities we don't even take care of what we have. You people are reaching out and acquiring all the time. I am surprised and gratified at all I have seen here."

At the meeting held at 11 o'clock considerable routine business was transacted and the following officers elected:—Practically all of them being re-elections: Minnesota Iron company, Chairman H. H. Porter, of Chicago; president, Dr. H. Bacon, of Tower; vice president, Henry Seibert, New York; secretary and assistant treasurer, C. P. Coffin, of Chicago; treasurer and assistant secretary, A. J. Patterson, of New York.

Duluth & Iron Range Railway company, Chairman H. H. Porter; president, J. L. Groatinger; vice presidents, Joseph Sellwood and C. W. Hillard; treasurer, C. W. Hillard; treasurer, C. W. Hillard.

At noon the meeting adjourned and lunch was served on board the special train. The party then boarded the tug Buffalo and viewed the bay and harbor improvements. President Merritt, of the Duluth, Missabe & Northern Pacific, accompanied the party at the invitation of President Groatinger.

The train will leave this afternoon as the second session of the Omaha limited will leave at 4 o'clock. The party will break up and the gentlemen repair to their respective homes.

THE MUNICIPAL COURT.

Large Number of Drunks and Vags This Morning.

In police court about fifteen men of various degrees of misery faced his honor, Judge Powell. Some were vags and some were drunks—so the complaints said. All had the usual variety of stories to tell—credible, pathetic, ludicrous, as the case might be. Fully half a dozen were given a suspension of sentence. Several entered pleas of not guilty and the remainder were sent up to Paul Sharpy's famous resort.

Jans Consover, a servant out at the Woman's home, answered "guilty" to the charge of drunkenness and threw herself upon the mercy of the court. That mercy, located in his honor's bosom, was not asked in vain, especially as the matron of the home appeared and spoke a favorable word for the erring Jane.

Elizabeth Fowler, a young woman with one front tooth and a boil under her chin, presented a most dilapidated appearance. She said that she had a drink but was not drunk. Her trial was set for 9:30 a. m. tomorrow.

A complaint has been issued, charging Loyis Ozinsky, who hangs out at No. 20 First avenue west, with refusing and neglecting to clean a filthy outhouse and carriage receptacle. His case comes off Wednesday morning at 10 o'clock, the same hour set for W. C. Sherwood's trial for maintaining a dirty privy.

The Duluth Gas and Water company has been dragged into a court of justice, or rather will be. A complaint has been filed, charging that corporation with excavating on East Second street between Twelfth and Thirteenth avenues without a permit. Daniel McLennan swore to the charge.

THE BACCALAUREATE SERMON.

Dr. Forbes Preached to the High School Graduates Yesterday.

This week the public schools of the city have the right of way in thoughts and hearts of the people. Commencement week was opened yesterday. For the first time a baccalaureate address was delivered to the high school graduates. Very fittingly, Dr. Robert Forbes was selected for that purpose. The First Methodist church was the place chosen and the time was yesterday afternoon.

The music was furnished by the High school choir under the direction of Professor Custance. The class occupied seats together in the seats in front of the pulpit, and the sanctuary was well filled with friends and relatives of the graduates.

Dr. Forbes selected for his text, Revelations III, 21: "To him that overcometh will I grant to sit with me on my throne, even as I also overcame, and am set down with my Father on his throne."

The speaker commenced by congratulating the young men and women who have just finished their first course in education and are now ready to start out to fight the battles of the old world or push further up the ladder of learning. A hope was expressed that each member of the class would continue to be students, with God, man and nature as instructors. "I almost envy you your probable fifty years of life," said the doctor. "I see before you civilization's valley, where poets will sing, divines preach, scientists investigate and philosophers reason, all for your benefit. For the next fifty years I would rather be in Minnesota than in heaven."

The class was exhorted to care for their physical well-being. "Mac has a soul and a body. The temple should not be defiled. The three words in life's dictionary are moderation, temperance and chastity. The difficulty of life—the thorny way—were pointed out and the fact impressed that struggles are necessary to secure any desired end. Life was a battle, and the opportunity for service, not a chance to get rich."

In a few words addressed directly to the young women, the doctor said, "I wish you long lives and happy homes. Do each day's work well. Follow Him who gave His life for men, and your life, be it long or short, will be a success. The Master asks you to follow Him, but let it be such a life service that we may be fit to associate with Him who is associated with the Father."

THE COUNCIL MEETING.

A Number of Routine Matters to Come up and Appointment Matters Also.

Tonight the city council meets. All are hoping and praying that the session will not hold for three hours as was the case last week. The election pay rolls will come up for passage together with eighty bonds for liquor licenses. The city engineer's office will submit a bill of 5 per cent assessments and but little of anything will come from the board of public works except dry routine matters.

Up to noon, no new ordinances and no new communications had been filed with the city clerk.

The committee on public officers and offices will probably make some report on the appointments to municipal office, but just what will be the nature of the report has not been learned. One rumor is to the effect that some of those whose fate hangs in the balance, will be found wanting in the committee.

SELECTED SCHOOL LANDS.

Representative from the State Auditor's Office Visits the Land Office.

The law provides that section 13 and 36 of each section of government land shall go to the state for school purposes.

In cases where such lands have been taken up by settlers who have rights forestalling the law, the state is allowed to choose land elsewhere as an indemnity for loss of the regular section. Today Wm. O' Mulcahy, representing the state auditor's office, appeared at the Duluth U. S. land office and filed selections of over 9,000 acres of unoccupied government lands. A great deal was taken on the ranges as near mineral deposits as possible.

Should Be Explained.

The Superior Telegram says that President Norvell, of the street railway company of Superior, and some Eastern friends, have purchased a controlling interest in the Duluth-Superior Seashore company and will put them into service between Superior and Rice's points next year, and adds: "It is probable that a railroad track will be placed on the lower deck and passengers transferred from one side to the other without change of cars."

The Telegram omits to explain, however, how this will be done, Superior having the narrow gauge and Duluth the wide tracks.

A WHALEBACK YACHT.

Capt. McDougall Will Build a Palatial Yacht for Himself.

The Chicago correspondent of the Marine Review says: Although nothing has been published about it, I have been told that Capt. McDougall is about ready to build for himself a palatial whaleback yacht, and that the engine, for which a contract was let recently, with the Frontier Iron works, Detroit, is intended for this boat. The engine is to be 12 and 24 inches by 12 inches stroke, and will turn a small wheel 400 revolutions per minute. The engine is to be divided among twin screws, reports as to this machinery would sound better and possibly the boat would ride more comfortably, but that is the story. Other details in the rumor add that the yacht is to be about 100 feet long and is expected to make twenty miles an hour.

This is one of the first evidences of McDougall's wealth, acquired from judicious investment in real estate at the head of the lakes and from the whaleback gold mine. There is probably no man in the country today who has jumped into such close relations with moneyed men as this former lake captain, whose salary several years ago was not more than \$4,200 a year. He has applied his idea, or dream as it was called, to everything in practical navigation, and now it is said that he is going to give it the romance that belongs to a dream by building a fancy yacht.

The wife of the Columbus from Duluth to Chicago was a triumphal cruise for McDougall, and as he walked through the cabins he probably thought of the week when he brought the boat into Cleveland and dry-docked her for inspection. But she was ridiculed instead of being inspected, and in speaking of this occurrence several years later, when his plans for building whalebacks were backed by all the money needed and the investments had given good returns, he did not show signs of being "swelled up" over his good fortune, but evinced satisfaction in knowing that the shipbuilder who hurt him most was worrying as to when he would stop building those cursed tanks.

A mistake is made in classing the engines of the Pacific Barge Company's steamer Everett with those of the Pathfinder. They are hardly at all alike. The Everett's engines are considerably larger and are surface condensing with all pumps and condenser independent, whereas the Pathfinder is jet condensing with pumps attached. Almost every detail has been improved upon. The Frontier people say themselves that they are well aware that those who know the Pathfinder will hardly believe this, but in every genuine build they strive to make improvements on the one that went before. In this case they have given the intermediate engine a piston within a mile of a slide, a change which will commend itself to engineers for various reasons.

This is the third set of engines that the Frontier has had sent to Duluth to be water, the other two being fitted to the Mackinac and Keweenaw, built by F. W. Wheeler & Co. Freight charges involved in the shipment of the engines of the whaleback Everett to Puget sound are probably very heavy, but there is a commingling of stockholders in the barge company and the Northern Pacific railway that might bring about a handsome rebate on such shipments, and this is another example of the wheels within the wheels that revolve in the corporation that is backing or rather pushing the whalebacks.

DEVELOPMENT PROCEEDING.

The Progress Made on Some of the Mesaba Properties.

A representative of the Virginia Enterprise met Capt. Jas. H. Alward, superintendent of the Little Mesaba, on 59-15, on Friday evening last, and from him received the information that a good property was being developed. For some time past Mr. Alward has been exploring on the property, but with varied success until very recently, when he put down the fifth shaft on the property, 150 feet apart and running from north to south. In 5 pit he encountered the black slates at a depth of about 100 feet, coming up from the southward and digging a sump he came up the shaft about ten feet and started a cross-cut south, going through the slates and into paint rock which he encountered clean and very soft and of a reddish brown. At the time Mr. Alward was telling of the find he stated that he had already gone through between forty and fifty feet of the pure stuff and should continue explorations until he had proven what he had on the property.

The company, under charge of Capt. Jas. H. Pearce, is showing up an elegant property, some 15,000 tons of ore already being in stock, and shipments will be commenced as soon as the track is in readiness. About 100 men find employment at this mine; and the underground workings of the mine show upwards of half a mile of drifts and crosscuts. Their new plant of hoisting machinery is in readiness for action, a Corlis engine and four six-foot drums.

The Shaw property now shows a stock pile of some over 1000 tons, and is in readiness to start shipment so soon as sales of ore can be made. Thirty-five men are now employed at this property, under charge of Capt. John McLeod, and the work of development is being prosecuted rapidly.

A crew of men are now at work under direction of Capt. John McLeod, on section 29-58-17. This is the property in which a company composed of capitalists from St. Paul and Bessemer, Mich., are interested.

A new four-foot drum hoist, skip and other machinery has been put in at the Great Northern the past week. Work is being prosecuted vigorously at this property and with good results.

THREE MANGLED

A Six-Story Building in New York, Filled With "Sweater Shops," Caught Fire Today.

There Was a Wild Rush to the Street by the Numerous People Working There.

In the Crush Three Persons, a Woman and Two Men, Were Trampled to Death.

A Street Car Dashed Down a Steep Grade in Chicago and Five Passengers Injured.

NEW YORK, June 13.—The six-story building filled with "sweater shops" at Nos. 10 and 12 Montgomery street, caught fire at 8:30 this morning, and in the mad rush to the street of the 250 souls working there at the time, three were killed and several injured.

The firemen are now searching the different floors, and it is possible that their search will result in adding to the death list.

The bodies of the three persons killed are so horribly mangled that it is a difficult matter to identify them. One body is that of a woman about 30 years of age; another that of a man 40 years of age and the third that of a man 45 years of age. All the occupants of the building were Polish Hebrews.

The fire started on the first floor of the building, it is supposed from a stove used for heating irons. The stove was near the stairway, and in a few seconds the flames shot up as far as the second and third floors, cutting off the escape of many of the unfortunate inmates of the building.

When the alarm of fire was sounded in the building, there was a wild rush of the men, women and children who worked in the different sweater shops. All got out safely, except the three reported killed and half a dozen who were injured. One woman jumped from the first story window and fractured her legs, and a man received a severe scalp wound by jumping. Many people suffered slight injuries in scrambling down the fire escape.

At the near-by hospitals twelve people were treated for injuries received at the fire. It is said two of the injured will die. It was reported at 11 o'clock that two more bodies had been found.

THE STORY IN DETAIL.

Fought Like Demons to Escape from the Death Trap.

NEW YORK, June 13.—The six-story brick building on Montgomery street near East Broadway, five floors of which were used as "sweater shops," proved a death trap this morning when fire broke out there at 8:30 o'clock. Two hundred men and women were employed on the five upper floors, and in the wild scramble for safety at the first alarm three were killed and a number injured. The building was well protected against fire from the outside by heavy iron shutters, but there was little or no protection from fire within and only one small fire escape by which those inside could reach the street.

There were no fire escapes in the rear of the building and the 250 people rushed to the fire escape in front and fought like demons. When the police arrived the whole front of the building was alive with men and women. All were fighting for good places on the fire escape. The women appeared to be more composed than the men, for the latter fought furiously. One would make an attempt to go down through the manhole in the fire escape when a dozen would pull him back.

The ladder had not yet been lowered from the first fire escape and thirty people were huddled together there. Some girls had lowered themselves through the man hole and dropped to the street without sustaining any great damage. Suddenly the flames burst like a rocket from the second and third floors and leaped out across the street. The excitement that existed was outside a hundred times by the panic which followed.

There was no longer any fighting on the fire escapes. The people poured through the man holes like water. They fell on each other's heads as they came down and were piled three tiers deep. The ladder from the first fire escape was not yet lowered. The little balcony overflowed and then men and women jumped to the pavement.

The first to jump was a large woman. She alighted on the iron railing in front of the building and rolled over on the pavement dead. A man jumped further into the street and his head struck the pavement. His skull was crushed in and he never moved. A second man followed him in an instant. He too struck on his head, but did not die immediately. A young girl was the fourth to leap out. She fell on her side.

All this time the police were yelling to the people not to jump and trying to place the ladder against the fire escape. The people were jumping all around. Four or five leaped into one officer's arms and were not hurt. A hook and ladder wagon had arrived by this time and the long scaling ladders were erected against the fire escapes, and the people who still stood there were taken down. Some scrambled across the first balcony to a little ledge on the next building and lowered themselves by that way.

One of the men who had jumped was taken into a liquor store. He died later, being there three minutes. Four ambulances were summoned. Jessie Augustovsky was taken in the drug store across East Broadway and had her wounds dressed. She and a man who went into the liquor store completely out of his mind were sent to the city hospital. George Gregburg, of 62 Essex street, was found with a sprained ankle. Three or four other people with slight injuries

were sent to the hospital in the ambulance and as many walked around to the hospital and had their wounds dressed. In all about twelve were treated at the hospital.

For a half hour the blaze defied the efforts of the firemen. Every floor was on fire at the same time. For blocks around the streets were packed with people. Many of them had relatives who worked in the building. As the bodies were carried away to the police station the crowd followed in a rush. At 10:30 the list of dead and injured was:

Dead: Celia Davis, 18 years of age, of 23 Suffolk street; Akivos Boos, 28 years of age, a Russian tailor; Joseph Mendelssohn, a Russian tailor, 26 years of age, of 13 Pitt street.

Fatally injured: Annie Katzer, 16 years old, burned and bruised; Morris Nadleson, a Russian tailor of 75 Pitt street, burned all over body; his daughter Alice, limbs fractured and badly burned about body.

FIVE PEOPLE INJURED.

A Street Car Ran Away on a Steep Grade in Chicago.

CHICAGO, June 13.—When beginning the descent from the north end of the Sangamon street viaduct at Kinzie street last night, it was discovered by the driver of car No. 693, of the Ashland avenue line that the brake was broken.

The car got beyond the driver's control, the horses became frightened and ran down the steep grade at great speed, scattering the passengers along the street until the car left the track at Austin avenue and crashed into a water plug at the edge of the sidewalk.

Five persons were injured, one of them, it is thought, fatally. The injured are: Mary Pender, skull fractured, may die; Lizette Heiger, back and left side cut and bruised; Moritz Gernow, scalp wound and cut on face; Emil Brand, left leg lacerated and sprained; Deputy Coroner Corbett, arms contused.

IN THE INDIANS' HANDS

Dr. J. R. Walker Accidentally Shot an Indian at Leech Lake and May Lose His Own Life.

ST. PAUL, June 13.—Dr. J. R. Walker, resident physician and overseer at the Leech lake Indian reservation, telegraphed to headquarters yesterday that he had accidentally shot and killed an Indian.

This morning friends of Dr. Walker at Park Rapids, Minn., a town near the reservation, telegraphed to headquarters that Dr. Walker was a prisoner in the hands of the Indians and was in imminent danger of losing his life and to send troops.

A company of the Third United States infantry will probably be sent to the reservation today.

Later—A dispatch from Park Rapids this afternoon says Leech Lake Indians now have a double line of pickets out, and all entrance to the reservation is barred.

BURNED WITH VITRIOL.

An Ohio Murderer Seriously Injured in the Penitentiary.

COLUMBUS, O., June 13.—W. J. Elliott, who was proprietor and editor of the Sunday Capital and who murdered Al Osborne, editor of the Sunday World, several years ago, was seriously injured at the penitentiary this morning.

W. W. Varney, a Cincinnati thief, threw a quantity of vitriol in Elliott's face which will very likely cause the loss of one eye and perhaps both. Varney is a cutter in the state tailor shop and claims that Elliott falsely reported that he had sold a coat to one of the guards, whereby he was removed.

WAS ROASTED TO DEATH.

A Lineman Slipped and Grasped a Live Electric Light Wire.

ST. LOUIS, June 13.—S. G. Love, a lineman in the employ of the Municipal Electric Light company, was roasted to death while at work last evening on a pole on Broadway. Love slipped while at work in a mess of wires and grasped a live electric light wire. He was fatally burned before his associates could rescue him and died at the city hospital.

THE NUMBERS REDUCED.

This Year's Sealing Fleet Not as Large as Last Year's.

WASHINGTON, June 13.—Information received here states that the sealing fleet which sailed from Victoria this year will not probably exceed fifty-five vessels. Last year this fleet numbered sixty-five vessels making a total last year of over 100 vessels in the sealing grounds of the Pacific ocean.

Of the British vessels that have gone out from Victoria this year twenty-four have gone to the coast of Japan and thirty-one to the old sealing ground in the North Pacific ocean. The number of American vessels engaged in sealing this year is not known here.

Markham's Case Postponed.

MINNEAPOLIS, June 13.—The criminal court opened yesterday with Judge Russell on the bench. The first case called was that of the state against Representative Joseph M. Markham, charged, on two counts, with bribery. Mr. Markham was present and responded to his name. The case was continued over the term.

The petition for a writ of habeas corpus was granted by the court yesterday by stipulation.

The Gordon Trial.

NEW BEDFORD, Mass., June 13.—Another large crowd was present this morning before the court opened. Miss Gordon made her appearance before the justices took their seats. Mr. Adams continued the cross-examination of Dr. Dolan, who described the position of the body when the blows came from the left to right and were of moderate force. The prisoner sat with closed eyes and a fan over her face.

SPOILED BY A MISHAP

The Second of the Series of Yacht Races off Dover Marked by a Bad Collision.

The Vendetta, Britannia and Valkyrie Were Quickly Mixed up in a Most Confusing Manner.

The Valkyrie Was Not Much Damaged and Was Able to Start in the Race.

LONDON, June 13.—The second of the series of yacht races off Dover took place today, but the sport was practically spoiled by a mishap which resulted in the withdrawal of the Vendetta and the Britannia from the contest and the practical extinction of the hope entertained by many persons that the Valkyrie would again show her superiority over the other contestants. The yachts which were to take part in today's race were the Britannia, Valkyrie, Calluna, Iverna, Vendetta, Anemont, Lais, Varuna and Mabel.

A splendid breeze was blowing and everything promised well for an excellent race. The yachts had been drawn up in the positions assigned to them and were under way for the starting place. The Vendetta yawped across the bows of the Valkyrie, which was close alongside of her. The Britannia, which was close alongside the Valkyrie, and just ahead of her, ran into her as the latter's bows came out in front of the Valkyrie, and at once the greatest excitement prevailed among the fleet and people who were watching the start.

The Vendetta, Britannia and Valkyrie were mixed up in the most confusing manner. The shock of the collision was so violent that many of the hands on the Britannia and Vendetta were thrown overboard, and while some of the men on board were making efforts to get the yachts separated, others devoted themselves to the rescue of their companions who were struggling in the water. So far as known at present all were saved.

The damage done to the Britannia and Vendetta was quite serious. The Valkyrie, though badly tangled up in the mess, escaped with less damage than the race which, however, was greatly delayed by the accident. The Britannia and Vendetta were towed back to Dover for repairs. When the Valkyrie finally got started, she was twenty minutes behind the yachts which got away at the sound of the gun and was fully two miles astern.

Notwithstanding the disadvantages of the Valkyrie's late start, she rapidly overhauled her opponents and made a good race of it, finishing second. The Calluna finished first, covering the course in 3 hours, 23 minutes and 37 seconds. The Valkyrie's time was 3 hours, 29 minutes and 32 seconds.

SHOULD BE SETTLED QUICKLY.

Ex-President Harrison Discusses the Sunday Opening Question.

NEW YORK, June 13.—A special to the World from Chicago says: Speaking of the Sunday opening of the fair, ex-President Harrison said last night:

"All questions in which the public is so deeply interested, and which affect an enterprise like the World's fair should, in my opinion, be settled as quickly as possible. Whatever I think personally about Sunday opening, it seems to me that when congress made the law and gave an appropriation to the fair that settled the question."

Further than this he preferred not to say anything. Mr. Harrison said that immediately after his visit to the fair he would go East spending a short time in New York. He will then go to his summer home at Cape May, where he will remain two months, resting and doing a little literary work. He will return to Chicago then to see more of the fair.

A friend asked the ex-president whether he was going to practice the law. In reply he said: "I have taken a few retainers, but have not opened an office. I do not know that I shall ever have an office again."

IT CANNOT BE DONE.

Marine Cadets Cannot Graduate into the Engineer Branch.

WASHINGTON, June 13.—The attorney general has submitted to the navy department an opinion that will be of interest to cadets, not only of the graduating class this year, but hereafter.

It was found that the engineer class would not graduate a sufficient number of cadets to fill all the vacancies in the engineer branch of the navy, while the marine class was too numerous and the question submitted to the attorney general was whether the secretary of the navy could assign these marine cadets to fill the surplus vacancies in the engineer branch. The attorney general has decided that this cannot be done and that each class is entirely independent and cannot graduate its members into another branch of the service.

Agreed to the Demand.

STOCKHOLM, June 13.—The Norwegian government has yielded to the demands made upon it by the storting and has agreed to transfer its money transactions from the Norwegian bank and to stop the militia and line troops field drills.

Met Lord Rosebery.

LONDON, June 13.—Hon. T. F. Bayard, American ambassador, who arrived in England last Saturday, had an interview yesterday with the Earl of Rosebery, secretary of state for foreign affairs.

PANTON & WATSON.

the honest and impartial character of
the record, had become so corrupt in
forty years as to necessitate a reduction
from 16,000 to 8,000 in the number of
names on the list, what must be the con-
dition of the pension rolls of the civil
war, now that nearly thirty years have
passed since the conclusion of that me-
morable struggle. The appropriation
for pensions has been increased enor-
mously during the past two years, and
the people have demanded a halt. This
wish can be gratified and every honest,
disabled veteran can enjoy the bounty of
his country to a much greater extent if
the unworthy names are wiped off the list.

Marrying Money.

Thomas Nelson Page, the editor of
Harper's Drawer, has married a rich
wife, and every paragraph in the coun-
try is putting a thorn in the bridegroom's
side by making cheap and thoughtless
comments about it. Mr. Page belongs in
a sense to the public, since he writes
for the public, and therefore he has to
bear these little slings and arrows of out-
rageous fortune, along with those more
pleasant arrows whose piercing led up
to the wedding.

This instance of the cruel insinuations
of the world causes the Boston Tran-
script to remark that marrying for money
may be found in all conditions, from the
apple sellers to the millionaires, just as
marrying for love may also be found. It
is never fair to generalize over a mar-
riage between two people of unequal
fortune. It is as entirely possible for a
man to love an heiress devotedly as a
beggar maid; in most cases the heiress
is likely to be the nicer girl and turn out
to be the sweeter and more livable and
lovable woman.

And if an honorable gentleman mar-
ries a rich woman, it is certainly fairer
to suppose that he likes her and seeks
for happiness than to suppose that he
has his mind on his bank account. Es-
pecially is this true when the man is, as
most Americans are, at least self-sup-
porting. And if people marry for love,
as most Americans try to do, it makes no
difference if one or the other has a little
money. And, anyway, when all is said,
it is nobody else's business.

Three to One.

Mr. Nordhoff's last letter to the New
York Herald contains an estimate of
the opinions of the Sandwich Islanders
on annexation to this country, which he
gives as follows, if anything, to the
annexationists. The number of voters by
census is 15,593, of which 877 are
natives; 9993 of the whole body of voters
are estimated as against annexation, and
3500 in its favor. Of the American born
300 favor annexation, and 137 oppose it.
Of the British born 300 do not want an-
nexation, and 205 believe in it. The
German voters divide equally on this
question. The Portuguese have 1597
annexationists, and 500 in the opposition.
The Polynesians, numbering 42, have no
annexationists in their ranks.

This disproves the assertions of inter-
ested parties that a majority of the peo-
ple of Hawaii want to be annexed to this
country. Mr. Nordhoff is unprejudiced.
He went to Hawaii solely to ascertain
the real feeling, and his conclusions
must carry weight. If the majority of
the people of Hawaii, equal to three to
one, do not want annexation, should this
country coerce them into annexation?
This is the question to be decided.

The Garbage Question.

Mayor d'Autremont has vetoed the
garbage ordinance because he considers
some provisions are too severe and
would bear heavily on poor people. This
is an objection that could not be raised
to the garbage collection system advo-
cated by The Herald. The garbage
should be collected by the city and the
cost of collecting and disposing of it
should be paid out of the general fund.
The cleaning of the streets is paid for
in that manner. No one has ever raised
the point that a franchise tax should be
imposed for cleaning streets. It is con-
sidered a work which should properly
be paid for out of the city treasury. Why
then should the cleaning of the streets
be paid for by the same way? Both are
necessary to preserve the health and
beauty of the city.

It is doubtless true that there are many
poor people who can ill afford to pay
teamsters to remove their garbage. The
city should do the work.

The Kansas City Star thinks that the
disposition manifested by some of the
newspapers to make Congressman Hol-
man personally responsible for the col-
lapse of the Ford theatre building in
Washington is unjust. The Indiana ob-
jector sometimes permits his zeal for
economy to interfere with his
judgment, and he is chargeable with a
serious blunder in defeating the approp-
riation for renting a building which
would have relieved the ruined structure
of its strain. But the motive which seeks

to make use of a public misfortune to in-
flame partisan sentiment against Mr.
Holman is invidious and unfair.

The Northern Pacific railway has re-
cently issued a World's fair folder that is
a work of art and is highly creditable to
the enterprise of General Passenger
Agent Fee. It has been prepared for
distribution through the district and
general agents in this country and direct
from the various offices of the road in
this country and Europe. The folder is
printed in practically the same shape in
English, French and German. Another
publication by this road is a Yellowstone

the park, which is the best thing of the
kind ever prepared by a railroad for free
distribution.

Mr. John Beverley Robinson, a New

in a sense to the public, since he writes
for the public, and therefore he has to
bear these little slings and arrows of out-
rageous fortune, along with those more
pleasant arrows whose piercing led up
to the wedding.

This instance of the cruel insinuations
of the world causes the Boston Tran-
script to remark that marrying for money
may be found in all conditions, from the
apple sellers to the millionaires, just as
marrying for love may also be found. It
is never fair to generalize over a mar-
riage between two people of unequal
fortune. It is as entirely possible for a
man to love an heiress devotedly as a
beggar maid; in most cases the heiress
is likely to be the nicer girl and turn out
to be the sweeter and more livable and
lovable woman.

And if an honorable gentleman mar-
ries a rich woman, it is certainly fairer
to suppose that he likes her and seeks
for happiness than to suppose that he
has his mind on his bank account. Es-
pecially is this true when the man is, as
most Americans are, at least self-sup-
porting. And if people marry for love,
as most Americans try to do, it makes no
difference if one or the other has a little
money. And, anyway, when all is said,
it is nobody else's business.

Three to One.

Mr. Nordhoff's last letter to the New
York Herald contains an estimate of
the opinions of the Sandwich Islanders
on annexation to this country, which he
gives as follows, if anything, to the
annexationists. The number of voters by
census is 15,593, of which 877 are
natives; 9993 of the whole body of voters
are estimated as against annexation, and
3500 in its favor. Of the American born
300 favor annexation, and 137 oppose it.
Of the British born 300 do not want an-
nexation, and 205 believe in it. The
German voters divide equally on this
question. The Portuguese have 1597
annexationists, and 500 in the opposition.
The Polynesians, numbering 42, have no
annexationists in their ranks.

This disproves the assertions of inter-
ested parties that a majority of the peo-
ple of Hawaii want to be annexed to this
country. Mr. Nordhoff is unprejudiced.
He went to Hawaii solely to ascertain
the real feeling, and his conclusions
must carry weight. If the majority of
the people of Hawaii, equal to three to
one, do not want annexation, should this
country coerce them into annexation?
This is the question to be decided.

STILL UNCONFIRMED

Alderman Cox Was Not at the Council Meeting and No Report on Appointments Was Made.

Mayor d'Auremont Vetted the Garbage Ordinance, Believing it to be Too Severe in Some Ways.

Water Works' Bonds Ordinance to go Over for Another Week—Appropriation for Fargo Made.

Alderman Cox did not occupy his seat in the council chamber last evening. The belligerent Alderman from the Fifth ward was conspicuous by his absence. Some accused him of having a little scheme in staying away, while others say that there must have been some good legitimate reason. It will be remembered that one week ago Mr. Cox stood up and made a half apology for the failure on the part of the committee on public offices and officers to report on the nominations to municipal positions, saying that the committee expected to meet Mayor d'Auremont, possibly the municipal commissioners and then wind up the tangled confusion. As stated, no report was made, as that must be done by the chairman and that is Cox. One reason given for the Alderman's playing "hooky" is that the conference with the mayor has not been held, and until that comes off, no report from Mr. Cox's committee need be looked for.

Garbage Ordinance Vetted.
The communications and petitions were headed by a letter from the mayor in which he explained his reasons for returning the garbage ordinance without his approval. He assured the members of the council that he heartily favored some measure in the same general line as the garbage ordinance, but expressed a decided opinion that the measure passed a week ago is too rigid and likely by some of its provisions, to work hardship and inconvenience.

The proposition of the Hartman Electric Light company to reduce the cost of city lights about 15 per cent on condition that the present contract be extended five years, on recommendation of the light and water committee, was referred to the committee on ordinances and judiciary.

The ordinance on the prevention of fires was amended so that hereafter dead brush and fallen trees in timber within the city limits, upon notice from the fire wardens, must be removed within a certain time, under a penalty of \$25. Aldermen Thomas, Getty and Quinby voted against the amendment, but all the others said aye, which did the business.

The Waterworks Bonds.
The ordinance providing for the issue of bonds in the sum of \$500,000 to meet the expense of constructing a city water plant was read the second time and then ordered placed on its final passage. There was doubt in the mind of Alderman Wilson as to the advisability of issuing it would be preferable to issue in sums of about \$200,000 at certain periods of time. Mr. Wilson in fact offered an amendment in that line, but upon the suggestion of the city attorney the ordinance was laid over for one week.

The mayor nominated five new policemen. The matter was referred to the committee on public offices and officers.

A resolution was also passed, in accordance with the demands of Railroad Commissioner Maglofin, to the effect that hereafter, the acting commissioner shall be required to make stated reports to the council of the work accomplished during the year.

Appropriation for Fargo.
All the members were present except Alderman Cox. The business moved off with enough more celerity than a week ago, so that about 9:30 o'clock Alderman Hugo was enabled to present a resolution appropriating \$200 from the public treasury to head the subscription list for aid to the Fargo fire sufferers. There was at first an inclination to refer the matter to a committee, but Mr. Hugo said that in a case like this he would rather err on the side of humanity than to be right on the side of legality. The measure then

passed without a negative. Alderman Thomas, who had been in an exceedingly happy frame of mind all the evening, arose and said: "In place of Mr. Dingwall I move we now adjourn." Before Alderman Dingwall could object to that usurpation of his regular custom the aldermen were half way down the stairs.

RAILWAY YARDMASTERS.
Opening of the National Convention at Odd Fellows Hall Tomorrow.

Tomorrow morning the twenty-third annual convention of the Railway Yardmasters' association of the United States and Canada, will be called to order in the Odd Fellows' hall on Lake avenue. To-day the guests began to arrive and this evening's trains will bring them in large numbers. From one to two hundred delegates may be expected and a great many of them will bring their wives and children with them. The Spaulding will be the headquarters, and has made ample arrangements for the entertainment and accommodation of the guests. The convention opens with a business session tomorrow morning at 10 o'clock, and continuing until 3 o'clock, with an intermission for dinner. The same will be the order on Thursday. On Wednesday, after the business session, the delegates and their ladies will be taken for a ride about the boulevard and on Thursday for an excursion about the bay and on the lake. On Friday morning a short business session will be held and the delegates will then take a special train and visit the various industries in Duluth, West Duluth, Ironton, New Duluth and in the Superiors. In the evening a grand banquet will be given at the Broadway hotel in West Superior.

On Saturday will be held the closing business session. In the afternoon the social bazaar will be held, and the launching of barge No. 134 witnessed. Following this the guests will return to their homes. Many are expected to remain over Sunday, however.

ANOTHER STORY.

The Superior Leader Tells Something About the Schwartz Abduction.

The police have located the woman who abducted little Mamie Schwartz from St. Paul a year ago, says the Superior Leader. The little girl was found here about a week ago by Capt. Gallagher. The woman who did the kidnapping went by the name of Alice King, coming west. She met Schwartz in Minneapolis. The meeting, it is alleged, was a case of love at first sight. They both agreed to elope, but Schwartz did not want to leave his little daughter, so it was arranged to kidnap her and Schwartz was to follow.

The King woman kidnapped the child all right but Schwartz found on second thought that he did not love the woman enough to follow her and so she came to Duluth with the child and lived for some time with Jennie King. The King woman and it was here that they received their name callers. The King woman after staying a few months at Duluth went to Chicago where she now is, and her Duluth friend came to Superior and established a haven. When Alice King left, the little girl was turned over to the Levine family and later adopted by Joe Allard.

The woman who did the abducting was in Jennie King's haven on Banks avenue some six months ago and went by the name of Bessie.

AMUSEMENTS.

Marie Wainwright.

To say that the audience at the Lyceum last evening was pleased with the production of "Twelfth Night" given by Marie Wainwright and her admirable company would be altogether too commonplace—it was more than pleased, charmed might be the word, and yet the applause was not very liberal but the clapping of hands is not always the only manner in which an audience indicates its delight. The character of Viola is generally accepted as Marie Wainwright's greatest role and certain it is that she gives to it a delineation unequalled by that of any other actress of this city. There is a tinge of sadness pervading Viola's character which was charmingly brought out by Miss Wainwright. The boy's dress she wears with an unusual and pretty grace. In the comedy scenes, notably the duel episode, the display of feminine weakness was most pleasingly and delicately given.

The support is all that a star of Miss Wainwright's excellence should have. Barton Hill is a splendid actor and a very difficult character of the lovesick Malvolio in him, as the duke, was all that could be desired. The comedy characters, Sir Toby Belch and Sir Andrew Aguecheek, were excellently presented by E. V. Backus and Percy Brooke, respectively, the drunken scene being especially ludicrous and yet not a particle overdone. Miss Eleanor Carey is an actress of excellent ability and the character of Olivia she makes all that it should be. Miss Kate Blanche is a bright, clever and vivacious. The entire cast is of an unusually high order. The staging deserves more than ordinary mention. It is gorgeous and greatly enhances the admirable work of the company.

Tonight Sheridan's famous and brilliant comedy, "School for Scandal," will be presented, Miss Wainwright appearing as Lady Teazle and Barton Hill as Sir Peter Teazle. Tomorrow afternoon "As You Like It" will be presented.

Jolly Pathfinders.

Rentrow's Jolly Pathfinders opened a week's engagement at the Temple last night to a good house. The company is well known in Duluth and has many friends here. J. N. Rentrow, Jr., and some very clever work and is well supported. The performances are laughable, enjoyable and meritorious. Last night the bill was "The Devil's Gold Mine" will be given. By mistake the admission prices were advertised as 10, 20, 30 and 50 cents. Rentrow carries a stock of which attracts considerable attention and the orchestra music in the evening is very good.

Morris' Illusions.

One of the principal attractions at the Morris' Illusions is "The Psycho," from Maskelyne and Cook's Egyptian hall, London. It is a little turbaned figure of a Turk, and picks out numbers in an account, and is a complete puzzle to the many who visit the miracles of today, as the illusions are called.

WANTED NO SWEARING.

Ambrose Noski Slapped Sophia Noski Because She Swears.
In police court this morning, six drunks were sent up for ten days and with them went a couple of vags. A couple more vags pleaded not guilty. William Kelly, charged by Herman Kapa with being drunk, pleaded not guilty and his trial was set for this afternoon.

Ambrose Noski was up for slapping Sophia Noski. He said that he did slap her a couple of times, but not hard, because she commenced to swear at him when he started to work. He did not want any more of her swearing, so he slapped her. He said that he did slap her a couple of times, but not hard, because she commenced to swear at him when he started to work. A YOUNG FIRE BUG.
A singular case has developed at Superior. Two mysterious fires occurred at the Richelle hotel Sunday evening. The first was in the third story Sunday afternoon and was extinguished with little damage as the Sixth street fire house is but two doors away. The second was in the basement about 8:30 last night and was also put out very quickly.

W. G. Root, the head clerk who had charge of the hotel during Landell Kennett's absence at St. Paul, began to suspect that the fires were not purely accidental. He suspected Fred J. Clarence, a bell boy but was not able to prove anything. About the same time Detective Purchase got on the scent and soon tracked the crime to Clarence. The boy was employed at the Tower hotel at the time that it burned and it is thought this may mean something.

Very few of America's historic stars can turn their versatile talents so easily into equally remunerative business when the days of summer close up the theatre.

The fact that "Silver" King was given 10 days' notice of his release by the New York Times on the same day that the club singer Baldwin recalls the fact that it was on account of King that Baldwin was arrested and jailed in St. Louis. The St. Louis club claimed that King was under contract with them in 1930. Baldwin went to St. Louis and became in a manner King's guest. The two were great deal together. It was known that Baldwin had already signed a contract with the club in 1930. Baldwin also wanted to take King away from St. Louis. Later on King did desert Von de Ahe and went to Pittsburgh. Then Von de Ahe had Baldwin arrested under the conspiracy act and sent to jail. On the pro-

DOUBLE TRAGEDY

A Handsome Young German Woman, Living Near Spokane, Poisoned Herself and Her Little Daughter.

Gave Strychnine to Her Boy Who Did Not Like the Taste and Spat it Out.

A Reviewing Stand at Cincinnati Gave Way and Twelve Hundred People Were Thrown Down.

Nearly Every One Severely Bruised and Possibly Ten or Twelve Fatalities Will be Recorded.

SEATTLE, Wash., June 14.—A special from Spokane says: A murder and suicide, for which no motive can be discovered, is exciting the farmers of Paradise prairie, fourteen miles south of Spokane. Mrs. James Kirkendall, a handsome young German woman, and her little daughter are the victims. Mr. Kirkendall left home Monday afternoon, returning about 5 o'clock. He found his boy alone in the house crying. The young farmer went in search of his wife and child and found them dead half a mile in the woods from the house. Returning home he found on the kitchen table a bottle of strychnine. The boy said that his mother gave some of the stuff to him and to his sister and then drank some herself. He did not like the taste of the stuff and spit it out. His mother and sister then left the house, saying they were going to pick flowers. No note of explanation was left by Mrs. Kirkendall and no reason can be assigned for the act.

REVIEWING STAND FELL.

Hundreds of People People Were Injured and Many May Die.

CINCINNATI, O., June 14.—Last night, while the Mystic Shiners parade was passing the reviewing stand at Twelfth and Race streets, the platform, supporting 1,200 people eight feet in the air, fell, sending the solid mass of people to the ground. Nearly every person on the platform was more or less severely bruised, while at least three fatalities will be recorded with a possible ten or twelve. An unknown man lies at the city hospital unconscious with a fractured skull. He is believed to be L. C. Bendin, a brick contractor, received internal injuries which will probably prove fatal. Charles Lathrop, a student, received multiple injuries, which will result in his death. On the stand were Mayor Mosby and staff and other prominent personages, who escaped with slight bruises.

MAY HAVE BEEN KILLED

The Soldiers, Sent to Rescue Dr. Walker From the Chippewas, Left Brained This Morning.

MINNEAPOLIS, June 14.—A special to the Journal from Brainerd says that the company of United States soldiers, sent from Fort Snelling to rescue Overseer Walker now held a prisoner by the Leech Lake Chippewas, left that point at day-break in wagons. They will have to drive sixty-seven miles and cannot reach the scene of the difficulty until tomorrow evening. No great trouble is anticipated, however, although it is feared in some quarters that Walker has already been killed by the whisky-maddened reds. Mrs. Walker, who is visiting in Minneapolis, was seen this morning. She is very apprehensive for her husband's safety, as she thinks the mere fact that he telegraphed for help significant. She says he is a very courageous man, and while he has had trouble with his charges before when they were drunk he has never been molested. The Chippewas involved, she thinks, are known as "the blanket Indians." They are not at all civilized and, while ardent cowards when sober, will go to any lengths when full of whisky.

Dr. Buchanan's Case.

NEW YORK, June 14.—The motion in arrest of judgment and for a new trial in the case of Dr. Robert Buchanan, convicted of having poisoned his wife to death, was up before Recorder Smythe yesterday. Lawyer Brooke, on behalf of Buchanan, presented several affidavits signed by Dr. Allen, Lane Hamilton, Charles L. Dana and others declaring that Mr. Buchanan, one of the jurymen that tried Buchanan, and who was taken ill the night the verdict was rendered, suffered from paralytic epilepsy. Juror Paradise, in affidavit, denies this. The recorder will undoubtedly take several days for consideration.

The Runs Have Ceased.

OMAHA, Neb., June 14.—The savings bank runs have entirely ceased this morning. With one exception the banks showed no more customers today than upon any other day of business. This was the Omaha Savings bank, which has nearly 10,000 depositors. The line of depositors, however, from 130 depositors at the opening hour to less than ten a noon.

Fifty-Eight Removed.

WASHINGTON, June 14.—The total number of fourth class postmasters appointed today was 94, of which 46 were to fill vacancies caused by resignations and deaths.

Fatal Explosion.

PERU, Ind., June 14.—One of the two boilers used at the basket factory in this city exploded last evening, killing Lewis Pratt and his 12-year-old son.

NEWS FROM THE ORIENT.

Steamship Line Established Between Japan and Australia.

VANCOUVER, B. C., June 14.—The Canadian Pacific steamer Empress of Japan arrived last evening with 125 cabin passengers, 287 Chinamen and 114 Japanese. Among the passengers are Lady Kintore, wife of the governor of South Australia, and Miss Taylor, who has spent three years in the wilds of Tibet. The following advices were received from China and Japan:

Since the Japanese parliament last February subsidized national steamship lines the Nippon Yusen Kaisha company has arranged to establish fast lines to Europe and Australia. In three months the company will have a regular monthly service of three chartered steamers to Australia, and if the venture is successful will replace them by modern vessels. The company intends securing six steamers for the line to Europe via the Suez canal.

Salvage material has been sent from Nagasaki to assist in floating the Russian cruiser Villard struck on a rock off the coast of Korea. It is thought she will be floated.

The United States marshal at Nagasaki, who was arrested on a charge of assisting to export Japanese women for immoral purposes, has been honorably acquitted.

The Japanese government has just carried out the important financial question of redeeming twelve million yen worth of 6 per cent public loan bonds. It is semi-annually announced that the remaining portion of the 6 per cent, namely, 6,000,000 yen, will be redeemed in October next.

The Hoshi Shimbun says that some enterprising sake brewers intend exporting a large quantity of the national beverage to Chicago in order to extend the trade outside the limit of the empire. It will distribute free at the World's fair grounds.

Another volcanic eruption has occurred in Aukishima. Eighty years ago the Bandaisan volcano buried miles of fertile country under a deluge of volcanic debris, destroying innumerable lives and now an eruption has taken place in a sister peak called Higashi Asam. No lives were lost by the last eruption. Both peaks were included among the extinct volcanoes of Japan.

KILLED FOUR CHILDREN.

A Mother Poisons Two of Her Children, Drowns Two Others and Then Commits Suicide.

PARKERSBURG, W. Va., June 14.—Mrs. Philip Kerch, the wife of a well-to-do farmer, near Pleasant Hill, this county, murdered four of her children yesterday and then committed suicide. She and Mrs. Kerch had lived on the farm for sixteen years and moved there from Ohio. They had eight children, the oldest of whom, Mollie, was 17 years old.

For some time Mrs. Kerch had been melancholy and frequently said that she was afraid she would die and leave her children. She seemed to be in good health, however, except that she sometimes complained of a trouble in her side. After dinner Mrs. Kerch went to Mollie and said: "I have given Johnny and Freddy poison and we will all jump into the well."

Mollie remembered that a bottle of strychnine was in the house and she ran to the place where it had been kept. It was gone and when she returned to where her mother was she saw her throw the ten-month-old baby into the well. Before she could be prevented, the crazed mother threw a 3-year-old child after the infant and was in the act of setting a boy 8 or 9 years old but Mollie rescued the child.

A desperate struggle then began between mother and daughter, but the infuriated woman broke loose and jumped into the well which had eight feet of water in it. Freddy, who had been given the poison, was found lying dead on the floor of the house and Johnny died a few minutes later. Mr. Kerch was absent from home at the time of the tragedy.

FIRST ACT OF RETALIATION.

China Prohibits the Use of American Kerosene.

VICTORIA, B. C., June 14.—The Empress of Japan, from Yokohama, brings the news that the Chinese government's first act of retaliation against the United States for the Geary act is the prohibition of the use and sale of American kerosene or coal oil. Their native government organ declares that if the exclusion act is carried out, other and much more severe retaliation will follow.

The advices announce another terrible earthquake and volcanic eruption in the interior of Japan. Many lives were lost and much damage was done. The exact particulars are not yet known.

The Mandamus Refused.

WASHINGTON, June 14.—The supreme court of the District of Columbia this morning dismissed Col. Ainsworth's petition for a mandamus on two grounds. First, holding that a deputy coroner is not a legal officer. This invalidates the request as far as held. Second, that the right of a person to be present at an inquest in person or by counsel is discretionary with a coroner and therefore not a subject for mandamus.

A Temporary Suspension.

PAINESVILLE, O., June 14.—This morning the Lake county bank of Aaron Wilcox & Co., posted a notice on its doors as follows: "This bank has suspended temporarily, being unable to meet the run on it at present, owing to the stringency in the money market. All depositors will be paid in full. The personal estate of the stockholders is liable for the indebtedness in all amounting to several hundred thousand dollars. The bank is believed to be perfectly solvent."

Gen. Campbell Dead.

JACKSON, Tenn., June 14.—Gen. A. W. Campbell died at his home here last night of cancer of the throat, aged 65 years. He was a brigadier general in the Confederate army, was a member of the constitutional convention of 1870 and a prominent candidate for governor on several occasions.

GOODBYE TO CARTER

The Spanish Princess Has Finished Her Visit to the Fair and Left Chicago Today.

Thanked Mayor Harrison for the Kindness Extended and He Kissed Her Hand in Return.

There Was a Large Crowd of People on Hand to Witness the Infanta's Departure.

CHICAGO, June 14.—"Good-bye, Mr. Harrison; I will always remember your kindness and the kindness of the people of Chicago." With these words the gracious and ever-smiling Infanta Eulalia of Spain bade adieu to the mayor of Chicago, who acknowledged the compliment by gallantly kissing the gloved hand of the princess for the last time. The departure of the royal guests this morning was similar to their entry, with the exception that there was no such crowd of people at the railroad station and on the streets as welcomed the infanta to Chicago.

For some reason, the multitudes which have seen the Spanish visitors during their sojourn here have never been aroused to the point of demonstrative cheering or hand clapping which characterized the visit of the duke of Veragua, and the only cheer which the prince and princess heard today came from the lips of her fellow countrymen and some of her Chicago entertainers just as the special train pulled out of the depot for Niagara Falls.

It was announced that the infanta would leave at 8 o'clock, but she did not. At that hour the Monroe street block, in which the ladies' entrance to the Palmer house is located, was filled with people. In one line opposite the hotel entrance were drawn up the military escort, consisting of two troops of the Seventh cavalry from Fort Sheridan. The mounted police were at the head of the escort line, all facing the open carriages waiting for the coming of the royal party.

A small number of Chicago men and women who had contributed to the infanta's entertainment took their leave of her and the prince in the private reception room. Mrs. Hobart C. Chatfield-Taylor, wife of the Spanish consul, presented her highness with an immense bouquet of American beauty roses. At 8:30 o'clock the princess took the arm of Mayor Harrison, passed under the American and Spanish flags, waving Palmer's open landau drawn by four horses. In the same carriage were the prince, his mother and sister, and some of her Chicago entertainers just as the special train pulled out of the depot for Niagara Falls.

There was a faint cheer and a little hand-clapping from the crowd, the order for the police and cavalry to march company front was given and the procession moved to Michigan avenue. In the second carriage were Commander Davis, the marchioness of Arco-Hermosa, Don Jover y Tovar and Mrs. Curry, wife of the ex-minister to Spain. The occupants of the third and last carriage were Miss Davis, Mrs. Reginald de Koven, Hobart C. Chatfield-Taylor and a major in the Spanish artillery. A few hundred people followed the procession, and the windows of the hotels and houses on Michigan avenue to Twelfth street were filled with people but nobody cheered.

The princess wore a straw hat and white veil, a light drab traveling cloak over a green silk dress trimmed with cream colored lace. Her face was partly hidden by a plain black silk sunshade and she seemed to be in a pleasant mood. When Congress street had been passed the order was given to hurry and get to the depot ahead of the crowd, so the order to move at a trot was given and the incomplete depot of the Illinois Central was reached in quick order.

A few people kept up with the procession but it was hardly sprinting weather. The result was that only a few people were on the platform to see the princess off and most of these were friends and acquaintances who came to say good-bye. Outside the depot the Spanish band was stationed and the infanta was pleased to hear a melody from the land of the Moors.

Mayor Harrison escorted her highness up the stairway across the great waiting room and down another flight of steps to the narrow platform where the magnificent special train was made up. It consisted of vestibule, library and smoker "Cavalier," dining car, sleeper and Pullman's private sleeper for the use of the prince and princess. Only the Spanish party which came from the East were on the train. The princess stood on the rear platform of her car, smiling all below her and kept her hand extended for several minutes while the Spanish commissioners and the Americans she had met in Chicago advanced one at a time to kiss her hand or shake it or both.

Mrs. Curry having been initiated in the third degree of intimacy with royalty, was the only person to kiss the infanta on the cheek. She also spoke a good-bye and then the performance was over. All aboard, cried the conductor three times. A cheer went up from the Spanish men and women, hats and handkerchiefs were waved, the crowd cried "Adios Infanta de Espanola," and Eulalia, carrying a bouquet of orchids and ferns bought for her by the owner of the yacht which she sailed to the fair grounds in, smiling again, until the train was lost to sight.

Father Payette Dead.

LITTLE FALLS, Minn., June 14.—Rev. Father Payette, who was priest at the convent in this city, died Sunday at the age of 66 years. He was largely instrumental in building the convent. He had during his life been in charge of a parish in St. Paul, Duluth and other points in the state. The funeral occurred at the convent this forenoon, at which Vicar General Bub, of Duluth, and Bishop Zardetti, of St. Cloud were present.

To-day the City of Bath, Maine, celebrates the Centennial of its foundation as a town. The ceremonies are of an elaborate character and include addresses, a parade of fire companies, militia and civic societies of the County and a reception in the evening by the oldest residents. Much spirit is displayed regarding the matter. It is indeed a great day in Bath.

OH, YOU ARE ALWAYS AWAKE! Who is Keeping You Awake?

But We Need Not Ask That, You Know Too Well.

Note how they get these words in "While They Last." That's the point, they don't last. When customers ask for the goods advertised, they don't get them, Why? They don't last, all sold out. The fact of the matter is, they sell one and put the others out of sight for the time-being till the storm rolls by. But the storm will be kept up which will keep them awake. We always sell goods less than competitors, and have sold today all goods advertised by others less than they advertised them for. This they acknowledge and say they could not undersell us.

THE SILVER COINAGE

Secretary Carlisle Gives Information Touching the Amount of Silver Coined up to the Present.

How the Sherman Act Results in Payment of Gold in Purchase of Silver Bullion.

Fifty Times More Silver Coined Under the Sherman Law Than in Eighty Years Previous.

WASHINGTON, June 14.—A representative of the United Press in a communication yesterday with Secretary Carlisle, suggested to him that there was a lack of precise information touching the amount of silver coined up to the present time, and also as to the manner in which the present operation of the treasury under the so-called Sherman act results in the payment of gold in the purchase of silver bullion. In reply to these suggestions, Secretary Carlisle said:

"The operations of the United States mint commenced in 1792, and from that time to 1873, a period of eighty-one years, the total amount of silver dollars coined was \$1,015,838. In 1873 the coinage was stopped by act of congress, but in 1878 it was resumed under the so-called Bland-Allison act, by the terms of which the secretary was directed to purchase and coin into standard silver dollars of 412½ grains each, not less than \$2,000,000 worth of silver bullion each month, and between the date of that act and the 14th day of July, 1890, a period of twelve years, there was coined an aggregate of \$39,886,774, in full legal tender silver money issued by the government since 1878. Of this amount only \$3,010,910 were in actual circulation on the first day of the present year, the remainder being held in the treasury as part of the assets of the government, or being reported by outstanding certificates.

"The act of July 14, 1890, required the secretary of the treasury to purchase 4,500,000 fine ounces of silver bullion each month, and a majority of the same should continue the coinage of silver dollars at the rate of \$2,000,000 per month until the first day of July, 1891. And under this act there have been coined 229,408,761, which makes a total coinage of silver dollars \$10,202,453, or more than fifty times as much as was coined during a previous period of eighty-one years.

"In addition to the silver bullion purchased by the government since 1878 and coined as above stated, the secretary of the treasury has purchased under the act of July 14, 1890, and now holds in the vaults of the treasury, uncoined, 124,292,532 fine ounces of silver bullion which cost the people of the United States \$14,299,920 and is worth today, at the market price of silver, \$103,411,386, thus showing a loss of \$89,118,966.

"By the terms of the act the secretary was required to pay for all silver bullion purchased by the issue of new United States treasury notes payable in coin, and it proved that on demand of portion of any such notes they should be redeemed in gold or silver coin, at the discretion of the secretary, and in the language of the act 'the established policy of United States to mention the two metals on a parity with each other upon the legal rate or such rate as may be provided by law.' In the legislation of this declared policy of congress it is the duty of the secretary of the treasury, when the necessity arises, to exercise all the power conferred upon him in order to keep the government in condition to redeem its obligations in such coin as may be demanded and to prevent the depreciation of each as compared with the other.

"The records of the treasury department show that during the eleven months beginning May 1, 1892, the coin treasury notes issued for the purchase of silver bullion under the act of July 14, 1890, amounted to \$10,671,184, and that during the same period the amount of such notes paid in gold was \$1,745,173. It thus appears that all the silver bullion purchased during that time, except \$2-

260,011, was paid for in gold, while the bullion itself was stored in the vaults of the treasury and can never be sold or used for the payment of silver nor the payment of any kind of obligation. How long the government shall thus be compelled to purchase silver and increase the public debt is a question which congress alone can answer.

"It is thought, if this policy is continued and the secretary of treasury shall be compelled to issue, otherwise increase the interest on the public debt, it will be done for the purpose of procuring gold for which to pay for silver bullion purchased under the act referred to."

A BLOW AT A TRUST.

The American Preservers' Trust Declared to be Illegal.

CHICAGO, June 14.—Judge McConnell has returned a decision against the American Preservers' trust which may have an important bearing. The decision was made by the court in a case brought by the Preservers' association against Andrew D. Bishop, of Evanston. When the trust was organized in 1888 Bishop, who was engaged in the canning business in this city, transferred his effects to the new corporation and took stock in the concern in payment. Later he dropped out and the association relinquished his property amounting to about \$20,000, claiming that it belonged to the trust, and that Bishop was merely acting as its agent.

Suit was brought and the case came up for hearing before Judge McConnell. The attorney for the defendant argued that the trust was an illegal corporation and contended that when the Preservers' association bought up the property of different corporations throughout the country it then organized itself into a corporation with the power of exercising the privileges in law similar to those obtained by other concerns. The attorney argued that the new corporation was simply the agent of the trust and as the trust was illegal the corporation must be illegal. Judge McConnell took the same view of the case and said:

"No court of record should lend its legal operations to further the interests and carry out the purpose of a trust. To my mind the corporation known as the American Trust Preservers' association is but the agent of the trust, and as such the same illegality attaches to it as to the principal concern."

The plaintiff was granted three days in which to reply to the plea of the defendant. The case will probably be appealed and taken to a higher court for adjudication. The Preservers' trust controls a majority of the canning interests in Washington, Boston, New York, Chicago, Detroit and St. Louis. Its capital stock is but \$500 at the present time, according to the statement made by its chief counsel. It, however, has the privilege of increasing the capital stock at any time to \$15,000,000.

COL. RAY HAS BEEN CLEARED.

The Grand Jury at Port Arthur Failed to Indict Him.

WINNIPEG, June 14.—The legal side of an affair which caused an immense sensation in Western Ontario several months ago was settled at Port Arthur yesterday when the grand jury threw out the bill against Banker Ray, who was charged with rape by the wife of a doctor of that place.

Ray is one of the biggest guns in the Lake Superior district, and the scandal attracted widespread attention. The woman's story was that she had entered her house during the absence of her husband, and under the pretense of discussing church matters, after getting inside of the door, assaulted her. She is a woman of fine education and culture. Ray claimed it was a case of blackmail.

HE STOLE DIAMONDS.

The Son of a Dutch Count Under Arrest in Chicago.

CHICAGO, June 14.—Albert Von Gelder, the young son of Count Willen Von Gelder, a nobleman of high rank in Amsterdam, Holland, was arrested last night charged with stealing \$100,000 worth of diamonds. The young man learned the trade of diamond cutting and was the expert in charge of Herr Rosenberg, who has a large exhibit of gems in the manufactures building, Austrian section. He confessed when arrested that he had stolen \$100,000 worth of gems and had sold them outright at a pawn shop on Madison street where they were recovered.

The Varsity Race.

NEW HAVEN, Conn., June 14.—The managers of the Yale and Harvard naves have settled upon C. L. Reeves, of New York, as referee for the annual race at New London which takes place June 30. Mr. Reeves is a graduate of Columbia and Cambridge, England, and an authority on rowing. He acted as referee in the Yale-Harvard race last year.

Found in the River.

AUGUSTA, Me., June 14.—The body of J. W. Mitchell, the missing secretary of the Prohibitory Enforcement league, was found in the river yesterday morning. The reward of \$1000 offered by the relatives goes to the stone cutter who sighted the body while loading granite on a vessel at the wharf. The coroner decreed that death resulted from accidental drowning.

Given a Respite.

ST. LOUIS, June 14.—The supreme court yesterday denied the writ in the case of Harry Duncan, who has been sentenced to the Missouri State Penitentiary for the murder of a woman. He was to be hanged next Thursday, but Governor Stone has respite him until July 7.

TO BUILD THE CANAL

Commander Taylor, of the United States Navy, Urges the Construction of the Nicaragua Canal.

He is Confident That It Can be Fully Completed for Fifty Millions of Dollars.

Can Have a Canal That Will Admit of Ships Passing Through by the Year 1900.

NEW YORK, June 14.—Commander H. C. Taylor, of the United States navy, who has just returned from Spain where he went on a diplomatic errand for the government, has submitted to the directory of the Nicaragua Canal company a plan looking to the early inauguration and completion of the enterprise. The commander was formerly vice president and general manager of the canal but has not been actively connected with the enterprise since 1890.

"The plan," he said, "is nothing more nor less than the building of the great waterway by the people of the United States themselves in their individual capacities as investors and capitalists and not through the action of their legislatures and money centers. The two great works—preliminary work, I have advised the company to issue a 'propaganda' which will include the whole of the United States within the area of its work."

If the 'propaganda,' I mean the systematic presentation to persons of all sexes and conditions of the benefits of the canal, the certainty of its being built, of the assured return to the investor.

"The carefully revised estimates of the engineers place the cost of the canal at \$50,000,000, but there are such large contingencies that this sum should not be exceeded. The \$50,000,000 to be raised by the 'propaganda' is to put the project on its feet. This \$20,000,000 will be raised by the sale of bonds, the interest of which will be guaranteed by the canal company and will not be less than 6 per cent or perhaps 7 per cent.

"The money to be raised by the 'propaganda' is to be applied to the construction of the canal at once. It is to be built and built quickly. If we cannot build a thirty foot canal we will build a ten foot canal. We will have a canal that will admit of ships passing through it from the Atlantic to the Pacific by the year 1900. The great idea of the 'propaganda' is to build the canal and it will be built."

Catarh, Heart Failure, Paralysis of the Throat

"I Thank God and Hood's Sarsaparilla for Perfect Health."

"Gentlemen: For the benefit of suffering humanity I wish to state a few facts. For several years I have suffered from catarh and heart failure, getting so bad I could not work and could scarcely walk. I had a very bad spell of paralysis of the throat some time ago. My throat became closed and I could not swallow. The doctors said it was caused by heart failure, and gave me medicine, which I took according to directions, but it did not seem to do me any good. My wife urged me to try Hood's Sarsaparilla, telling me of Mr. Joseph C. Smith, who had been

THE GERMAN DAY

The World's Fair Grounds Today Seemed to be Temporarily Turned Into a Berlin Exposition.

It is German Day at the Fair, and Two Hundred Thousand People are Now Expected.

Festivities Held in Front of the German Building, Where Oratory and Music Held Sway.

The Parade Through the Down-Town Portions of the City Was a Magnificent Success.

WORLD'S FAIR GROUNDS, June 15.—From a cloudless sky the sun shone upon a great multitude of people in the White City this morning. This is German day at the fair, the date being fixed upon not only because it is the anniversary of Emperor William's coronation, but because the Germans decided that this was as good a day as any upon which to do honor to Columbus.

The electors of the emperor are today casting their ballots at the polls for or against the Caprivi government and the army bill, the expatriated and visiting sons and daughters of fatherland in this city and other states of the Union celebrated from dawn until midnight.

The festivities at Jackson park were held in the afternoon in front of the German building on the edge of the lake. The marching orders numbered in membership many thousands. They will assemble on the grounds around the German structure. An elaborate program of oratory and music will be carried out. The chief speakers will be Baron Von Hollenbeck, German ambassador, Carl Schurz, Commissioner, Wermuth and Mayor Harrison. Von Bulow's orchestra will furnish the instrumental music and the singing will be furnished by the German-American World's fair chorus. German countenances and the German tongue are to be seen and heard in every corner of the building. The parade this morning, it seems to be a Berlin exposition for the time being. From the size of the crowds pouring into the grounds by steamboat, elevated and surface railroads, even before the thousands taking part in the parade have arrived, it is fair to predict that there will be fully 200,000 people in the grounds today and tonight.

The parade through the down town portion of this city this morning by the local and visiting Germans was a magnificent success. It was over 20,000 strong under the leadership of Chief Marshal Frankfurter and was divided into eight divisions, each of which was accompanied by magnificent floats depicting some event or character prominent in the history of the fatherland. America, the land of adoption, was not overlooked. In the second division were four floats portraying Columbia, the revolutionary war, the war of the rebellion and Germantown, the first German settlement in Pennsylvania.

Shortly after 9 o'clock the order to march was given and preceded by a platoon of police under command of Lieut. Reubm, the procession marched through the business section of the city and proceeded to the lake. Many of the divisions disbanded and the various orders and societies made their way to the fair grounds where the afternoon exercises were held. Many of the buildings along the line of march were appropriately decorated with flags and bunting.

The orator of the day, Carl Schurz, accompanied by the German ambassador and imperial commissioner, arrived in carriages shortly after 2:30 and took their places upon the stand, the Teutons giving them a rousing cheer of welcome. After some further delay, necessitated by the proper seating of the invited guests, the orchestra began the program by performing Weber's "Jubel" overture, which was followed in a few minutes by a magnificent rendition of "Deutsch Uber Alles" by the German World's fair chorus, under the direction of Professor Kutzerberger. This aroused great enthusiasm.

Harry Rubens, of Chicago, then spoke a felicitous greeting to the representatives of Germany, after which the orchestra and chorus gave "Die Wacht Am Rhein" with a force and spirit that has probably never been equaled in America. Herr Von Hollenbeck, the German ambassador at Washington, then conveyed Germany's greeting to the Americans, to the World's fair, to the German Americans and to the visiting Germans. His speech was applauded vociferously.

The orator of the day, Mr. Schurz, was greeted with great cheering as he arose to speak. He spoke at some length and was awarded another salvo of applause at the conclusion of his effort. After a song by the German Männerchor, Mayor Harrison greeted the Germans on behalf of the city. The mayor, who adapts himself to all occasions, followed the precedents established by the other speakers and addressed the audience in German. This concluded the ceremonies at the building. The crowds then assembled as well as they could in marching to festival hall where other festivities were held.

One Hundred Bounced. WASHINGTON, June 15.—The total number of fourth class postmasters appointed today was 126, of which 26 were to fill vacancies caused by resignations and death.

Not so Serious. NEW ORLEANS, June 15.—The crevasse just below the capital will not be as serious as at first feared, owing to the highly favorable natural conditions which will facilitate the efforts of the workmen in their work.

A FRIGHTFUL CRASH.

Five Men Injured in a Wreck on the Nickel Plate Road.

BUFFALO, N. Y., June 15.—Five men were injured, one fatally, and twenty cars smashed in a wreck on the Nickel Plate road at Hamburg, yesterday morning. A freight train of thirty cars was coming down the grade when it broke in two. The brakemen were not aware of the fact and the engineer did not stop until he reached the foot of the hill. The runaway cars came dashing down the grade at the rate of fifty miles an hour. There was a frightful crash when they struck the forward section and the cars were telescoped and piled up to a height of twenty-five feet. News of the wreck was telegraphed to Buffalo and a wrecking train and surgeon was sent to the scene of the accident.

Trainmen who escaped and others from the neighborhood of the wreck went to work in search of victims. The first to be taken out was James D. Dougherty, of Sparon, Pa., who was working his way to Buffalo. Joseph Buskey, who was stealing a ride, was thrown twenty feet and rendered unconscious. The two other injured men were brakemen and were not seriously hurt.

Dougherty, Quinn and Buskey were brought to the hospital here. Dougherty was found to be terribly bruised about the head, his right leg fractured and badly bruised about the chest. Quinn's right leg is fractured above the knee and he is injured about the head and face and also internally and will probably die. Buskey has a broken shoulder and two ribs fractured.

THE SENTENCES QUASHED

Ferdinand De Lesseps, Charles De Lesseps, Eiffel, Fontaine and Cottu Liberated from the French Prison Today.

PARIS, June 15.—Much excitement has been caused by the decision of the court on the appeal of Charles De Lesseps and the other defendants convicted of fraud in connection with the Panama Canal company. The court handed down its decision today quashing the sentence, on the ground that the statute of limitations covered the offenses charged and that the indictment on which the prisoners were tried was irregular.

In consequence of this decision M. Eiffel was at once liberated from prison. Charles De Lesseps, who is in the St. Louis hospital suffering from an acute attack of dyspepsia, was informed that he was at liberty but he was too ill to leave his apartment. The other five defendants convicted on the trial which ended Feb. 9 last. These were Ferdinand De Lesseps, his son Charles, Marius Fontaine, Henri Cottu and Gustave Eiffel.

IT WAS A FALSE REPORT.

No Marines From the Atlanta Landed in Nicaragua.

NEW YORK, June 15.—The Herald's Managua, Nicaragua, correspondent cables: United States Minister Baker and Senor Castillo, the Nicaraguan minister of war, deny the report that the marines have been landed from the cruiser Atlanta at Greytown, to protect the interests of citizens of the United States. Each said there were no grounds for the story. News has been received that a disturbance in Leon was caused by a drunken mob. It was subdued by the police. The government is returning to the owners the property confiscated by Sacaca.

The Congress Given Up. NEW YORK, June 15.—A special to the Tribune from St. Paul, Minn., says: The congress of the Daughters of the American revolution, which was to have been held here on June 16, has been given up on account of the illness in the family of Mrs. William D. Cabell, of Washington, who was to have presided over the deliberations of the congress. The wife of Vice President Stevenson telegraphed that it would be impossible to be present and that is another reason for giving up the congress.

Will Travel Incognito.

NEW YORK, June 15.—Mayor Gilroy, in reply to the city of entertainment, giving the Infanta Eulalie, will approximate about \$12,000. When the Infanta Eulalie returns to this city from her trip to the west she will no longer be the guest of a nation. Henceforth she will travel incognito and will pass under the title of Duchess De Montpenier. The remainder of her stay in this country is as yet indefinite, but it may be extended over several weeks. There will be no official welcome nor reception when the infanta arrives.

A Diplomat to Resign. ST. LOUIS, June 15.—A special to the Globe-Democrat from the City of Mexico says it is announced that Dr. Ramon Fernandez, Mexican minister to France, will resign his position and will not return to that country as a representative of Mexico. He obtained his appointment through the influence of the late general Manuel Gonzales.

A Quaker Charge.

BERLIN, June 15.—The Saale Zeitung, a Liberal paper published at Halle, says that Herr Kunert, who is standing in Halle for election to the reichstag in the Social list, has been arrested on the charge of inciting to theft. The charge is based upon utterances Herr Kunert is alleged to have made in his electoral address.

Prostrated by Heat.

DUMFRIES, Pa., June 15.—The heat was intense here yesterday, the government thermometer registered 98 degrees. Two cases of prostration occurred, one a brakeman on the Chicago Great Western who fell dead while switching in the yards, the other was a laborer in a factory. The latter will recover.

Change of Name.

DES MOINES, June 15.—The Good Templars, in session yesterday, changed the name of the head of the body to the International Supreme lodge. A heated discussion is going on as to striking out the word "race" from section 8 of the constitution.

HE FOUND A HATCHET.

Discovery by a Boy that May be an Important Clue to the Borden Murderer.

When Searching for a Ball He Found it on a Barn Roof Adjoining Borden's.

Miss Borden Was Overwhelmed With Floral Offerings This Morning and Was in Excellent Spirits.

FALL RIVER, Mass., June 15.—Last night a boy named Potter, son of C. C. Potter, clerk in the Fall River water works office, while looking for a ball, found a hatchet on the top of John Crowe's barn which is located just in the rear of the Borden property. Mr. Potter this morning reported his find to the police and also sought an interview with the counsel for the defense but was unable to find Mr. Jennings.

He still has the hatchet in his possession and describes it as an ordinary implement with hammer head. The handle was weather beaten and the blade covered with rust. Some of the particles of rust being removed, a slight coloring of gilt was disclosed which would indicate that the hatchet was at one time used as an ornament or was quite new when discarded.

The tenth day of the trial opened with a big crowd in attendance. Miss Borden was overwhelmed with floral offerings this morning and appeared in excellent spirits despite the seeming disheartening significance of yesterday's proceedings. The first witness called was Chas. H. Lawton, a New Bedford druggist of twenty years standing. He was acquainted with the drug prussic acid and kept it in stock; the proper name is diluted hydrocyanic acid. He was asked if it was used for any specific purpose, if it was sold under any other formula than on physician's prescription; if he had sold it in any other form; but all these questions were excluded. He was then asked if it was put to any other purpose than for medicine and to this latter question he replied that he knew of none. There was no cross-examination.

H. Tillson, of New Bedford, in the hat, cap and fur business, and Nathaniel Hathaway, analytical chemist, were also called as witnesses, but their evidence was not important.

At 10:20 the prosecution rested its case and a recess of fifteen minutes was taken. Another consultation began between counsel and the court, at the conclusion of which Gov. Robinson asked for ten minutes to decide whether to allow matters for the opening of the defense. It being understood that the prosecution would take up more time than it had today.

THE AX IS SUSPENDED.

Monroe Nichols' Removal Was Expected Today But the President Did Not Take Any Action.

WASHINGTON, June 15.—[Special to The Herald.]—It was intimated at the interior department this morning that Monroe Nichols, of the Duluth land office, was to be removed today and his successor named by President Cleveland. The expected did not happen for no action was taken by the president for the reason he did not visit the White House during the day.

A MICHIGAN SENSATION.

A Woman Poisoned Herself and Her Husband Tried to Follow Suit.

MASON, Mich., June 15.—The city is greatly excited over the suicide of Mrs. Ed. Curry and the subsequent attempt of her husband to follow suit. Mrs. Curry has been taking morphine for two or three weeks to quiet her nerves and yesterday she took a fatal dose with suicidal intent and died soon afterwards. Shortly after six o'clock last night Ed. Curry, the woman's husband, was found in an unconscious condition and apparently dead. He had taken two grains of morphine. Doctors worked over him all night and he may recover.

TO SHIELD THEMSELVES.

A Man and Woman Killed by a Bullet Went to Him Talking.

NEW YORK, June 15.—A special to the World from Knoxville, Tenn., says: Sam A. Walker, a constable of this place and a brother of M. A. Walker, a member of the legislature, was arrested and put in jail here last night charged with murder. Mrs. Louise Cummings, who was arrested Friday charged with murder of her 10-year-old step-son, yesterday confessed that she and Walker had been discovered by the boy in a compromising position and that they had killed the child in order to shield themselves.

A Whaler Wrecked.

SAN FRANCISCO, June 15.—A dispatch from Port Townsend, reports the arrival there of the captain and six of the men of the whaling bark, Sea Ranger, the total loss of which is also reported. The vessel was wrecked May 24 on a hidden ledge to the coast of Alaska. The crew barely escaped from the sinking vessel in time to save their lives. The captain and part of the crew arrived at Port Townsend this morning from Sitka on the steamer City of Topeka.

Can a body tell a body
Anything but truth?
Every store may have its patrons,
One has more than all—
Owned by Pantan and by Watson.
Give the firm a call.

If a body makes a bargain,
Let him do his best;
Find the place where goods are cheapest,
Cash will do the rest!
Here the crowds will rush in springtime,
Summer clothes to buy,
And no other street or number
Ever care to try.

If a paper prints a notice
Of a special sale,
Need a regulation "kicker"
Turn with envy pale?
Those who strive to please the public
Know their greatest need;
And in business reputation
Always take the lead!

Our Prices are Lower than
Elsewhere!

Genuine and Reliable Bargains at All Times!

After three days of ineffectual bluffing and blowing about honorable competition, our **would-be imitator** has withdrawn from the field badly worsted. Our only regret which we now experience is that we should have engaged in controversy with any firm possessing so little principle. On every side we hear remarks concerning the unprincipled methods to which he has devoted himself for the furtherance of his business. Our object will be as it has been in the past, to sell goods as they are advertised. The following letter was received by us this morning:

To-DAY the annual regatta of the New York Yacht Club takes place.

It's a great day, because the winner will be the yacht selected to meet the English vessel which has crossed the Atlantic in the hitherto vain effort to recapture the America's Cup. The cup is lost if our best yacht fails to win the race.

An Open Letter.
DULUTH, Minn., June 14th, 1893.

MESSRS. PANTON & WATSON.
Gentlemen.—Knowing that you have the reputation as the largest Department Store in Duluth, and a firm who always sell what they advertise, I take the liberty to bring a case to your notice which I have experienced today.

Taking the Duluth morning News Tribune, my eyes fell on a very prominent advertisement of a party called Freimuth, which advertised lawn mowers for \$1.23. Knowing that it is impossible to sell them for such money, I went there and made up my mind to buy one, as I have to pay \$3.00 for the same in New York. Entering the store I was referred to the House Furnishing Department, and when I asked the price I was told \$2.50. My surprise was great, and in my astonishment I took out a copy of the morning paper and referred to the column where they were advertised at \$1.23, but I was told in cool, plain language that \$2.50 is the price, and the newspaper advertisement is a misprint. I left the store in disgust and shall never enter it again. I report this little experience to you as I am convinced that you alone are the bargain-givers of Duluth, and all others are imitators, who may possibly try to burst the rock with dynamite, but are not strong enough; they may do some damage, but the rock stands and holds out all the dynamite. The rock is your fair, honest business principles, and this will win in the end.

I herewith declare that a house like Freimuth's, whose business is founded on the principle to deceive the public, is a fraud and cannot last, and my honest opinion is that you should publish this letter in order to show the people of Duluth that you originate and others imitate.

Wishing you success and hoping that your honest and fair dealings will be fully appreciated by all who deal with you, I remain, Very Respectfully,
O. W. EISLER.

Of New York city, representing the largest paper house in the world.

DEFENDED BY HOLMAN

Congress Claimed by the Great Objector
Not to be Responsible for Ford's
Theater Horror.

No Other Government in the World Holds
Life in Such Regard as Does
Ours.

Congress Practically a Unit for Erecting a
New Building for the Government
Printing Office.

WASHINGTON, June 15.—Mr. Holman, chairman of the House committee on appropriations, said this morning during a conversation about the recent disaster in this city and the probability of other buildings being insecure that he believed congress had in the past and would in the future deal liberally in the matter of providing safe public buildings and enact such legislation as would look to preservation of human life.

Concerning the government printing office, against which most criticism is directed, Mr. Holman said congress was practically a unit in its willingness to appropriate money for a new and suitable building. The trouble up to this time had been in securing a site. The matter had not, he said, been brought to attention of house by resolution or otherwise since the Fifty-first congress but was in the hands of the joint committee on printing. He believed a building was badly needed and that a bill with that end in view would be introduced promptly upon assembling of congress and passed.

Mr. Holman is of opinion that under the joint resolution passed Feb. 16, 1893, the public printer has full authority to lessen the weight on floors of this building by removing stuff and occupying other buildings. In an emergency at the time named this resolution was passed and approved the same day and by night men were removing the heavy books and storing them elsewhere. The resolution directs the public printer to forthwith remove from the government printing office so much of the property of the United States in the upper stories as shall in his opinion, and in the opinion of the architect of the capitol, render the building entirely safe for the persons employed therein. This work was done and money appropriated for it and since then even last year \$500,000 was appropriated under the resolution which is still in force.

"No government in the world," said Mr. Holman, "holds life in such regard as ours. This has been instanced many times. Our extensive life saving service and the prompt way in which the Greely relief expedition was sent out show this. Had congress known this building was unsafe, do you imagine it would have permitted to stand as it was? Congressmen are not building experts and if an official report had been made congress would have had something to go on. There is one thing in this public building question that the press does not consider and that is the overcrowding of rooms occupied by clerks and the large amount of space given to higher officials. Other public buildings are lumbered up with stuff little better than trash. Twelve years ago Mr. Ely, then sixth auditor, showed me tons and tons of old postoffice records and money orders that were absolutely worthless, and yet they are still being stored away. "After the city postoffice the new public building to be provided by congress will be a hall of records, and this will relieve many of the present buildings. There are many public records that have to be stored where they can be reached, notably among them those of the general land office. Such a building will relieve all of the departments of an immense amount of trash and be a vast saving of room."

"While this talk of safer public buildings is before the public it should be remembered that the new library building will be completed in four years. The great congressional library, large as it is, will when finished only occupy one quarter of the building, which will be larger than the state war and navy building. Here then will be accommodations for an army of clerks. With a hall of records it looks as if there would be

enough room for the executive departments for some years to come."

Returning to the Ford's theater disaster, Mr. Holman said he supposed the matter would come before congress in shape of bills for relief of the victims and he was sure that congress would do what was right. It was against the policy of the government he said to establish a civil pension list, but he was confident some way would be found to recompense so far as any recompense could be made the families of poor victims.

C. W. Schindler is said to have as good as an iron clad mortgage on the New Albany, Ind., postoffice and the chances are that his commission will be made out not later than the 1st of July. He is one of the most substantial and popular citizens of that city and as a Democrat is at the top of the heap. Hon. Jason B. Brown is his sponsor and did much to expedite appointment.

One of the chiefships commanded by the first controller of the treasury furnishes a coincidence. It was occupied by Daniel Grosvenor, brother of the congressman of that name. It will be remembered that Logan Carleton recently asked for Mr. Grosvenor's resignation saying that he wished to fill the vacancy with as good a Democrat as the Ohio man was. A Republican and that Mr. Grosvenor responded that the individual would be "a—d hard to find." The man whom Mr. Grosvenor succeeded was named R. H. Mangum. The man who succeeded him is named Combs. In 1863 Mangum was member of Forrest's Confederate cavalry. In scouting near Rome, Ga., he ran into and captured a Federal command. In it was Grosvenor. The latter was exchanged in a few days. In May of the same year, while doing some scouting on his own account, he ran into and captured a Confederate command in which was Combs. Mangum captured Grosvenor and Grosvenor captured Mangum's office. Grosvenor captured Combs and Combs captured Grosvenor's office. Turn about is fair play.

KILLED AT THE FAIR.
Serious Accident on the Ice Railway on Midway Plaisance.

CHICAGO, June 15.—The first serious accident since the opening of the fair occurred on Midway Plaisance at 6:30 last evening. One man mangled and dead and five men and women terribly injured lay the tale of the last trip of a coasting train on the ice railway.

The victims of the catastrophe are: Dead—N. D. Richmond, Dunlap, Ill., face terribly torn, three ribs broken and skull internally died one hour after being removed to the Columbian hospital.

Seriously injured—Miss Mary Ayres, Chicago; both arms broken, jaw crushed in and internal injuries. Carl Frick, member of the German cavalry band in the German village on the plaisance; right arm broken, nose broken and legs hurt. John Jacobs, Algerian village, jaw broken and crushed about the head. Henry Jacobs, Algerian village, left leg and arm broken, internal injuries. D. S. Slater, Chicago; right leg cut and bruised. Henry H. McLeach, Austin, Ill.; legs cut, finger broken and back hurt.

ATTACKED BY A MANIA.
A General Struck in the Face by an Insane Medical Student.

PRAGUE, June 15.—While Gen. Gruenne, commander of the Eighth army corps, stationed in the middle Bohemian military district, was walking on the street in this city yesterday, he was attacked by an insane medical student who struck him a severe blow on the face. The general had no idea that the man was insane and drew his sword. The man attempted to strike the general again, whereupon the latter struck him over the head with his sword, inflicting a severe wound. A gendarme who was near by ran to the assistance of Gen. Gruenne and placed Seviduk under arrest.

It is likely that the prisoner will be sent to an asylum. Gen. Gruenne was not injured.

WAS SHOT FIVE TIMES.
A Night Clerk in a California Hotel Fatally Wounded.

VISALIA, Cal., June 15.—Sontag, the wounded outlaw, is gradually losing strength and his death is believed not to be far off. Evans is getting along well, but his left arm may have to be amputated.

William Matthews, night clerk of the Visalia hotel, was shot five times this morning and fatally wounded by Wm. Asmuth, who escaped. Matthews was some time ago arrested charged with assaulting a little sister of Asmuth but the charge was dismissed. Matthews was a native of Australia, 26 years old, and a professional pugilist.

Building of Jetties Stopped.
St. Louis, June 15.—A special to the Globe Democrat from Matamoros, Mex., says the authorities of that city have received orders from the Mexican government to stop the construction of jetties in the Rio Grande river at Matamoros on account of the protest by the United States authorities against the work, as the jetties were turning the course of the river which threatened to wash away the United States reservation upon which Fort Brown is located.

Gold for the Treasury.
WASHINGTON, June 15.—The treasury gold is being built up by the deposit in New York of gold certificates exchanged for currency orders in the West. The demand for money in the West still continues and through this exchange the treasury is receiving gold at the same time it is accommodating the New York banks in placing currency at Western points where they want to deliver it for customers.

Four Hundred on Strike.
St. Louis, June 15.—The members of the Composition Roofers' association went on strike yesterday. About 400 men are out. The men ask for a wage scale of \$2.50 per day for laborers and \$3.50 for journeymen. This is an increase of 15 per cent over present wages. The strike will probably be settled by mutual concession in a day or two.

Christian Endeavorers.
CINCINNATI, June 15.—The annual convention of the Christian Endeavor society of Ohio, will be held in this city June 26, 27, 28 and 29. Thousands of earnest young Christian workers from parts of the state will be present. The convention will be held in Music hall.

SUNK BY A COLLISION.

The McCallum Was Run Into by the Cunard Steamer Servia in a Fog and Sunk.

The Servia Smashed Into the Other's Quarter and Cut Planking as if Match Sticks.

No One on the Steamer Heard the McCallum's Fog Horn or Saw Her Lights.

LIVERPOOL, June 15.—James White, a second mate on the McCallum, which while on the voyage from London to New York was run into and sunk June 7 by the Cunard steamer Servia, in an interview today confirms the story of the disaster as told in these dispatches last evening upon the arrival of the Servia at Queenstown with twenty-four survivors of the McCallum's crew on board.

White adds some new facts to the story of the loss of the ship. He says that the McCallum entered a fog bank at midnight June 7. The fog horn of the McCallum was kept going at regular intervals. At about 3 o'clock in the morning, when the ship was in lat. 40 north, long. 64 west, about 240 miles from Sandy Hook, the Servia rushed out of the fog bank and came bow on to the McCallum, smashing into her quarter and cutting her planking and timbers as though they were match sticks.

White learned, after reaching the steamer, that no one on the Servia heard the McCallum's fog horn, or saw anything of her until a few seconds before she was sighted lying directly across the steamer's bow. Even the sailing vessel could not be seen distinctly, though some of her lights were visible. It was too late however to stop the momentum of the steamer, though her engines had been put full speed astern as soon as the McCallum's lights loomed through the fog.

Mr. Hedley, a saloon passenger on the Servia, stated that the passengers were aroused by the shock of collision and ran on deck without taking time to dress. There was naturally some little excitement, but not the slightest symptoms of panic. The crew worked orders rapidly, and the Servia's boats were lowered in the promptest manner. Mr. Hedley adds that to him it appeared as though the Servia had cut through the McCallum. The sailing vessel went down shortly after being struck.

EXCITEMENT AT DETROIT.
The Gas Company's Superintendent and Workmen Placed Under Arrest.

DETROIT, Mich., June 15.—Ever since the gas companies of Detroit combined under one management the city authorities have claimed that the combination was unlawful and have refused to the companies the right to connect their mains. The city also brought suit for the forfeiture of the charter.

Today Judge Riley refused to grant an injunction restraining the gas company from connecting its systems on the east and west sides of Woodward avenue, the company immediately put a gang of twenty men to work who began to tear up the pavement.

They refused to stop work when ordered to do so and the board of works summoned the police who arrested the entire gang, including Superintendent James Lewis and Foreman John Lane. There is much excitement.

Escaped from Prison.
SING SING, N. Y., June 15.—Convict Frank Adams escaped from Sing Sing prison yesterday. He was working around the stable side of the prison walls and was missed about 10:30. He was serving a term of two years and six months and would have been discharged on Monday. He will forfeit six months' commutation if caught.

A Fireman Killed.
CHICAGO, June 15.—Limited train No. 2 on the Chicago & North-western road was wrecked at Belle Plaine yesterday. William Leukens, the fireman, was killed, his body being taken out of the wreck badly mangled. Engineer Thomas Keefe was severely scalded, but it is thought he will recover. The passengers escaped serious injury.

Killed by Lightning.
AUARA, Mo., June 15.—An electrical storm passed over this place last evening. Lightning struck five places in the city. One bolt struck a mile jerking James Bell and Martin O'Neill.

The North Pole Equalizer
Are not more widely distinct than the standard tonic, stimulant and alterative, Hostetter's Stomach Bitters, and the cheap and fiery local bitters which unscrupulous vendors follow upon the unwary as medicated preparations with remedial properties. The latter are usually composed in the main of badly recovered alcoholic exhalants, with some drug combined to disguise their real flavor and are perfectly ruinous to the coats of the stomach. Hostetter's Stomach Bitters, on the contrary, has for its basis choice spirits of absolute purity, and this is modified and combined with medicinal extracts of rare excellence and botanic origin, which both invigorate and regulate the bowels, stomach and liver. They effect a radical change in the disordered physical economy, which is manifested by a speedy improvement in the general health.

THE VERDICT APPROVED.
The President Acts Upon the Findings of a Court Martial.

WASHINGTON, June 15.—The president has acted upon the findings of the court martial which recently tried First Lieut. Williams, Nineteenth infantry, at Muskegon, Mich., on charges of refusal to pay his debts and failing to reply to inquiries from the department.

Lieut. Williams was tried and suspended in 1891 for a period of five years for a like offense and this court again convicted him and imposed a sentence of suspension from rank and command with loss of all pay for one year after the expiration of the original five years sentence.

This verdict has been approved by President Cleveland but the sentence has been mitigated to suspension for one year with forfeiture of one-quarter pay.

ON SUNDAY OPENING.

The Proceedings in the United States Court of Appeals Were Begun at Chicago Today.

Gen. St. Clair, of West Virginia, Opened the Argument for the World's Fair Local Authorities.

He Contended that Possession of All the Powers is Vested in the Local Directory.

CHICAGO, June 15.—Long before the hour set for the hearing of the case of the World's Fair company vs. the United States in the United States court of appeals this morning, the court room was taxed to its full capacity and many who applied for admittance were powerless to get within hearing of the proceedings. Promptly at 10 o'clock Chief Justice Fuller, followed by Judges Dunn, of Wisconsin, and Allen, of Illinois, filed into the court room. Justice Dunn took a seat at the right of the chief justice and Justice Allen sat on the left.

As soon as the justices were seated, Attorney Edwin Walker for the appellants asked that an hour's additional time be granted for the further preparation of the case. There was no objection and it was conceded. Then ex-solicitor General Aldrich for the appellees called attention to the fact that there was a motion for dismissal pending, which it was desirable should be argued at the present time and the court could make its finding when it came to sum up the case as a whole. To this also there was no objection.

Commissioner St. Clair, of West Virginia, then proceeded to open the argument for the World's Fair authorities. He spoke in a loud tone of voice which echoed through the corridor outside and repeatedly brought his fist down with emphasis on the desk to give additional force to some particular line of argument. He said that he would not go into the jurisdiction of the court, as that was a matter already settled. The history of the fair all the way through demonstrated the position that all the powers were preserved in the local directory. They had possession of the grounds, they had control of the police for the preservation of order. The government had acknowledged that possession lay in the local directory by making no claim to police control or power over the gate receipts and other revenues.

Mr. St. Clair was proceeding to read from the rules and regulations of the exposition company, when the court asked from what book he was quoting. He replied by handing a copy to each of the justices on the bench. Ex-solicitor General Aldrich interposed at this point, raising the objection that the rules and regulations in question were not in the records. To this Chief Justice Fuller dryly responded: "O, I guess we can read it," and the judges turned to the pages designated by counsel.

Continuing, Gen. St. Clair said that the interest of the government in the exposition was simply to make its own exhibit in look after the interests of foreign exhibitors, to make awards and distribute medals for the last of which it had made financial provision. The appropriation of the government was simply for the purpose of completing the fair for which millions of private capital had been raised. The government had no interest in the fair, and the government that had made the exposition cost more than the ten millions originally intended. And legally, therefore, the United States was not bound to furnish the deficiency. Gen. St. Clair continued to argue on this line until the court rose for lunch.

THEY GOT INTO A ROW.

Kansas Women Organize a Suffrage Association.

NEW YORK, June 15.—A special to the World from Topeka, Kas., says: Populist women held a state convention here to organize a women's suffrage association and got into a row. Mrs. Eva Harding, who proposed the movement, was elected to be president of the association. The women of this city were out to pack the convention and elect Mrs. Anna L. Diggs.

This angered the friends of Mrs. Leave, Mrs. Diggs' mother, who went to Mrs. Harding. The wife of ex-Congressman Otis led the Diggsites. On the first ballot Mrs. Harding lost, but there was an election. Votes had been cast for Mrs. Otis and she was asked by the Hardingites to withdraw. She refused to do so. The convention then elected Mrs. Otis president. The betters may organize an independent association.

President Carnot's Illness.

PARIS, June 15.—It is believed that the condition of President Carnot who is said to be suffering from a liver trouble is much more serious than is stated in the official reports regarding his illness. The Soleil, a Republican newspaper, says that M. Carnot is suffering with an intestinal trouble.

Georgian Supperition.

ATLANTA, Ga., June 15.—Wesley Shaw, at Buchanan, Ga., ordered an old woman, believed by the negroes to be a witch, off his land. She followed him to "pick up his tracks." He to prevent being bewitched, attempted to cut her "witch vein." Instead he struck her jugular vein and she is dying and he is in jail.

Sugar Refinery Burned.

LONDON, June 15.—The sugar refinery and stores owned by David Martineau & Sons, limited, located at Cannington, an eastern suburb of London, were burned last night. The refinery was ten stories high and contained a quantity of heavy machinery. The flames spread to the engine and boiler houses adjoining the refinery and these too were destroyed. The loss is placed at fully £50,000.

Cholera in Mecca.

LONDON, June 15.—The latest advices from Mecca, where cholera is raging, show that there have been 350 deaths from the disease during the last five days.

Murder in Mexico.

PUEBLO, Mex., June 15.—J. Rion, a

well known merchant of Vera Cruz, was stabbed and killed yesterday for not granting a request for money.

WORLD'S FAIR FINANCES.

The Attendance Large and the Treasury Being Filled.

CHICAGO, June 15.—The month of June has brought many people to the exposition and with the prospects of several excursions beginning today, German day, the already good attendance will be greatly increased. The daily average of paid admissions is rapidly nearing the 100,000 mark and if the increase keeps up that figure will be established in less than ten days.

The officials are elated at the bright prospects and see a chance to liquidate some of their debts. The pay roll for May amounted to nearly \$300,000 but this, it is estimated, will be reduced one-half for the month of June. Director Burnham will cut his pay roll in two this week and a number of young men who have been identified with the exposition will be relieved from duty.

The construction department will be all but abolished in a short time and this will further reduce the expenses. This step will be taken, it is understood, when the administration concludes to make C. D. Davis director general with Burnham as his assistant.

THE GROOM IS DYING.

A Sad Marriage is a Hospital in St. Louis Today.

ST. LOUIS, June 15.—A marriage took place today at St. Mary's hospital under circumstances peculiarly sad and for which the funeral knells will be sounded instead of wedding chimes. The groom, Carl Gabelhardt, aged 26 years, is slowly dying of injuries received in a runaway on Monday last, while the bride is Miss Marie Valentine, a beautiful girl who has not yet completed her 17th year.

They were to be married in a few days. When the surgeons told Miss Valentine her lover had but a few hours to live, she insisted on the marriage taking place at once. A license was procured yesterday and the bridal party visited the dying man's cot. His injuries had been unusually painful during the day, and the doctors thought it advisable to place him under the influence of morphine, and as the drug made him unconscious the ceremony was postponed until today.

WANTED FOR SWINDLING.

An ex-Senate Senator of Minnesota Charged With Swindling.

MINNEAPOLIS, June 15.—Officials are looking for Loren B. Olds, ex-senator and one of the best-known mining men in the state. He is wanted on the charge of swindling several people. Jackson & Co., ore purchasers of Kansas City, charge that he has swindled them out of \$50,000 on a mining contract. He is also charged with swindling a syndicate owning the Kitty Morris mine at Butte out of \$10,000 and also securing \$10,000 from Butte people on a fraudulent mortgage.

Olds disappeared about a week ago but so far no trace of him has been heard. He is sixty years of age and not long ago negotiated a sale of a mine to New York parties for \$50,000.

A SILVER ANNIVERSARY.

Cardinal Gibbons' Consecration as Bishop to be Celebrated.

BALTIMORE, June 15.—Twenty-five years ago this summer, Cardinal Gibbons was consecrated bishop, and the silver anniversary of his election to the office will fall on Aug. 16. As the cardinal will be away from the city from time to time during the summer, it has been decided to celebrate the anniversary on Oct. 1 next, when the anniversary of his consecration as archbishop of Baltimore will also be close at hand.

Such an occasion will be one of rejoicing and one of its features will be a solemn high mass and a sermon by some one who is prominent in the hierarchy. It is the intention to present a rich testimonial to the cardinal.

An Absurd Story.

ST. PAUL, June 15.—Archbishop Ireland was shown the dispatch from Rome which said the pope had issued an order to the diocese of St. Paul (United States) the clergy must instruct the Catholic and Protestant children alike without exacting from the Protestants a promise to become Catholics. Archbishop Ireland said that such an order would be absurd and that no such order had been or would be issued.

The British Embassy.

WASHINGTON, June 15.—The British embassy has been temporarily transferred to New York, where Sir Julian Pauncefote has rented a cottage for the summer. The ambassador and family and all the attaches except one of the under-secretaries will spend the season there.

Diamond Dealers Assign.

NEW YORK, June 15.—Charles Cottier and Jean Cottier, comprising the firm of Cottier & Son, dealers in diamonds, at No. 171 Broadway today assigned to Samuel Greenbaum without preference. The liabilities it is said exceed \$100,000. The assets will at least equal the liabilities.

Blow Out the Gas.

OMAHA, Neb., June 15.—Sheriff Bad-denis, of Culbertson, Neb., in attendance at the circuit court here, convention, was found dead in his bed at Council Bluffs this morning asphyxiated by gas.

Relay Bicycle Race.

MADISON, Wis., June 15.—The relay bicycle riders carrying a message from the governor of Illinois to the governor of Wisconsin, arrived here a few minutes before noon. The distance was covered in 26 hours and 53 minutes.

John Swenson Awarded \$58,000 in His Suit Against Amos Shepard, et al.

Findings of fact and conclusions of law were filed today in John Swenson's suit against Amos Shepard, Clara Shepard and William G. Joerns, defendants, the Duluth Transfer Railway company, intervenor. Judge Lewis finds that plaintiff is entitled to judgment for \$58,000. The plaintiff's suit was filed on Feb. 5, 1892, according to two promissory notes and a mortgage securing the same, executed by Amos Shepard, that all that part of frontage affected by the mortgage and not heretofore released be sold by the sheriff to satisfy the claim.

E. P. Alexander, Jr., has commenced suit against the estate of M. B. Harrison. The plaintiff alleges that in 1886 and 1887 he was employed by Mr. Harrison to form a syndicate of Virginia land speculators in lands. Properties were sold at a profit of \$120,325 and other properties bought but not yet sold upon which the profit is estimated at \$70,000. Plaintiff alleges that Mr. Harrison faithfully carried out all agreements between them but that since Harrison's death Lucy Gray Harrison has failed to recognize plaintiff's claims. He claims a one-third interest in the transactions.

ANOTHER RUSH TODAY

Large Crowd of People Anxious to Get Lands at the Land Office Again Today.

There Was a Crush at First, but the Applicants Were Given Numbers and Calmed Down.

A Fishy Story Published in a Minneapolis Paper Accusing the Local Officers of Favoritism.

By 8 o'clock this morning a crowd of fully 100 men had gathered at the land office as the result of town-ship 66-10 being opened for settlement. Many were in the building all night, the offices of most of the land attorneys being crowded with anxious aspirants and applicants for a small slice of Uncle Sam's rapidly decreasing public lands. Police captain Thompson was on hand with a squad of men to see that all was conducted in an orderly manner in the halls and around the building. At 8 o'clock, the applicants were arranged in files and given numbers. Before that there had been considerable crowding and several determined rushes for the land office door. Capt. Thompson said that as soon as the wishes of those having the maintenance of order in hand were made known, the crowd quietly and good naturedly agreed thereto and complied with all that was required.

The captain has many compliments for the manner in which the whole crowd conducted itself. On the other hand many compliments were paid the officers by those standing in the lines. C. B. King, the clerk in the land office, gained much credit by the manner in which he engineered the crowds in the hall. When not otherwise engaged, he was passing around water and seeing that every man had as much done for his comfort and convenience as possible under the circumstances. He was the most popular man in the building with the throng.

About 125 men were in line. The rush was over by 11 o'clock. The number of applications was not nearly so large as on some other occasions, but the applications rejected were nearly as great as those accepted.

A late issue of the Minneapolis Tribune contained a long article, based on an interview with a certain Dr. Rogers and other alleged Minneapolis men whose importance or reputation was not sufficient to allow the mention of their names. The whole thing sounds fishy, forced and smacks of blighted schemes. It is a roast directly upon the police officers for the manner in which they maintained order in the hallways of the Temple opera building and an indirect criticism of the land office officials. The complaint is further that special privileges were given squatters by the police men over twin city men who were taking claims in good faith. If the complaints did not show so lamentable lack of knowledge of the United States land laws, these in Duluth who have been criticized would be inclined to give it more heed. In today's hustle, Minneapolis men say that they could not have received better treatment by officials and policemen.

Register Nichols being shown the clipping from the Minneapolis paper, said: "In my opinion the charges in that interview and article are unfounded. The land office has no control over any rooms or hallways in the Temple Opera building, outside of their own quarters. The police were called in by the Temple Opera house manager to preserve good order. Settlers on unsurveyed lands are given by the law a preference in right of entry. If the settlements are not bona fide the law affords a remedy by contest. I think the people generally are unusually well satisfied with the way the applications have been made."

IS NOT CRIMINAL.

Judge Ensign's Decision in the Oleomargarine Cases Given Today.

Judge Ensign has made a decision which supports the position of T. M. Brady, counsel for the defense, in the oleomargarine cases. Fred Weidman was arrested under the statute purporting to prohibit the sale of oleomargarine other than of a bright pink color, on criminal process. Judge Brady, in the municipal court, contended that it was not in effect a criminal statute. The court held that it was. Judge Brady then sued out a writ of habeas corpus in the district court.

The matter was heard by Judge Ensign, June 6. Assistant City Attorney Crassweller appearing for the prosecution. By his order today the judge releases the prisoner, in effect holding that criminal process does not lie under the statute in question.

Inspector John M. Bohrer of the state dairy and food commissioner's office is in the city today looking after the oleomargarine cases. No appeal to the supreme court can be taken in the habeas corpus cases but an effort will be made to get the matter before the court of last resort in some other way in some of the other cases now pending.

The next trip to Chicago on the Ossifrage leaves on Thursday, June 29.

Those leaving for Chicago on the Ossifrage Thursday, June 29, will arrive in time for the World's fair celebration of the fourth of July.

Special rates for parties of ten or more. For reservations apply to C. H. Eldridge, general manager, 428 West Superior street.

Moved to Torrey building, first floor, James Billings.

Commencing tomorrow morning the Woodland cars will run out to Twelfth avenue east, and up to Fourth street, instead of turning up Third avenue west.

The Duluth Cycle club will have its regular weekly run this evening. A start will be made from the Spalding at 7:45 and the boys will go to Lester Park and return.

Wanted: A good reliable boy to carry papers. Call or address, Geo. W. Laus, circulator, Herald.

Last October Blanche Todd, a young woman about 17 years of age, died in Minneapolis. This morning her remains were received here for burial. The interment took place at 10 o'clock in Forest Hill cemetery.

The death of Henry Gooden, a sailor, aged 26, at St. Luke's hospital, of valvular heart disease, was reported to the board of health this morning.

The following marriage licenses have been issued by Clerk Sinclair: Anson Francis Coulter and Mary Krakland; Ignatius McIlhargy and Edna Harvey; Charles Gallagher and Mary Grace Bingham.

Cards are out announcing the marriage of Miss Alice Gray Munger to William Baird Silvey, which was celebrated on June 28, at the Pilgrim Congregational church.

T. N. Hugo has purchased the steam launch, Hunter from McCleod & Campbell.

Plans are out for figuring for a three story brick building, 50 by 140 feet in size to be erected at the corner of Ninth and Superior streets by M. P. Mason. It will cost about \$25,000.

For rent, Brown building, 10 East Superior street. Apply to A. E. Brown, at Pantan & Watson's.

A pleasant social and card party was given last evening at the Catholic club rooms on West Fourth street.

The Union Building and Loan association has at least \$100,000 of assets secured by at least \$200,000 of improved property. It has the authority to borrow not to exceed one-half of mortgage assets. It will take sums from \$10 to \$15,000 and pay from 6 to 8 per cent according to time.

The Ossifrage arrived in Chicago early this morning after an enjoyable trip. Miss Annie Hugo gave a party yesterday afternoon to about fifty of her classmates in the kindergarten school.

The Central Gun club will have a grand tournament on July 4 and 5 at Spirit Lake. About \$200 in prizes will be offered. Final arrangements will be made Friday evening.

The Wind Responsible.

Pat Hughes filed his answer in the case brought against him by the Iron River Brownstone company for damages. He was alleged to have built an unsafe dam on the Iron river which was carried out and blocked up the channel in front of the plaintiff's docks. The defendant claims to have been granted authority by state of Wisconsin to build the dam and says that it was carried out by an unexpected flood. He denies that this blocked the channel and says that the wind and waves washed sand in and filled it up.

Held up on Superior Street.

Gus Stealing a laboring-man reported to the police headquarters early this morning that he had been held up at the corner of Superior street and Lake avenue at 1 a. m. and relieved of \$5. He was evidently under the influence of liquor at the time. No trace of the highwayman has been found.

He Likes Duluth.

Andrew Schumacher, of Formosa, Ont., a representative of the Canadian government, was in the city yesterday a guest of J. H. Tischart, of the municipal court. Mr. Schumacher says that Minnesota, in his opinion, has the finest exhibit of any state at the World's fair. He is also convinced that Chicago, Duluth, Sault Ste. Marie and Winnipeg are to be four of the great cities of the continent. Duluth's great hill, he says, reminds him of Montreal.

Children's Malice.

Saturday from 1 to 5 children are admitted to the Morris Illusion Exhibition for 5c, the statue turning to life and the other mysteries are especially interesting to the little ones. Children may safely come alone, good care will be taken of them.

THE DISTRICT COURT.

Criminal Calendar Not Taken up This Morning—The Clements Damage Case.

It was expected to take up the criminal calendar before Judge Lewis this morning. H. E. Clements was anxious, however, to try the case of Samuel F. Snively et al against William C. Bond and County Attorney Tear gave way upon the understanding that the attorneys for the defense were able to get their witnesses together. Skirmishers were sent out for this purpose. But about that time it became pretty apparent that the personal injury damage suit of Clifford F. Clements against the Northern Pacific Railroad company was likely to last all day.

This morning the attorneys argued a motion for a verdict for defendant on the ground that no cause for action had been shown. Judge Lewis denied the motion and the defense opened its case just before noon.

The Iron Range railroad right of way case is still on before Judge Ensign. The testimony will probably be concluded this afternoon and the case submitted to the court on written briefs.

In John Kashy against Albert Young et al jury has been sworn and the case placed at the foot of the court calendar.

AT THE SCHOOLS.

Closing Exercises at All the Buildings Held This Afternoon.

This forenoon regular class work was done in all the grades of the city schools. This afternoon at all the buildings closing exercises were held. This evening class day exercises of the class of '93 will be held in the High school assembly room. Admission is by invitation and ticket.

The kindergarten exhibit of the normal training school was ready this morning. All the others—those in manual training, drawing, penmanship were ready by noon. The general exhibit of the grade work for the year for the schools of the whole city will not be ready until tomorrow morning.

Tomorrow is the busy day. The training school graduation exercises come at 10 o'clock in the morning, the same exercises for the eighth grade pupils come at 2 o'clock and in the evening the High school class speaker, Rev. H. W. Thomas, D. D., of Chicago, will deliver his lecture, "A Successful Life," after which the members of the class of '93 will be presented their diplomas.

THE YARDMASTERS.

Discussion of the Adoption of a New Constitution Proceeding Today.

At this morning's session of the railway yardmasters the sole subject of discussion was a new constitution which it is proposed to adopt. At the noon adjournment the discussion was still under way and was taken up this afternoon. At 3 o'clock an adjournment was taken and the delegates and ladies went for a boat ride on the lake and bay.

At yesterday afternoon's session a subject committee was appointed as follows: Winter, Minneapolis; Watkinson, Oakland, Cal.; Diegle, Duluth; Sherlock, Aurora, Neb., and Gallette, Toledo, O. The committee on resolutions was appointed also and as follows: Winter, Minneapolis; Tapin, Peoria, Ill.; Watkinson, California; Conney, Ohio, and Cheyette, Iowa.

The committee appointed last year to look after the matter of safety appliances, presented an elaborate report through its chairman, Col. A. D. Shaw of Washington, who, by the way, is fourth auditor of the United States treasury. The safety appliance act passed in December was the result of its labors.

Secretary Mosley, of the interstate commission, and L. S. Coffin, ex-railway commissioner of Iowa, assisted the committee and were thanked by resolution. Tonight the delegates and their ladies will visit the Pavilion.

FIRST GRAND ENTRY.

The People of the Midway Plaisance Will Make a Display in Jackson Park Tomorrow.

More Than a Thousand Men, Women and Children and Hundreds of Animals Will Participate.

The Ladies of the Harbors, the Dancing Girls and the Amazons Will be There.

WORLD'S FAIR GROUND, CHICAGO, June 16.—The Midway Plaisance will make its first grand entry into Jackson park tomorrow afternoon at 2 o'clock. It will be a half holiday down town and the plaisance people propose to show to the world just what they have in stock. The exposition authorities are of the opinion that even such a display as the World's fair affords may grow wearisome to persistent sight-seers, and therefore diversions of all kinds are being planned for the multitude which for an hour or so every day may relieve the tension on minds overburdened with the effort of trying to comprehend hundreds of acres of exhibits.

Col. Rice of the Columbian guards will have two companies of United States regulars now camped in the grounds and the Michigan cadets as a guard of honor. More than a thousand men, women and children, and hundreds of goats, camels, donkeys, elephants, lions, monkeys and other animals will be in line. At the head of the procession will march the United States regulars and cadets with a band. Following will come the inhabitants of the Turkish village headed by the renowned individual, Faraway Moses.

The members of the Bedouin encampment, the ladies of the harbors, the theatrical troupe, fire engine companies, the sedan chair carriers, employees of the cafes, merchants, sword fighters and finally all the camels and horses in the village. The Algerian village will turn out seventy-five people, canoes, soap-sellers, dancing girls and slaves, and the Vienna bakery will send its band. Cairo street will be decorated for the time being, its camels, donkeys, baboons, dancing girls and wedding procession will be in line.

The cathedral of St. Peter will send its four Swiss guards in uniform and the Ferris wheel will do likewise. The Moorish palace will contribute its native band and the Persians will have a quota of attendants. The Java folks cannot bring their orang outang, for he is a fighter, but they will bring everything else. Next will follow the South Sea Islanders. Herr Hagenback will show his fine band, performing tigers, dogs, cats of lions, etc. The Japanese bear employes will follow and after them Irish linen, lace and home spun weavers engaged in their different occupations. The Libbey and Venetian glass works will both have striking displays. Last will come the Amazons from Dahomey, equipped in full war costume, every one of them hideously scarred from the many conflicts in which they have engaged.

MEXICAN RUINS FOUND.
An Old Building Discovered Almost Buried in the Earth.
St. Louis, June 15.—A special to the Globe Democrat from Guadalajara, Mex., says that an important discovery of ruins has been made near Ixtlan in the state of Tepic. A party of American and English antiquaries while exploring that remote section came upon an old building almost buried in the earth. It is located in a dense forest and had apparently been undisturbed for several hundred years. The structure is built of stone and is of large dimensions. A large number of idols, pottery and weapons made of stone were found in the building. In one corner of the main room was found a pile of human bones. It is believed that the old building was used as a temple of worship by the Indians or a prehistoric race centuries ago.

AN OUTLAW CAPTURED.
LITTLE ROCK, Ark., June 16.—Jesse B. Roper, the outlaw who murdered Sheriff Al Byler, of Baxter county, last June, was captured yesterday at Muskogee, I. T., by Deputy Marshal Pettigrew. There is a reward of \$1500 for his delivery to the Baxter county authorities. Roper will be brought to Baxter county today, and as public feeling is very intense mob violence is feared.

BROKE THE RECORD.
WILMINGTON, Del., June 16.—In the presence of 200 people James Green yesterday drove his pacing stallion, Saladin, one mile in 2:04 1/2 over the half-mile track at Wawaset park here, beating the world's pacing or trotting record over a half mile track. The quarters were made as follows: 3/4, 1:03 1/2; 1 1/4, 2:04 1/2. Saladin's previous best record was 2:11 1/2, made at Philadelphia last year. He is a half brother of Stamboul, 2:08 3/4, his sire being Sultan.

ARRESTED FOR EMBEZZLEMENT.
St. Louis, June 16.—A Globe Democrat special from Hermosillo, Mex., says Rafael Izeababal, lieutenant governor of the state of Sonora, has been arrested at Guaymas on the charge of embezzlement of public money and of illegal proceedings in the discharge of official duties. The accused man is well known throughout Northern Mexico and his arrest has created great surprise.

SHIPPED TO THIS COUNTRY.
St. Louis, June 16.—A special to the Globe Democrat from Leon, Mex., says: Leandro Caballero, chief of police of that city which is the third largest in population in Mexico, has mysteriously disappeared and is believed to be in hiding in the United States. An investigation is being made of his office of late and enough has already been discovered to show that he left the city to avoid punishment.

REPUBLICAN HEADQUARTERS.
CHICAGO, June 16.—The National Republican league in executive committee in session at the Grand Pacific hotel has just selected Chicago as national headquarters by a vote of ten, states for Chicago, four for St. Louis, three for Washington and one for New York.

CANNOT USE COMPOSITE.

The New Gunboats Must be Built of Steel Throughout.
WASHINGTON, June 16.—The attorney general has dashed the hopes of the construction corps of the navy by ruling that the department cannot build the new gunboats of composite type. The question was submitted to him by Secretary Herbert whether he could lawfully contract for the construction of one or more of the light draught gunboats authorized by the act of March 3, 1893, on what is called the composite plan, the hull frames being of steel covered by wood planking and sheathed with copper.

The attorney general says: "In my judgment the act contemplates the construction of light draught protected gunboats of steel and does not authorize the building of such gunboats of the composite plan." So it appears that the new gunboats will have to be built of steel throughout and without sheathing to protect them from the growth of marine vegetation, which involves frequent docking at great expense. The decision, however, will not delay the completion of the plans for the boats to any considerable extent, for the construction bureau has already prepared rough designs for vessels of all steel type to meet the contingency.

NICHOLS' HEAD IS OFF.

The President Today Appointed Andrew J. Taylor to be Register of the Duluth Land Office.

WASHINGTON, June 16.—[Special to The Herald.]—Andrew J. Taylor was appointed register of the Duluth land office today, as it was predicted he would be in several days by the Washington dispatches to The Herald. Monroe Nichols has been displaced through the efforts of Congressman Baldwin. The nature of the charges brought against him to secure his removal must be kept secret, but it cannot be learned now just what they are. Some of them were made against Nichols at the time of his appointment. This is the first big victory Baldwin has secured under this administration in the appointment way.

WASHINGTON, June 16.—The president today made the following appointments: Thomas D. Robinson, of Colorado, to be surveyor general of Colorado. To be registers of land offices: Joseph W. Jamison, of Missouri, at Booneville; George E. Kuntz, of Wisconsin, at Ashland, Wis.; Andrew J. Taylor, of Minnesota, at Duluth, Minn. To be receivers of public monies: Clarence Dennis, of Wisconsin, at Ashland; Jacob H. Robbins, of Oregon, at La Grande; Frank P. Artubuck, of Colorado, at Denver; George W. Sanderlin, of North Carolina, to be deputy third auditor of the treasury. Appointed today were the following: Clark D. Smith at Cornua, Mich.; Frank A. Healy, at Ironwood, Mich.; Charles P. Pleasant, at Piquette, Mich.; C. B. Driscoll, at Negaunee, Mich.; P. W. McCillie, at Mandan, N. D.

MURDERED BY BURGLARS.

J. R. Harris Had an Encounter With Burglars in Minneapolis This Morning and Was Killed.

MINNEAPOLIS, June 16.—J. R. Harris, 60 years of age, was murdered at his residence in the East division at 2 o'clock this morning by two men supposed to be burglars. Mr. Harris arose to investigate noises heard in the house, when he came upon the men and a desperate struggle ensued, during which the marauders fired two shots one of which entered Mr. Harris' breast and the other in the hand. The assailants then escaped. Mr. Harris died at 8 o'clock. The mayor has offered \$500 reward for the capture of the murderers.

PRODUCED IN THIS COUNTRY.

Springs for the Seacoast Mortars Now Made Here.

WASHINGTON, June 16.—When the ordnance department of the navy began the work of designing new guns and mortars for the coast defense system projected by the fortifications board, difficulty was experienced in securing reliable springs to take up the heavy recoil of the great twelve-inch seacoast mortars, and after experiments they were obliged to turn to what is known as the Belleville spring, a French invention consisting of a great number of dish-shaped steel disks secured in a spindle. This spring was very difficult to manufacture owing to the nicety of temper required. Now, however, the bureau has found the desired spring in this country. A Pittsburg firm has submitted for trial a number of double coiled springs that have passed the tests satisfactorily, and hereafter these springs will be used instead of the French springs in all of the twelve-inch mortars.

The Charges Withdrawn.

St. Paul, Minn., June 16.—The charges made by the Kittson heirs against the St. Paul Globe in the application made for receiver of the Globe Publishing company have been withdrawn. All the stockholders have agreed upon the appointment of Judge Charles F. Smith as receiver for the newspaper publishing company and the appointment was made today.

REDUCING THE FORCE.
WASHINGTON, June 16.—Yesterday the names of sixty-seven clerks were dropped from the rolls of the general land office. Of this number six were from class 4 (compensation \$1,800 per annum); 10 from class 3 (\$1,600); 10 from class 2 (\$1,400); 10 from class 1 (\$1,200); and 8 from the copyist class of \$900.

ELECTION IN GERMANY

The Government Lost Slightly in Constituencies Which Chose Their Deputies by First Ballot.

It Has, However, Exceptional Opportunities to Win Many Seats on the Second Ballot.

The Righter Radicals Failed to Draw as Many Votes as They Had Been Expecting.

BERLIN, June 16.—At noon the government candidates had apparently lost slightly in the constituencies which chose their deputies by first ballot. On the other hand, in the second ballots which now seem inevitable in some 100 or 125 districts, the government has exceptional opportunities to win many seats. This is especially applicable to the seats contested by the Radical Unionists, who in the last reichstag voted against the army bill but have supported it on the stump and if re-elected, will vote for it in somewhat modified form.

This morning the National Liberals, who were expected to return to parliament with their delegation reduced from forty to about thirty, contended that they would have at least thirty-eight members after the second ballots. The Righter Radicals will have hardly more. So far their failure to draw opposition votes has been the most surprising feature of the election.

The Social Democrats boast that they will have sixty seats after the re-ballots. This is about the number conceded to them before the election. The Conservatives are likely to hold their own. The number of the Liberal Clericals in the next reichstag, although in doubt, is expected to approach 100. These returns have been received today: Koenigsberg (Order): Herr Von Levetzow, Independent, favorable to the army bill, elected to succeed himself. Koenigsberg (Order): Herr Weidenfeld, Liberal, elected to succeed a Clerical. He received 7322 votes against 2163 cast for Herr V. Schuller. Aist, the leader of the dissident Clericals, who favors the army bill.

Goerlitz: A new ballot necessary between Louder, Richterist, and last deputy and Keller, Social Democrat. Osnatz: Herr Hauffe, Conservative, elected to succeed a Conservative. Altenburg: Herr Buchwald, Social Democrat, elected to succeed Dr. Haumbach, Free Conservative. The result is a loss for the government.

Hirschberg: Dr. Theodor Barth, Radical Unionist in favor of the army bill, elected to succeed himself. This is gain for the government as Dr. Barth voted against the bill.

Hagen: New ballot necessary between Eugene Richter and Dr. Lehmann, National Liberal. Essen: New ballot necessary. "Canoe King" Krupp, National Liberal, is at 37 votes ahead of Gerhard Stoezel, Clerical.

Gorlar: New ballot necessary between Herr Engels, Free Conservative, and Herr Von Minnegerode, Guelph, and against the bill. Lempe: New ballot necessary between contestants.

Loebau: New ballot necessary between Herr Zimmermann, a Socialiste, and Herr Herzog, Richterist. A National Liberal was elected in 1890.

ONE MAN WAS KILLED.

Bad Wreck on the Hastings & Dakota Road This Morning.

SUMMIT, S. D., June 16.—One of the worst wrecks ever known on the Hastings & Dakota railroad occurred this morning nine miles west of here shortly after 4 o'clock.

The west bound freight broke in two and afterwards crashed together. Cars were piled together in great confusion. Traffic was delayed several hours. One man was killed and two others severely injured.

DIVERSION FOR THE SUMMER.

How the Cabinet Officers' Families Will Enjoy Themselves.

WASHINGTON, June 16.—Mrs. Gresham and Mrs. Carlisle have put their heads together for the purpose of planning some diversion for the summer. The result of the cogitations is the determination to visit Deer Park for a few weeks and then enjoy a pleasant change, at the same time being near enough to the city to permit their husbands joining them every Sunday.

As yet no definite date has been set for departure, but in all probability the present hot spell will hasten their going. Mrs. Hoke Smith left Washington last week upon a short trip to the bay shore and is expected back Saturday. Later the family visit relatives living in a big farm house in Virginia with a view to rustication for the summer.

Atrocities in Brazil.

New York, June 16.—The Herald's Valparaiso correspondent cables: Frightful atrocities are being practised by the Castilhistas in Rio Grande. Governor Castillo ordered a man's throat cut because he was suspected of aiding the revolutionists. This murder was committed in the presence of the wife of the victim. The barbarous punishments are inflicted on mere suspicion. The revolutionists are daily receiving new recruits. Many officers of the National guard have deserted the government and gone over to the rebels.

A BATTLE IN CHICAGO

Five Men Have an Encounter With Revolvers on Halsted Street Near Adams Last Night.

Three of the Men Were Badly Wounded and One Will Die From His Injuries.

Three Persons Seriously Injured. Two Perhaps Fatally, by the Explosion of a Cylinder Head.

CHICAGO, June 16.—Five men met in an encounter with revolvers on Halsted street north of Adams street last night. Shots followed each other in quick succession and the affray sounded like a real battle. When the smoke had cleared away the police found three wounded men and took one prisoner. The wounded are:

Kane, Tricky, shot through the neck, will die.

Christiansen, William, shot through the groin.

Wilson, Joseph, shot through the left leg.

The three wounded men were taken to the city hospital. The other men that took part in the shooting are Jack Skinner and James Houlihan. Skinner is locked up at the Desplaines street station but Houlihan escaped.

INJURED BY AN EXPLOSION.
Three Persons Badly Injured. Two Perhaps Fatally.

NEW YORK, June 16.—Three persons were badly injured, two of them perhaps fatally, by the explosion of a cylinder head in G. Tinsley's machine shop, No. 40 East Thirteenth street, late yesterday afternoon.

They were Timothy Callahan, machinist, badly cut about the face, skull fractured; William Foulkes, machinist, badly cut about face, arms and head; Walter Henkelman, to years old, badly cut about face and skull fractured. It is not known what caused the explosion.

GROVER GETTING FATTER.
He is Now Using the Farthing System to Reduce Weight.

WASHINGTON, June 16.—The Post says: In defiance of hard work and the heavy responsibility resting upon him, the president is steadily gaining avoirdupois. His increased weight has begun to be inconvenient. Already the effort of walking has become a burden and Mr. Cleveland finds himself forced to forego much of his customary exercise.

This is a source of great regret to him and in order to reduce his size the chief executive is quietly nursing the fasting system, eating only two meals a day. Since taking possession of his country home the casual lunch party has been religiously omitted, and in this way the president finds additional time for work which he devotes himself to from the time he reaches the White house in the morning until close on to 5 o'clock in the afternoon at which hour Mrs. Cleveland drives in, seated in her stylish landau, and spirits her husband away from all worry and out into the fresh green fields and daisy-spangled meadows.

The Duke Will Remain.
NEW YORK, June 16.—The duke of Veragua has decided to remain in this country until July. He will stay in this city during the time Princess Eulalie is here on her return and take part in whatever demonstration may be made in her honor. The duke's secretary said yesterday that the princess would sail June 24.

President Carnot's Condition.
PARIS, June 16.—The official bulletin issued concerning President Carnot states that there is a slight improvement in his condition.

When you speak or even think of spring medicine, how quickly Hood's Sarsaparilla comes into your mind. Try it now.

SURROUNDED BY MYSTERY!
A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force. This derangement, however, is not a disease, but a condition, and it is caused by the derangement of the nerve centers which supply the brain with nerve force. This derangement, however, is not a disease, but a condition, and it is caused by the derangement of the nerve centers which supply the brain with nerve force.

The Freight Agents.
MILWAUKEE, June 16.—The National association of Local Freight Agents associations yesterday voted to hold the next annual meeting at Pittsburgh and the following officers were elected: President, J. L. Kern, Cincinnati; vice president, Fred Rundle, Jersey City; secretary, L. C. Whitney, Milwaukee; treasurer, C. H. Newton, Fort Wayne.

A War in Colorado.
GRAND JUNCTION, Colo., June 16.—The war between the cattle men and sheep men in the plateau country continues. Sheriff Innes came in this morning with three prisoners. He reports 300 dead sheep and a number of dead horses on the ranges. No one had been killed as reported.

The Cordage Creditors.
NEW YORK, June 16.—In the United States circuit court, yesterday Judge La Cour made an order limiting the time for filing claims by the creditors of the National Cordage company against the defunct concern until Aug. 31.

Unable to Attend.
PARIS, June 16.—M. Dupuy, prime minister and minister of the interior, is suffering from an attack of sickness and his condition was such yesterday that he was not able to attend the session of the chamber of deputies.

Shot Through the Heart.
ST. LOUIS, June 16.—Charles White, alias "The Bear," a notorious negro thief and ex-convict, was shot through the heart and instantly killed by Bart Davis, first mate on the steamer Benton. White made an assault with a club on Davis, when the latter shot him.

TROUBLE IN SAMOA.

The United States May be Obligated to Intervene Again.

WASHINGTON, June 16.—Advice received by Secretary Gresham from Samoa are to the effect that affairs there have reached a crisis, and it may be that the United States will again be obliged to intervene between the parties. Ever since the establishment of the tripartite protectorate over Samoa the islands have been disturbed, and the best representatives of the United States, Great Britain and Germany have failed to improve the situation.

The United States, Great Britain and Germany have obligated themselves by the treaty of Berlin to preserve the autonomy of the islands and to maintain order and peace. Under this agreement it has been the custom for the three nations to take turns in keeping a war ship in the vicinity of Apia, and it so happens that just now the German vessel is on guard. In this crisis, however, it is probable that more forces should be at hand, and it may be that one of the United States war ships will be sent to Samoa.

VERY LOOSE MANAGEMENT.
It Has Resulted in a Kansas Bank's Suspension.

ATKANSAS CITY, Kas., June 16.—The First National bank of Ark City, Kas., closed its doors yesterday. It was organized June 30, 1887, with a capital stock of \$50,000 which it afterwards increased to \$125,000.

When examined in December, 1892, it had a capital of \$125,000 and surplus and profits as shown by its books amounting to about \$60,000, but the examiner's report showed that excessive loans to the amount of \$180,000 had been made to parties and that loans and discounts to the amount of \$60,000 had been made to the president, Wm. S. Lett, the cashier, H. F. Farrar, and the assistant cashier, F. W. Farrar. The bank officials are censured for their loose management of the bank's affairs.

Clearing House Certificates.
NEW YORK, June 16.—The Clearing House association yesterday afternoon adopted the following resolution:

Resolved, That a committee of five be appointed by the chairman with the president to receive from the banks, members of the association, bills receivable and other securities to be approved by said committee, who shall be authorized to issue therefor to such banks loan certificates bearing 6 per cent interest per annum, and such loan certificates shall not be in excess of 75 per cent of the market value of the securities or bills receivable so deposited, and such certificates shall be received and paid in settlement of balances at the clearing house, and all the rules and regulations heretofore adopted in the issue of such gold certificates shall be in force in the present issue.

By a Narrow Margin.
NEW YORK, June 16.—The Sun says: The associated banks came within an ace yesterday of passing a resolution recommending that the New York banks pass a resolution requesting President Cleveland to call congress together immediately to tackle the financial situation. The resolution had been prepared and was discussed at length. Some of the bank presidents favored that means of calling President Cleveland's attention to the financial situation, but others thought it possible that the resolution might be misconstrued. The opposition finally won and the resolution was tabled but it was by a very narrow margin.

Battered to Pieces.
CHICAGO, June 16.—John Schmidt, an engineer, was found dead in the engine room of the ice railway at the west end of Midway pleasure yesterday. His head was battered to pieces and his brains strewn about the room. No one was in the engine room when the accident occurred, but it is thought he was struck by the fly wheel. His address is not known and he had been in the employ of the company but two days.

He Fought Gamely.
LOUISIANA, Mo., June 16.—Ike Coleman, of Boston, was defeated in seven rounds Wednesday night by William Harrison, the champion of Indiana.

The fight was held by the Louisiana Outing club a few miles from this city for a purse of \$250. Coleman was knocked down seventeen times before he quit.

The Tracks Blocked.
GREENSBURG, Pa., June 16.—Last midnight the axle of a car on a west bound freight train on the Pennsylvania road broke off and twenty-one cars of merchandise were smashed and the tracks blocked with the debris. The damage to cars and contents amounting to \$25,000. Several tramps riding on the train went down with the wreck, but escaped serious injury.

The Freight Agents.
MILWAUKEE, June 16.—The National association of Local Freight Agents associations yesterday voted to hold the next annual meeting at Pittsburgh and the following officers were elected: President, J. L. Kern, Cincinnati; vice president, Fred Rundle, Jersey City; secretary, L. C. Whitney, Milwaukee; treasurer, C. H. Newton, Fort Wayne.

Twelve Hundred People Were Attending the Commencement Exercises When the Flames Were Noticed.

Great Presence of Mind on the Part of the Presiding Officer Prevented a Panic.

WARRENTON, Mo., June 16.—At 10 o'clock last night the dormitory of the Central Wesleyan college was discovered on fire. An alarm was promptly sounded but the flames made such headway that in less than an hour the building was in ruins. It was a comparatively new building and cost \$14,000. Its contents were valued at about \$10,000.

At the time the fire was discovered fully 1200 people were in the college hall in attendance at the commencement exercises. That a panic did not ensue was due to the presence of mind of the presiding officer, who quickly had the doors locked separating the hall from the burning portion and allowing the audience to make their exit calmly and safely.

Seven persons were injured by falling timbers while attempting to extinguish the blaze. The electric lights were shut off to prevent accident, leaving the city in darkness. Prof. Kessler, professor of theology, fell from the roof of one of the buildings and broke both legs, besides sustaining internal injuries.

SCOTT MAY GET IT.
The Chicago Herald Man May Buy the St. Paul Globe.

ST. PAUL, June 16.—Newspaper rumor now has it that, if the St. Paul Trust company wins its pending suit against the Globe Publishing company, the Globe will be handed over to James W. Scott, the Napoleonic pugner of the Chicago Herald and the Chicago Evening Post. Some color, more than ordinary, is given to the rumor by recollection of the fact that last winter Scott was in this city and carefully inspected the Globe plant. At that time there was talk of a change, but the gossip died out.

Should the Chicago hustler acquire the Globe it will be fortunate for that paper, as he has the ability to make it fill its field, which it has thus far failed to do. One of the latest developments in the Globe receivership muddle is that H. I. Hall, with the Duluth News company, of Chicago, has made application for the position of receiver. A still later story has gained circulation that J. S. Smalley, secretary of the Democratic central committee, is a strong candidate for the position, which, if created by the court will not prove a sinecure, since there are such large interests involved.

Harvey Officer, attorney for the St. Paul Trust company, is authority for the statement that the Hall will never receive the appointment, although Mr. Officer admitted that he had not learned before of his application. As to Mr. Smalley, Mr. Officer stated he was not the choice of the trust company, and they were at a loss to know whose candidate he was. It is now almost a certainty that a receiver will be named, even in the event of the court deciding that the pretended sale of the plant must be set aside, as practically agreed to by all parties to the litigation, for in that case a receiver will be asked for the old corporation.

MRS. WHITE'S SAD DEATH.
A Touching Chapter in the Recent Tragedy at Washington.

WASHINGTON, June 16.—Among all the chapters of last Friday's terrible tragedy, none is more touching than the one which was closed Wednesday in the death of Mrs. Susie C. White, of this city.

Mrs. White's death was the result of a shock she received when the theater building fell. She was at her residence and was looking out of her window when she heard the information she thought that the building in which her boy was at work was the fatal structure.

She knew of but one pension office, and, waiting for nothing further, she gave shrieks of agony and rushed from the house and ran down toward a pension office building. She ran until she was unconscious to the pavement. Everything that medical science could summon was brought into requisition to restore her, but without avail, and Wednesday she died without having spoken since she fell. The terrible shock killed her.

Grasshoppers in Texas.
HILLSBORO, Tex., June 16.—Many complaints are coming in from the surrounding section of this district from farmers in regard to the destroying of crops by grasshoppers. It is feared many crops will be totally ruined.

Aid for Fargo.

The destitution and distress at Fargo, as a result of the recent destructive fire, are much greater than first reported. Secretary Sullivan, of the Minneapolis jobbers' union, returned yesterday from Fargo, where he had gone to find out the extent of the suffering. There is no doubt, from what Mr. Sullivan found, that the poorer people there are badly in need of immediate assistance. They need clothing, furniture, lumber—in fact, they need everything, for they have nothing. Over 200 residences were burned in the big fire. Not a stick of furniture nor an atom of clothing was saved except that worn by the unfortunate people at the time the conflagration began. Very many families, a few days ago in fairly comfortable circumstances, find themselves today without a place to lay their heads, other than the temporary quarters furnished by the relief committee, these being of necessity insufficient.

There is a great deal of quiet concealed suffering among people who do not like to apply for and accept charity. Rather than be classed as paupers they would go hungry. These people must be helped, however, and their cases will be properly attended to. Mr. Sullivan saw Bishop Walker, of the Episcopal church, and Bishop Shanley, of the Catholic church, while at Fargo. He conferred with both these gentlemen, and found that among the parishioners of both there was some serious suffering. These gentlemen both endorsed the work of the relief committee and expressed the utmost confidence that in their hands the best would be done with the money sent in. The relief committee desires to furnish lumber to those owning lots in Fargo, so that they may erect temporary dwellings and thus avoid having to pay rent. In this way they would have a chance to save a little when employment was secured and eventually rebuild their houses. If they have to pay rent it will be almost impossible for them to save anything.

All these facts indicate that generous contributions must be forthcoming from other cities to relieve Fargo's distress. This is an occasion when Duluth must exhibit its generosity. The jobbers' union has sent \$500, but at least five times that sum should be raised in this city. The common council voted \$200 for this purpose last Monday night. This is a beggarly amount to be voted on such an occasion and The Herald trusts that at its next meeting the council will increase this amount to \$1000. The council of Superior, a city not one-half the size of Duluth, has voted \$1000. Then there is the board of trade, and the stock exchange—they should come to the front at this time and prove that Duluth's generosity is an actuality.

The Class of '93.

The first commencement exercises held in Duluth's new high school building—the finest public school building in the world—formed an event of much interest. The exercises themselves were of that happy character peculiar to class day and they were thoroughly enjoyed

by the audience that filled the large hall to overflowing.

The critical observer could not fail to be pleased with several things. The essays were above the average of commencement productions and indicated that the scholars in the Duluth high school at least are taught to think and to express their ideas in graceful and well rounded sentences, although in one or two instances it was noticeable that directness and purity of expression were sacrificed for grandiloquence. This is a fault, however, that time will correct. The singing was good and indicated the results of a special music teacher's careful training, while the charming appearance of the young ladies in the graduating class bore token of the artistic education they have received.

On the other hand, there were some defects in elocution noticeable, which would undoubtedly have been absent had any training been given by a teacher in elocution. This is a subject to which the school board might well give some attention. On the whole, however, Duluth has reason to feel proud of its school system and especially of the graduating class of '93.

Increased Resources.

A report which has just been issued by Public Examiner Kenyon on the condition of the state and national banks of Minnesota makes a very gratifying showing. The report is on their condition at the close of business on May 4, which is accompanied by a comparative statement of their condition on March 6, when the previous report was issued.

The report shows the condition of both classes of banks to be very good. The total resources of the state banks have amounted to \$42,985,209.57, and those of the national banks to \$68,159,600.11, making a total of \$111,144,809.68. On March 6 the total resources of the state banks amounted to \$42,793,214.68, and those of the national banks to \$67,367,362.07, making a total of \$110,160,576.75.

The increase in the resources of the state banks between the two dates has therefore been \$191,994.89; national banks, \$781,237.14, making a total of \$973,232.03. There has been a total increase of \$112,070 in capital, of which \$60,000 was in the state banks and \$52,070 in the national banks. Three state and one national bank were organized during that time.

The feeling at Washington is that the financial crisis is past. The condition of the country as viewed from a treasury standpoint shows general improvement. Accompanying this report comes the weather crop bulletin from the department of agriculture showing that the past week has been the most favorable one of the entire season. These assurances from the seat of government, says the Kansas City Star, are all that the country ought to require for the restoration of its financial equilibrium. With a sound national credit and the prospect of abundant harvests, the people can afford to take the president's advice and keep cool.

The Washington Star is moved to remark that the citizen of Washington has reason to be proud of this government. It sets the individual an example in the resistance of oppression which is none the less admirable because the citizen prefers letting his collar wilt in torrid inertia to bustling about a bit and securing the co-operation of other individuals to protect their mutual interests. When Uncle Sam thinks that he is being charged too much for ice he refuses to buy at the unreasonable price. It is truly a great government that can defy the ice man.

A sweet and touching sight says the Chicago Herald, will be the next meeting of those two distinguished Sunday-closers, John Wanamaker and Matthew Stanley Quay. Hope they will rejoice over the confusion of the wicked and the exaltation of the good! And what a typical pair of Sunday-closers these two evangelists are—"Bargain counter" Wanamaker, who contributes to corruption funds, and "Slick Mattie" Quay, who distributes them.

A St. Paul woman died a few days ago without receiving any medical treatment, although she had typhoid fever. She was attended by believers in Christian science and the result is that she perished. The law should make an example of these faith curists.

The Eastern railroads are figuring on semi-weekly excursion trains with low fares to the World's fair. This is all right for the East. But when is the West to be similarly favored?

A good appointment recently made by the president was that of George Horton of the Chicago Herald to be consul at

Athens. Mr. Horton is a devoted student of classical and modern Greek and a poet of no mean ability.

President Cleveland is said to be gaining so rapidly in avoirdupois that he has adopted the fasting system in self-defense. But he will never get as hungry as the office seekers.

Contributions of clothing are needed for the Fargo fire sufferers. There are people there who are almost naked, having lost everything in the fire.

Dr. Briggs will continue to teach at Union theological seminary and thus his ideas will be more widely spread.

THE REV. FREDERICK R. GRAVES.

The Episcopal Missionary Bishop-Elect of Shanghai.

The Rev. Mr. Graves was born at Auburn, N. Y., in 1858, was graduated from Hobart college, Geneva, and from the General Theological Seminary in 1881. On March 8, 1881, he was appointed missionary to China. He was ordained to the diaconate in St. Paul's chapel, New York, June 12, by Bishop Horatio Potter, and to the priesthood in the Church of Our Saviour, Hongkong, Shanghai, October 28, 1882, by Bishop C. M. Williams, of Japan.

For a short time Mr. Graves was connected with St. John's college, Shanghai, but he was originally appointed for the station at Wuchang, 300 miles from the mouth of the Yang Tze river, and there he has done the most of his work. He is the rector of the church of the Nativity in that city, and in general charge of the work there. He has had under him three Chinese deacons and a catechist. At last report there were at the station 137 communicants, and 135 pupils, of whom 50 were boarding scholars in the Bishop Boone Memorial school for boys in the city. There were 38 baptisms (Chinese) last year.

THE REV. JOHN MCKIM.

The Episcopal Missionary Bishop-Elect of Yedo.

The Rev. Mr. McKim is in the fortieth year of his age and was graduated from Nashotah seminary in 1879. He was ordained deacon at the close of his junior year, June 16, 1878, by Bishop Brown and advanced to the priesthood upon his graduation. He was appointed to the Japan Mission in 1879, and has long been stationed at Osaka, where he has taken a leading part in evangelistic work. According to the last report received, he had seventeen stations and sub-stations under his charge. There were reported seventy-four baptisms and thirty-five confirmations. Number of communicants in his pastoral care, 411.

THE SCHOOL CLOSING

High School Class of '93 Class Day Exercises at Central High School Last Evening.

The Large Assembly Room Was Decorated With Class and National Colors and Was Filled.

Essays, Full of Thought, Careful Study and Theory Read by Members of the Class.

The class day exercises of the High school graduates for '93 passed off last evening without a hitch. The large assembly hall was completely filled by the friends and relatives of the members of the class who were fortunate enough to secure invitations and tickets. At 8 o'clock scarcely a seat was taken and during the next half hour, the ushers were not idle a single second. By 8:30 o'clock, all were in place, and a beautiful sight it was that greeted their eyes. At the rear of the gallery American flags were neatly draped along the railing. Along the railing on the sides of the galleries, the flags gave way to hunting in the class colors. The same material made a most tasty and pleasing drapery for the wall at the rear of the stage. The electric lights along the base of the gallery front were covered with tissue paper of the class colors—white, blue and gold. The effect was striking and original and threw a soft light over the scene.

From the center of the stage was suspended a shield with a red and blue background. Across its face in letters of gold were the figures '93. Around the stage front were beautiful plants and flowers. All this, with the usual beauty of the hall and the bright glow of the electric lights above and over all, made the scene one of beauty long to be remembered. At 8:30 o'clock the lively strains of the overture "Tancrède," from Hore's orchestra struck the audience. That tender, Professor Currence seized the baton. In response to its motion, the orchestra struck up a march. The audience commenced to applaud enthusiastically, and well they might for the senior class was coming onto the stage. The young gentlemen were dressed in black while the young ladies wore a dress of white, white kid slippers, and white gloves. The young ladies were dressed in black while the young ladies wore a dress of white, white kid slippers, and white gloves. The young ladies were dressed in black while the young ladies wore a dress of white, white kid slippers, and white gloves.

Dr. Sailer's Prayer. The school, then, venerable Dr. Sailer stepped to the front of the stage to deliver the invocation. He thanked the Great Ruler of all for the anniversary and the blessings that crowned the hour. He returned thanks for the public school and the esteem in which it is held by this nation whose flag floats over its roof. The blessing was then extended so as to include the board of directors, the teachers, the pupils and especially the class of '93. The student one in the hour of sorrow was not forgotten and with a hope that each member of the class might always be led to do right, he loyal to the school, the city, the nation and the life beyond, the doctor ended his petition by asking for the class success, laurels, old age and a home in heaven.

The president of the class of '93, Douglas C. Moore, then stepped forward and delivered his address. He said that the exercises of the evening marked the beginning of an epoch and while it had been attempted to arrange the program in a befitting manner, it was a rough field to play for the first time. Fifteen years ago a class of two graduated. In 1890, in 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, THE TRAINING SCHOOL

Closing Exercises and Graduation of Five Young Ladies Who Receive Diplomas as Kindergartners.

Exhibition of Kindergarten Games Given by the Young Ladies of the Training Schools.

Essays on Kindergarten Work, Its Aim and Methods by the Young Lady Graduates.

The closing exercises of the Duluth Normal Training school were held at the high school assembly hall this morning. This afternoon seventeen young women are the pleased possessors of certificates to the effect that they are full fledged school ma'ams. Today's exercises closed the first year of the existence of the latest feature added to Duluth's already admirable public school system. That which for years existed only as an idea in the mind of Superintendent R. E. Denfeld is today a successful reality. If the results of the year past be any guide, the future importance and value of this training school cannot be estimated.

The responsibilities of the year have been deeply felt by those having the training in charge. The step was something of an experiment and the all-powerful public was looking on with close, observing, critical eyes. Superintendent Denfeld has employed his most subtle powers of supervision. Miss Ada Van Stone Harris, who was chosen for the principalship, has worked long and hard, early and late, and with all the power possible from years of experience. Miss Isabella Denning, the kindergarten, has aroused much enthusiasm among the members of the class, and enabled them to secure a full knowledge of the principles underlying and supporting the kindergarten—that indispensable feature of the modern system of education. The special teachers have put forth their best powers with splendid results. Then the young ladies themselves have provided the fertile ground for sowing the seed. That it has sprung up and brought forth, those who have watched the progress of the year and witnessed its final close this morning, will readily testify.

A few minutes after 6 o'clock Superintendent Denfeld, Miss Harris, Miss Denning and Miss Earhart took their respective seats on the stage. Then the members of the class quietly filed in and took the chairs arranged for them. It was a fine appearing collection of young ladies—worth going many miles to see. A majority of them will teach next year in the Duluth schools. The names of the sixteen graduates are:

Graduate department: Mary Belle Patterson, Mary Madeline Miller, Grace Alice Jefferson, Ella Jessie Barrows, Mary Isabel Craig, H. Estelle Avery, Mary McHugh, Phoebe Nichols, Florence Katherine, Lucretia Schlager, Elizabeth Smith, Lou Bassett.

Kindergarten department: Susie May Johnson, Caroline Harriet Rogers, Anna Marie Farrell, Maude Nichols, Geneva Nichols.

Miss Grace Danforth, the assistant kindergarten, touched the piano keys. At the sound of the first note, the class arose, stepped to the stage front and intently sang a song, "Rosy Morning."

The Year's Retrospection.
Miss Mary Craig was the first essayist and her subject was "The Year's Retrospection." This paper was a brief review of the year and results of the Duluth Training school for the year past. The introductory was most pleasing and informed the listeners that through modesty the quietness of the graduates would not be illustrated. The fact was set forth, however, that today sixteen young ladies go forth equipped with the latest theories in the art of pedagogy, clothed, as it were, with methods of the most approved modern systems and conversant in practical and popular ideas of education, having arrived at such a state of mind as to feel that they are ready to take up the work of the training school for the year past.

Miss Craig said that the first practical work of a training school is observation. The reasons for this are that the graduates are to be able to observe the work of the method and then applying it one's self was interestingly explained and emphasized. The value of criticism, at first unwelcome and injurious to the feelings, was acknowledged, also an admission frankly made that visitors had been productive of great good, despite the fact that at first the class entertained a hostile feeling towards them. One of the frequent criticisms from the instructors was of a lack of animation. At first, some of the young ladies held an idea that to swallow a bunch of fire crackers before giving a lesson, was the surest remedy, but in time, the fault was remedied, without so radical an experiment. Instruction in methods was another important part in the course of study. In studying the different methods, the various systems of education were taken up. That gave the benefit of the defects of the methods and of the mistakes of the educators directing such methods.

Continuing, the speaker said that one of the things to study when becoming a teacher is nature. Scientific researches were assisted by various collections of objects from the vegetable, animal and mineral worlds. Nature in all its forms was brought into the schoolroom and studied by pupil and teacher. The natural growth of the child contains method as well as other things in nature, therefore connection between the child and nature was noted. The interest in and the benefit of the work of the special teachers, music, drawing, penmanship, physical culture, etc., was acknowledged and endorsed in a most complimentary manner and special stress placed on good influence and the great value of the kindergarten. The work in psychology came in for its share of praise and attention also.

In closing the ideal teacher was defined as "One who has lofty conceptions of human life and duty, generous sympathies, keen discernment of life's realities, and who fully appreciates its responsibility and privileges. The ideal teacher is a scholar, philosopher, philanthropist; one who loves all; one who recognizes the inherent dignity of the human soul; one who accepts the fact that practically supreme fact that every being who bears God's image, has, in general the possibilities of all human excellence and attainments, and is entitled to the fullest development possible. To attain this in all the term implies hard, faithful work toward the end of harmonious development. It may be that none of this training class will reach a sufficient degree of perfection to be classed as the ideal teacher, but we have the inspiration of the ideal before us and each year will attempt to reach the stage of perfection in our profession."

Kindergarten games came next. Those chosen were, "One by One," "The Clock," "The Cribber" and "Equal Measure." Miss Denning briefly explained what the various exercises were intended to show and then the young ladies proceeded to play them, just as would a class of four-year-olds. It was much more interesting than when done by children. The "Midway Playhouse" seemed so interesting in comparison if the appreciation shown by the applause be taken as a proof.

The Kindergarten's Message.
The subject of a carefully studied essay by Miss Caroline Rogers, Miss Rogers showed how the ideas of education advanced from the time of Socrates, through Bacon, Comenius, Pestalozzi to Froebel, who accepted all the thoughts of those who came before him and united, harmonized and developed them—bringing them into practical completeness. Then it was shown how Froebel by observation arrived at certain conclusions as to the nature of children, and the gradual evolution of the kindergarten, with its message of life. The kindergarten forms an indispensable link in a harmonious system of education, equally adapted to all human beings, equally necessary to the full development of all the powers of every child.

The real worth of Froebel's discovery is in the idea of education as a life. The kindergarten is the harmonious growth of the body, mind and soul. The child is to see clearly within his own soul that his life is a part of all life—that of the family, nation and all mankind and that God exists, lives and works in all and through all. Those who have the idea that the kindergarten does nothing for a child but amuse him, should visit a well regulated kindergarten and see how apparent is the underlying principle. Froebel's theory was explained in detail and the essay continued.

"Everything in the kindergarten is planned to develop the good, the noble, the right in the child. One child is given no more attention than another which generates a feeling of equality and checks all tendencies to bigotry and self-conceit. The whole plan and purpose of the kindergarten is, in fact, to so develop a child that he is noble, honest, honorable, and consequently happy and useful. One of the greatest factors in this training is the bringing of the children through their play so largely into real life. So we see the kindergarten is not simply a play garden, but a garden where the little plants are being cultivated. They learn to cultivate the harmonious relations, and that power increases as they grow older, until they see through nature up to nature's God. The kindergarten finds wisdom and beauty in the work of those not so trained. The children of today are the men and women of tomorrow. It is, then, the work of the kindergarten to commence a true, right development."

"Thus, the message of the kindergarten is going out in all parts of the world, the work of the kindergarten is one of the most important reforms ever known, for it strikes at the root of all evil, supplanting evil with good and the growth of a love to God and a love for each other, which is the fulfilling of the law."

In a highly pleasing manner Miss Anna Farrell rendered a vocal solo, "Ora Pro Nobis."

Professional Training.
The advantages of a Professional Training were presented by Miss Mamie Patterson. In opening Miss Patterson spoke of education and the part it has filled in the world. The ablest minds of every nation have thoughtfully pondered this subject. It is today the inspiration of the largest and most influential gatherings of cultivated men and women to be found on the continent. The results of well directed education should be physical and mental power, good habits, pure and elevated tastes, a well stored intellect and a noble character. But how are these results to be obtained? Only through uniting the efforts of faithful, unselfish and competent teachers. Teaching is an elevated profession for which the requisites are, high intellectual attainments, an active intelligence, a special training, and a balanced manhood or womanhood. The lawyer, the doctor, receives professional training for his calling. Shall the teachers alone be the ones who enter their profession unprepared?

A professional training for the teachers is more necessary than for any other profession, as the future of society rests entirely on the efforts of the teacher.

Professional training will bring with it many advantages. Before entering the training school the pupil teacher should have seen the importance of culture and scholarship and must possess a thirst for knowledge. Professional training will increase the desire for knowledge. The teacher must be progressive. Her ideal should be high, she must set before herself a standard of attainments of physical, intellectual and moral. In teaching, first of all she must be sure of nature, and language must be translated, we must sit at her feet. She is the great normal teacher and her vast domain the great normal school. Teaching, whether regarded as a process of drawing out the intellectual powers or as imparting knowledge, is conditional upon the laws of mental growth and assimilation. The human mind has a very complex organization and the laws of its development can be understood only by careful study. Our aim should be to seek by concentration of energy strictly professional work to touch the profession at every point and vitalize and ennoble it in every part.

"Finger Plays" as follows were most acceptable part of the program to the audience: "Merry Little Men," "The Squirrel," "Making Bread," "The Butter," "Counting Lesson," "The Sparrows."

The True Vocation.
"From Life, Thro' Life, To Life" was the title of an essay full of deep thought by Miss Geneva Nichols. Miss Nichols

brought out the importance of cultivating the action of the senses, the gates to all mental development in such a way as to render them self active by their appropriate combinations with pleasure and pain and to offer their self activity a succession of outward impressions which will leave distinct and by rejection, lasting traces and the most complete images of objects, accompanied by sensations and influences. This idea was not fully elaborated until Froebel invented his kindergarten. He did not begin at first with the youngest children but found in the course of long and active practice in teaching that the faculties of children are stunted in infancy. He went back till he found that the child's education must begin with the line of his habits must be formed, his sympathies ministered to and his thorough development made a subject of serious study.

The real instrumentality, in a certain sense the only one, by which culture can be effected is self exertion. This exercise is the individual's own work but it is the work of nature and development of the individual has acquired sufficient knowledge and experience to direct the exercise himself. This is the true vocation of the kindergarten. It is not to teach the child but to lead it. One cannot have an adequate idea of the powers and possibilities of a little child who is not only acquainted with the work of a kindergarten and of the training which results from its influence. But if the spirit in which the exercises are conducted is missing, if the treatment is mechanical, all the moral influence which should spring from the cheerful self activity of the child is lost. The child must be led into the harmless joy from which the child's self government is to take its growth. The child must be made to feel the power and beauty of love and the difference between disinterestedness and selfishness. And when it understands this it will begin to realize something of Christ's character. Related to this is the culture of the soul, a culture which is made paramount to all in the kindergarten. It is through following the course of nature and development that the first ideas and material for the kindergarten are taken—"from life," by the further evolution of this idea and the investigation into a large fortune must result the child is carried "thru' life," and this journey through nature, bringing as it does a knowledge of all that is good, true and beautiful, leads by a direct path to true living—"to life."

After the class had placed all with another song, "Kindergarten," the class, under the title of "In Years to Come," was given by Mary McHugh. There was a Sameness in the manner of the kindergarten, the members of the class, for in most cases, she looked into the future and saw them teaching school. True, some were teaching art, others kindergarten work and others were doing regular grade work. Several were in connection with their work, pursuing special subjects and several others were in connection with the kindergarten, as the result of faithful and effective teaching. Miss Miller, the exception, was assigned the fate of an artist and her work was a large fortune which she was putting to a good use. The paper was nicely delivered and contained many allusions better understood by the class than by the audience, which enjoyed the prophecy as audiences always do.

A "Physical Culture Exercise" was given under the direction of Professor Althaus, director in that department. That was followed by the presentation of certificates by Superintendent R. E. Denfeld. His remarks were brief, but worth remembering in future years. The exercises closed with a song by the class, "Farwell."

THE DISTRICT COURT

The Iron Range Right-of-Way Case Submitted Yesterday Afternoon—A Similar Case Settled.

Clifford Clements Secured a Verdict of \$450 Against the Northern Pacific Railway Company.

William Smith's Trial Before Judge Lewis For Grand Larceny Proves to be Quite Interesting.

The Iron Range right of way case was concluded before Judge Ensign yesterday afternoon and submitted on written briefs. The case of James Sheridan et al against the Chandler Iron company was announced as settled. In Grant Wyatt against D. K. Pearson a jury had been drawn ready for the trial when the parties got together and settled their differences.

Samuel F. Snively et al against William C. Bond et al was the next case on the calendar. In this also a jury was drawn without avail. The plaintiffs moved to amend the complaint by dismissing as to one of the defendants. The motion was granted, the jury discharged and the case continued. Before Judge Ensign this morning the trial of Albert Poirier against the city of Duluth was begun. There are two cases, Nos. 122 and 123, and it was agreed to try them together.

In Judge Lewis' room the jury returned a verdict of \$450 for Clifford E. Clements against the Northern Pacific Railroad company on account of injuries received while coupling cars. Clements asked for \$1050. A stay of twenty days was granted. A stay of twenty days was granted. In Enclid C. Lafolais against John Degraese. The case of Thomas H. Crosswell against Thomas F. Foley et al was dismissed on stipulation. In Elizabeth K. Brown against Lizzie E. Markus, a jury was waived and the case was placed on the court calendar.

Judge Lewis reached the criminal calendar about 5 o'clock last evening. The case of William Smith was taken up first. Smith, it is alleged, went into a West Duluth saloon where several reputable business men were playing a game of seven up for the cigars. He picked the pockets of one of the players, went into the back room, abstracted the money and returned to the saloon, dropped the book on the floor under the table, where it was found later with valuable papers which it contained. Unnoticed John Whitty and Louis Dupree, who were hanging around the saloon, saw the theft. They demanded a "piece of the money." Smith claimed there was \$30 in the pocketbook, and agreeing to divide, gave the sharp-eyed saloon loungers \$15. The owner of the pocketbook, however, claims it contained at least \$100 in cash. Grand larceny in the second degree is charged.

When Smith's case is finished Frank Parshel will be brought up. He is under two indictments for grand larceny in the second degree. Should he plead guilty as has been intimated the case against Peter Carlo will be taken up at once.

VERY LITTLE RESPONSE.

Contributions for Fargo Sufferers Not Coming in Liberally.

The appeal for aid for the Fargo sufferers has not brought a very ready response from Duluth's citizens. Help is urgently needed in the way of clothing for women and children. The following telegram was received from the mayor yesterday:

Upen inquiry since yesterday's telegram I find we need shoes and under-clothing for women and children.

EMERSON H. SMITH, Mayor.

Another one was received later and is as follows:

We need women and children's under-clothing and dresses and pants for boys from 5 to 8 years of age. Also something in towels, sheets and pillowcases, old or new, bedding, pillows, etc.

EMERSON H. SMITH, Mayor.

It was announced yesterday that contributions would be received at 208 West Superior street, but only one package was left.

The Court Filings.

In Jonas Miller against Herman E. Long the order of Judge Ensign was filed this morning, sustaining plaintiff's demurrer to the counter claim set up by defendant in his amended answer.

O'Brien & Co. claim a lien of \$26.50 for maritime services on the scows Chambers and Guard, owned by Simon Clark & Co. They allege that the assignee is negotiating a sale to the Duluth, Missabe & Northern railroad company.

Notice of lien has been given the railroad and petitioners ask an order allowing assignee to pay their claim.

B. L. Hill has commenced suit against Frank Ziminski for \$557.82 for lumber and materials sold.

A PLEASANT TRIP.

Stillwater City Officers, Aldermen and Citizens Here Today.

A large party of city officers, aldermen and other citizens arrived from Stillwater this morning to spend a few days in Duluth and vicinity. The trip was arranged by Judge Nethaway and the St. Paul & Duluth road donated the use of a car. They arrived in the city this morning and are quartered mostly at the St. Louis hotel, a few, however, being at the Spalding. They came practically unannounced and trip in the manner of an informal pleasure trip than anything else. This morning they drove around the boulevard and expected to spend the afternoon on the bay. Tomorrow they will go to Superior and return in the evening. Sunday morning will be spent in Duluth and the party will leave for home on the limited at 1:55 o'clock.

In the party are: Mayor A. Staples and ladies, City Clerk J. F. Burke and wife, City Treasurer A. C. Hospes and wife, Miss Eva Hospes, Louis Hospes, City Assessor J. A. O'Shaughnessy, City Attorney H. H. Gillen, Chief of Police G. W. Smith and wife, Municipal Judge J. C. Nethaway, wife and child, Deputy Warden F. H. Lemon, of the states prison, and wife, Alderman B. J. Mosier and daughter, Alderman John McCarthy and daughter, Alderman James Goodman and wife, Alderman J. J. Eucher and wife, M. A. Torinus and wife, Mrs. H. M. Torinus, G. F. Kinney, Peter Jourdan and wife, L. B. Castle and wife, Miss Lang, Miss McCallus and Sheriff Adam Martz.

The Heat Is Fearful.

A good many men are leaving the mining and railroad work on the range and coming into Duluth on account of the extreme heat. But their places are readily filled. One firm today brought in eighty men direct from Chicago for railroad work, paying \$8 per man railroad fare from Chicago.

Hard to Believe!

But it's a fact that we can take your measure and make you a good business suit to order for only \$10.00 and upwards. Call and inspect our heavy assortment of samples and be convinced. Perfect fit guaranteed or no sale.

IS NOT RESPONSIBLE.

The Government Engineer Has Nothing to Do With the Range Lights.

Maj. C. B. Sears wishes it to be understood that the government engineer's office in Duluth has nothing whatever to do with the buoying and lighting of the harbor. This is entirely out of his past and is entirely under the direction of the light-house department. He made a proposition some time ago to the light-house engineer suggesting a plan of co-operation in arranging for the clusters of piles and the lighting of the channel but it was not favorably received.

The delay in placing the range is probably due to the fact that the lights are being constructed. Each lamp will be a five day light and they will cost \$50 or more apiece and delay in manufacture is probably the cause for their not being here.

Teams! Teams! Teams!

The large Oden will transfer teams between Garfield avenue and Tower bay ship, making round trip in forty minutes.

\$200 Cash.
